

Bantist and Whisky.

The following scene is said to have ocmed in a drinking saloon in the town A. A. I will represent the parties by B. and W., and give the conversaon which is reported to have taken ace.)

W, had gone into the liquor traffic for the purpose of supporting his famv. He had a very small capital with high to begin business, and he could ot believe that he could possibly ensige in anything that would pay him sufficient profit unless it were whisbout contributing to the ruin of hun- Blacksmiths, ireds, but the old argument was at and, "Others sell and why not 1?" After he opened business and commence the work of ruin upon his fellow creatures he was much troubled, and regretted that he had invested his noney in the sinful traffic. But the usual solace came to mind-'I cannot afford to lose what capital I have invested; I am too poor; and therefore I will sell on till I close out, buying just enough to keep up the stock. From day to day he was greatly surprised at the men he had for customers. Some he knew and some were strangers, whose position in life he did not know. One morning, when sales were somewhat dull, Mr. B. stepped in and ealled for brandy. W. eyed him for a moment and then said : Mr. B. are you a member of the Church? B .- Yes; I belong to the church at

R----W .- Do you think, Mr. B., that Church members should come into such a place as this and drink?

or hard wood, but soft timber requires it to be set wider. Lightning Saws are all set and sharpened ready for use when sent out; are two guages this ner on back.

NEW YORK. AMBRICAN INSTITUTE FAIR BUILDING, Nov 4, 1871. E. M. BOYNTON, 80 Beekman St., New York-Sir: This certifies that I saw the Lightning Cross-Cut Saw, worked by hand, by two men and saw cut off a sound 8x9 inch chesnet log in 3 3 4 meconds ; and 16 cuts of same continuously, in two minutes and 18 seconds, or at the rate of a cord of wood in less Code Commissioners. than nine minutes. I am satisfied that for all purposes of cross-cutting large and small timber. your cross-cut and wood saws have ho rival in speed, in case and in simplicity.

I be ieve their universal use would save a vast amount of money and time, and lighten the toil of J. W. BLAKE; millions of men. Superintendent and Engineer, American Institute Fair.

N. B. These extreme tests are quoted merely to prove what should be obvious-that direct cutting preme Court. Superior Courts. such interior s better than the old V frietien process used by all other saws. Honest hardware men will procure the gennine for their customers, even if they are overstocked with inferior goods, but where they do not keep them, agents are wanted.

N B. Millions of axes are used for cutting wood: a Lightning Cross-Cut Saw, either for one man or for two, will cut five times as fast as an axe. Why not try them ! Also, Lightning Ice Saws, 4 to 6 feet so that said section shall read as followlong, suitable for general use.

See that the name and warrant are on each saw. E. M. BOYNTON, Sole Proprietor and Manufacturer.

Constitutional Amendments. "The county authorities established and au-Passed in the House of Representatives January 17, 1872.

AN ACT to alter the Constitution of North Carolim

The General Assembly of North Carolina do enact (three-fifths of all the members of each House concurring.)

That the Constitution of this State be altered as follows, to wit : Amend section six, of the first article, by

striking out the first clause thereof, down to and including the word "but;" this being the clause be altered." relating to the State debt. Amend section two of the second article by

striking out the word "annually," and inserting in fieu thereof, the word "biennisliy;" being in reference to the sessions of the General Assembly.

Amend section five of the second article, he striking out all that precedes the words, "the said Senate districts," and by striking out the and in lieu thereof invert the following : "The phrase "as aforesaid or " in said section ; the General Assembly shall make suitable proparts so stricken out having reference to the State census,

ican market. No manufacturer of Saws has dared to question or publicly test at the Amer-ican Institute, or otherwise, the matter of supe-riority of the latest improved Saws. The \$560 Add a new section to the second article to be styled "section 30," and to read as follows :--The members of the general Assembly shall challenge for expenses of public contest is eneach receive three hundred dollars as a compensation for their services during their term The large increase of the business has com subject to such regulations in regard to time of pelled lease of No. 80 Beekman street, and arrangements for the manufacture of five thousand payment and reduction for non-attendance as LIGHTNING Cross cuts per month, and hope may he prescribed by law; but they may have

an additional allowance when they are called The supply has been unequal to the demand of the LIGHTNINGBUCK SAW, but hereafter I together in special session, and mileage shall be ten cents per mile for each session." will endeavor to keep a stock on hand. The saie of seveal dozen of the above mentioned

Saws causes belief that they are the best blades in the market. All Lightning Saws are indel-ibly etched with my name, the Cross-Cuts with occur first in said section, and inserting, in lieu thereof, the words "two years," being in referirections for filing. using. &c. ence to the terms of executive officers. Each Lightning 'aw will coil and touch ends

Strike out the words " Superintendent of Pub uninjured. Not one in twenty thousand has proved imperfect so thorough is the inspection of these regular goods; but for the benefit of such unskilled men as can not set and use a lic Works," wherever they occur in the Consti tution, thus abolishing that effice.

Amend section six of the third article, by thin saw, a guage heavier (than regular 12) will striking dut the word "annually" and in be inserted to order. Since enlargement of dust serting, in lien thereof, the word "biennial space, one year ago, no complaint of clogging ly." so as to conform to the provisions respecting the sessions of the General Assemequally acapted for small and large timber. soft

Strike out sections two and three of the fourth article, being the provisions which re

fer to the appointment and duties of the Alter section four of the fourth article, so that said section shall read as follows : "The indicial power of the State shall be vested in a court for the trial of impeachments, a Su-Courts as may be established by law, and courts of Justice- of the Peace." Alter section eight of the fourth article. The Supreme Court shall consist of a Chief Justice and two Associate Justices: Provi

E. M. Boynton's Lightning One man Cross cut. for cutting Wood, Joists, Logs and Timber, and saw-

Why Use the Lightning Saw !

Because the fastest is the cleapest, IF SIMPLF.

As it costs five hundred or more dollars for the labor that wears out the cross-cat saw, a saving of onefifth by speed and case of an improved saw saves the cost of a dozen. The only difficulty has been established by law. in such manner as it that unskilliful men neglect to shorten any cleaning teeth property, if complicated. These patent teeth are all of one length and no shorthing required and cut twice as fast as common of appeals, and regulate by law when

saws. There have been many devices for clearer teeth, bat no other patent cutting teeth for cross cutting but these are known Why should a saw tooth be in an indirect rasped V, riding over the tin ter, when, exercise of their powers. of all the courts of the outside edges be projected and points double with one dress of set, a direct cutting and clearing below the Supreme Court, so far as the same a substituted? True, it will require better steel and harder tempering for a cutting saw, but do you may be done without conflict with other proay a poor tool of any other description, or use a rough rasp to sharpen your penknik? Note carefulthese Patent Cutters, how different from any other saw :

Ist. Doub e pointed, with ONE DELES AND SET for two points on one side of kerf, and next two reversed cut on other side 2nd, One point behind the other, consequently cats and clears only with outside edges. No slant cut of the fourth article.

o guage out. If one point of M tooth was set one way and one the other, the slant would ride and ft out the tooth.

3d. Cuts at a direct or opposite angle to the old V too'h saw, beneath all sawdust, as a plow instead of a harrow. 4th. Are edged with an oil stone after filing teeth.

5th. These are the only patent direct cutting and clearing teeth known for cross cutting saws: cut faster, easier than any other, and are, with present form, as simple to sharpen as the old & tooth, as M shape.

BOYNTON'S PATENT LIGHTNING SAW.

running, with the celebrated PATENT STEM WIND- for deep gunming are so byious that we will only name four other points of comparison, viz: Speed, SPRED -All are aware that an ordinary hand saw cuts only one wry; i. e. the front cut is more ef. for in this constitution. shall elect two jusfective than the back, or retreating cut. These teeth, with their opposite cutting faces, cutting in line, tices of the peace for such term as may be are equivolent to the front cut both ways of the hand saw, in distinction to the back cuts of the old V fixed by law, whose jurisdiction shall extend saw. Hence speed is inevitable.

EASE OF CUTTING .- It is easier to plow a grove in timber than to crush one out. The application of price GOLD CHRONOMETER WATCH at one- this principle is very perfect, all the teeth being of even length, double pointed, cut with outside vertitwentieth the cost. Price each LADIFS' or GENTS' cal and projecting edges, and clear simultaneously with the same.

SIMPLICITY .- This is obvious, all the points being like handsaw teeth, viz: the same length. No in those precincts which contain cities or or \$60 per half dozen ; \$100 per dozen to clubs hooks, or thick raking teeth, to be shortened; only one mill file is required to keep them in order. and towns, or in which other special reasons renthey are escasy tor the unskilled laborer to sharpen as the old tashiot ed saw .

PERFECT ('LEARANCE.-Continuously cutting and clearing, these opposite 'cutting faces' not only cut, but clear, by lifting the fibre above the projecting blades, like a plow, which is the most perfect cities and incorporated towns shall have

By their circular we see that two Boyzton brothers, by hand, cut off a twelve-inch sycamore (button-Or, wE will forward them by Express WITHOUT wood) log in eight seconds, before Major General Meade and other distinguished men. at Independance by st-iking out the word "township" and THE MONEY, and you can pay the price to the Express AGENT (with Express Charges Ex-TRA for the privilege) on the delivery of them (including lost time) in Michigan. Such work, by two men, with one saw once, fied is

by death. resignation. or o herwise, the num ber of Associate Justices shall be reduced to two.

Alter section twelve of the fourth article so that said section shall read as follows : "The State shall be divided into nine judieial districts for each of which a judge shall be chosen; and in each district a Superior Court shall be held at least twice i each year to continue for such time in each connty r spectively as may be prescribed by law. The General Assembly shall lay off said distriets in due time, so that the said nine judges may be chosen and begin their official term at the first general election for mem bers of the General Assembly which shall occur after the ratification of this section." The General-Assembly may reduce or in

crease the number of Districts to take effect at the end of each judicial term. Strike out section thirt en of the fourth article which fixes the present judicial dis
