☞ Miss Alice Pearson will re-open her School on Monday Sept. 16.

The Hog Ordinance Enforced.—Our City fathers have been amusing themselves the past week catching and penning hogs.

The Raleigh Daily News.—This excellent daily Newspaper reaches us semi-occasionally. This is a great annoyance to us, as it is one of our most valued exchanges. What's the matter Stone?

Watermelons.—We are indebted to Capt. John Beard for a couple of fine Watermelons. They were of a superior kind and flavor. The seed were procured from Mr. James Vick, the great seedsman, Rochester, N. Y.

The Mansion Hotel, under the hand of the proprietor, Mr. John I. Shaver, is recovering its ancient renown. His son, Mr. Edward Shaver, is the immediate party controling, Mrs. Wren presiding over the culinary department. The House has been thoroughly overhauled, painted and refitted; and with its ample shades, is now one of the pleasantest places to be found during this sultry weather.

Artificial Flowers &c.—We were shown a few days since a box of artificial flowers, made of paper, which will compare favorably with any thing of the kind we have ever seen: Also, a couple of Picture frames decorated with hundreds of tiny sea-shells in the most beautiful and tasteful manner, and making a very handsome frame for a picture. The work in both cases was done by Mrs Thos. B. Long, and will be on exhibition, we understand, at the State Fair.

The News from 33 counties in West Virginia, is to the effect that Jacobs, present Governor, has a majority of 6,000. Jacobs is probably elected. He was not the regular nominee, but a Democrat. The result upon the constitution is doubtful.

The raids in Belfast, Ireland were progressing finely at last accounts.

Gen. Dix, of New York, declines the Radical nomination for governor.

It is said that Charles O'Connor will decline the nomination of the "Straights" for the Presidency.

On the 12th inst., two men, named Windell and Clendenin, were waiting at West Columbia, Mason county, West Virginia, for a steamer to arrive. A storm came up suddenly and they ran up a hill to get shelter from some trees. About half way up both were killed by lightning. The bodies were terribly disfigured.

First of the Season.—Mr. Charles F. Baker has sent us the first specimen of the growing Sweet Potato crop. If these samples are a fair representation of the coming crop generally it will be large and fine. Potatoes grow til frost comes, and that is at least six weeks off, and the sample before us weighs two pounds.

Flag Raising.—The Greeley men of Rowan had a flag raising in this place on Saturday. They run up the U. S. Flag with the names of Greeley & Brown attached at the end. Below the names is the motto, "Union and Peace." The names of these candidates and this motto went up gallantly to the tune of Dixie, admirably performed by our unsurpassed amateur brass band, led by their accomplished musical preceptor, Mr. Ed. Neave. It was greeted with hearty cheers by the assembled people, and floated out in grand stile.

Several public speakers were present—Robbins, Leach, and Shober—who, on being called, addressed the people in terms at once stiring and appropriate. They were listened to with marked attention, and elicited frequent applause. The lists of the Greeley club were then opened and a large number enrolled their names.

☞ The Rev. J. Rumple, for some weeks fulfilling appointment for missionary work beyond the Blue Ridge, is expected to return with his family, early in September. At last accounts both he and his family had enjoyed excellent health. Mr. R. has found a very interesting field of labour, and though much engaged, his temporary sojourn among the mountains and the mountain people, has been exceedingly pleasant.

A pretty large party of excursionists went to Old Fort on Saturday.

Fights.—The fiery heat of last week developed an unusual amount combativeness in our orderly Town. To begin at the beginning: The *Tribune* sprung a mine under Windy Billy, and sent him high up gyrating in the air, with various offensive appendages, which, however pleasing to Billy for at least two days, did finally, generate an electrical explosion. The petty, but most mysterious storm, gathered unperceived, and fell with a crash upon the editor of the *Tribune*, who just had time to catch its fury upon the little finger of his right hand. The parties very soon clinched, and "they say," had out-siders left them alone, Billy would have gone *down*, next time, instead of *up*. Casualties, one little finger broken and some hair pulled.

No. 2. Scott Brown laughed at Billy while in the *air*, as did others, and understanding the case, said "served him right," or words to that purport. Hearing which, he trapped Scott in a room in presence of cronies, and demanded explanations, definitions, or specifications, the which Scott gave with real boyish bluntness, and of a tenor so unexpected, that Billy fired a pistol at him while passing towards the door. This was highly sensational, and might have led to a fearful row, but it passed without anything more of consequence between the parties themselves.

No. 3. Next day, Saturday, about noon, Windy was struting the streets with his hat to one side, as lordly as "a Bashaw with three tails," not improbably reviewing the incidents of his exploits of the preceeding two nights; and chancing to pass near Scott, that little fellow sprang up, and, with a stick, at one blow, felled him to the ground. This was a re-opening of the trouble of the preceeding night, and also a closing of it; for now, at last, the officers of the law came in and took the parties under arrest and bound them over to answer.

4th. But while these heroic (isn't Billy a hero!) deeds were transpiring, there were other little personal encounters, having more or less connection with them. *All* of them sprung from the turbulence of Billy and his friends, who seem to have gathered here for the purpose of making Billy fight, or doing it themselves. Billy made nothing by it—his friend, Walser, of Davidson, got a sore place, and Wm. B. March carried off his winnings in his pipe. If they aimed to renew the "rebellion," they failed to make the thing widen out. Their little storm tore themselves to the amusement of the public.

P. S. Since the above was in type we have learned that a U. S. officer is here in obedience to a call for troops, sent, no doubt, by some radical ninny, who thinks he has but to speak, and the whole power of the Government will be instantly exerted to do his bidding. We are informed that the officer is an intelligent man, and if so, he will go away disgusted at the peurility of those here who *think* they stand so near the throne as that its power is their's.

☞ The annual meeting of stockholders in the West. N. C. R. R. takes place at Old Fort to-day.

Eclectic Magazine.—The *Eclectic* for September is at hand. It furnishes its readers by way of embellishment with a fine portrait on steel of Dr. Dollinger, the great German Theologian, the leader of the opposition to Papal Infallibility, and one who gives promise of being the Luther of a new Reformation.

The table of contents has been selected with an eye to midsummer reading, and among the more solid papers which the *Eclectic* always contains, presents an attractive variety of light and entertaining literature. The leading article is an enjoyable essay on "*Wit and Humor*," abounding in shrewd analysis and apt quotation. General Cluseret, of Communistic fame, gives a suggestive account of his "*Connection with Fenianism*;" "*Thoughts upon Government*," by Arthur Helps, is continued; there is a fine lecture by W. G. Clark on "*The Middle Ages and the Revival of Learning*;" and papers on "*Clever Fishes*," "*Chateaubriand*;" "*From Cairo to Athens*;" "*Romance of Arithmetic*;" "*The Recent Fossil Man*;" etc. "*The Strange Adventures of a Phaeton*" is continued, and there is an excellent short story by the author of "*Patty*." "*Barney Geoghegan, the Irish Member*," is a highly amusing caricature.

SCHOOL HISTORY, BY HON. A. H. STPHENS—A REVIEW BY REV. D WILLS. D. D. PRESIDENT OF OGLETHORPE UNIVERSITY, ATLANTA, GA.

A compendium of the history of the United States, from the earliest settlements to 1872, designed to answer the purpose of a text book in schools and colleges, as well as to meet the wants of general readers by Alexander H. Stephens, author of the "Constitutional View of the late War between the States," and Professor elect of History and Political Science in the Univeristy of Georgia, New York: E. J. Hale & Son, Publisher, Murray street:

This valuable word which has been anxiously looked for, has recently appeared in a decidedly attractive and popular form. Its typograhical and mechanical execution reflects credit on the house which has issued it; and its convenient size, solid binding and happy arrangement into chapters and sections, admirably adapt it to the use of schools and colleges. As a text book, we predict for this compend a hearty and extensive, adoption; and as a work for general instruction, no reader in the land ought to be without a copy of it. The Southern people may be justly proud of this noble contribution to their growing literature, and the grand old common wealth of Georgia will doubtless evince an appreciation of the industry, patriotism and talents of her distinguished son, by giving this richly-stored volume a cordial welcome to the thousands of her intelligent and happy households. We believe that this work of the great Georgian is designed to become the standard of historic truth and excellence for centuries to come, just as Mr. Stephens' work on the War between the States is acknowledged to be the most complete and triumphant vindication of the Southern people ever placed on record.

Very Natural.

An old lady, on entering a store the other day, said: "Why, it can't be that you keep this store yet! I thought you had gone out of business. I ain't seen your name or anything about your store in the paper for over a year, and everybody in our neighborhood thinks you have gone out of business."

A PERILOUS SEASON.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective, and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered, both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

FARMERS' WAREHOUSE,
DANVILLE, VIRGINIA.

To the planters of Virginia and N. Carolina:

As the present fiscal year is drawing to a close, and the bulk of the Tobacco crop marketed, we deem it our duty to express our thanks for the patronage extended to our House during the year. We do not complain, but feel greatly encouraged by the proportion of trade done by us this season, and while some older establishments may have sold more Tobacco than we, none have made a better monthly or yearly average than we have.

Our average for the month of May, was $14 82
" " " June, " 15 30
" " " July, " 15 82

Our market during the year has been a lively one and has been marked by a steadiness and firmness unsurpassed by any market in the State; and in view of the early maturity of the growing crop, we advise all, to market the balance of their old crop as early as practicable.

Our senior partner having leased the house for a term of years, our business, (without any material change in the same of the firm,) will be conducted in the same efficient manner as heretofore; and with the house enlarged and improved we can safely say to our friends and the public, generally, in again soliciting their patronage, that we can offer them as good accommodations and serve them as efficiently and satisfactorily as any other house in Danville.

When you come to town, give us a call. Parties wishing to send us tobacco can do so by rail, and it will be taken from the depot free of charges and remittance promptly made by Express or mail. We can promise quick returns as the sales are now small and the prices good.

THE AMERICAN

BUTTON-HOLE, OVERSEAMING AND *Complete Sewing MACHINE.*

The first and only BUTTON-HOLE AND SEWING MACHINE combined that has made its advent in this or any other country.

☞ The following reasons are given why this is the best

Family Machine to Purchase.

1. Because it will do everything that any machine can do, sewing from the finest to the coarsest material, hemming, felling, cording, braiding, oinding, gathering and sewing on, at the same time ruffling, quilting, etc. better than any other machine.
2. Because the tensions are more easily adjusted and than any other machine.
3. Because it can work a beautiful button-hole making a neat and beautiful border on any garment.
4. Because it will embroider over the edge a beautiful eyelet hole.
5. Because it will work over-hand seaming, by which sheets pillow cases and the like are sewed over and over.
6. Because it can do making and sewing on the same time ruffling, centre; the tension is any other machine. not broken and any other machine.
7. Because you can change the pressure to adapt it to thick or thin cloth.
8. Because you have a short deep bottom by which the thread is covering and sewing on, at drawn from the once and any other machine.
9. Because the presser-foot turns back, that the cloth can be easily removed after being sewed.
10. Because the best mechanics pronounce it the best finished and made on the best principle of any machine manufactured. It has no springs to break; nothing to get out of order.
11. Because it is two machines in one. A Button-hole Working and Sewing Machine combined.

☞ No other Machine can accomplish the kind of sewing stated in Nos. 3, 4, 5, and 6.

Parties using a family sewing machine want a Whole Machine, one with all the improvements.

It is to last a LIFETIME, and therefore one is wanted that will do the most work and do it the best: and this machine can do several kinds of sewing not done on *any other machine*, besides doing every kind that all others can do.

The American or Twin Sewing Machine.

(Without the button-hole parts), does all that is done on the Combination except button-hole and overseaming.

MERONEY & BRO., Agts.
Salisbury, N. C.

Examine them before purchasing any other Sewing Machine.

I do not hesitate to say the American Combination, surpasses all other machines. It does everything that other machines can, and does it better, and works both alike well on any fabric, from Swiss muslin to Beaver cloth. I have used Singer's, Sloats', Howe's and the Wheeler machines, and find the American far superior to them all.

Miss M. Butler.

I have used six different Sewing Machines. The American surpasses them all.

Mrs. A. L. Rainey.

I have used The Singer and other machines and would not exchange the American for any.

Mrs. H. N. Bringle.

Meroney & Bro., Agts. American Com., S. M.

Sirs: I have used the Howe, Singer, Wheeler & Wilson, Wilcox & Gibbs sewing machines and would not give the American Combination for all of them. It will do all that is claimed for it in the circular. I consider it superior to all others I have ever seen. Very Respectfully,

Mrs. Gen. W. Harrison.

We the undersigned take great pleasure in giving our testimony in favor of the American Sewing Machine in preference to any other by saying that it is truthfully recommended as the best machine made. Its simple design runs very light and does not get out of order or disposition.

We have seen flaming advertisements and heard much said by Agents of newly invented machines. We will forfeit one hundred dollars to the contending party, if after a fair trial before competent judges the American Machine will not do as well if not better the work done on any other machine, and do valuable work that no other machine can do.

We have been Agents for Sewing Machines since 1855 have sold Singer's, Lad Wheeler's, Howe's and Florence's, and have abandoned all for the American.

"WEED" SEWING MACHINE.

I HAVE taken the agency in Salisbury for the Sale of these popular Machines. All in want of a first class Sewing Machine, are invited to call at my Store and examine them, or if desired, will be sent to their residence for trial. The "Weed" is unequaled in simplicity, durability, beauty and speed. It runs easier, and can do all any other Machine can do. No other Machine can excell the Weed in any way, and I am ready to test its merits, with any other machine at any time. It is a Shuttle Machine and makes the Lock Stitch; works both the same and alike on either side. Read the following home testimonies.

S. W. TERRELL, *Agent.*

Salisbury, March 25, 1872.

Mr S. W. Terrell,

Dear Sir: The *Weed Sewing Machine*, Your Machine being entirely new and unknown to the inhabitants of the State, it affords me pleasure to recommend it to the public. I have had in my house for 2 weeks, the Howe, American Combination and the "Weed" and gave them a careful trial. I now say unhesitatingly, I prefer the "Weed" to any other machine I have seen in operation, it is simple in construction, easier managed and can do all any other machine can do. I think it is the best machine for the price, ease of construction, ease of management for any kind of family sewing. It is a first class Machine. Yours truly,

Mrs. N. D. Harris.

National Hotel,
Salisbury, April 16, 1872.

Mr S. W. Terrell,

Dear Sir: The Machine I purchased of you some two months since, I have had a sufficient length of time to test it, and I am pleased with it. I have had a first class machine before, but I like the "Weed" best. It is easier to operate on, and can do all any other machine can do.

Mrs. M. A. Bringle.
