CAN'T Do IT .- Some one says the Town is along as they are, and have been for these many ters. days? The streets and pavements are growing worse year by year, the debt of the town is annually increasing by accruing interest, the market house is going to rack for the want of repairs, the annual assessment of taxes is consumed each year in paying interest on old claims and for what these claims are held no one

seems to know. Perhaps it is better that the same old slip shod style be continued. We were under the impression that whatever is worth doing at all is worth doing well, and applying this rule to the management of the Town, we concluded that if it was worth governing at all it was worth governing well. It may be that we are mistaken, and that the thing can't be done.
