**LOOKOUT FOR THE MARK.**—When you see a cross upon your paper, you may know that your time is up and you are indebted to the office, or that your time will soon be up. In either event send forward your subscription.

Ephraim Dobbins, colored, was killed, last Friday, by a burning tree falling upon him.

**GEORGIA GHOST.**—Several startling reports have been published in the papers about the Georgia Ghost; the most reliable we have seen, we give to day in another column.

**\$10,000 IN CASH FOR \$1.**—We call the attention of our readers to the advertisement in another column of the Nebraska State Orphan Asylum. There is a chance to win a fortune in a Public Legal Drawing, and at the same time help a noble and worthy institution.

**WOOD! WOOD!!**—We wish those who have promised to pay us in wood would do so at once. Wood is worth \$2 a cord, those who expect us to take their wood at a dollar a load, should bring a good half cord.

**BUSINESS CHANGE.**—Mr. ALBERT MEXET having purchased the entire interest of his late partner in the advertising firm of Hudson & Menet, will continue to carry on the business in his own name. His place of business will be the same as that occupied by the late firm, at 21 Park Row, N. Y.

**MISS JEANNIE PATTERSON.**—The performance of this lady at this place was admirable. We were under the impression that some of the notices of the press, concerning her readings and recitations, had been extravagant; but, after hearing and seeing her, we are prepared to endorse all that we have read of her charming and interesting performances.

**HAVE WE ANY POLICE?**—This is a question a good deal discussed at this time. Some answer in the affirmative, and some in the negative; and really we can't tell which is right. But our city fathers ought to be able to settle the matter. If they can't, who can? As Josh Billings would say, there is a good deal of looseness about the management of our municipal affairs.

**A Wife Wanted.**—A young gentleman who is entirely too busy to pay the usual price in walks, rides, flirtations and courtship nonsense generally in order to obtain a wife, hopes he may not shock the sensibilities of the hard-core and truly national class of female candidates for matrimony by soliciting correspondence by mail. Letters addressed to "G. Post Office box—Salisbury, N. C." will receive his prompt attention. It.

**RURAL CAROLINIAN.**—The November No. of this most excellent of Agricultural Journals is on our table. We don't know what circulation it has among the farmers of this State, but this we do know that there is no Journal better adapted to their wants or more worthy of their patronage. We regard it as among the best agricultural periodicals we receive, price \$2 per annum. Address Walker, Evans & Co., Charleston S. C.

**MURDER AND FATAL ACCIDENT IN STATESVILLE.**—We learn from Col. Jones, of the *Intelligencer*, whom we had the pleasure of meeting in our sabbath yesterday evening, that McElwee, a colored man, was killed in Statesville on the evening of the 5th instant by Mr. Kale.

Also, that Mr. Toad Wilson was killed by a horse on the morning of the 6th and died soon after from the effects.

**BUSINESS CHANGE.**—By reference to the advertising columns it will be seen that the copartnership heretofore existing under the name of Theo. F. Klutz & Co., has been dissolved, Mr. Theo. F. Klutz succeeding in the conduct of the drug business on his own responsibility, and Dr. C. A. Henderson returning to the practice of his profession.

Mr. Klutz's experience, energy, and skill as a druggist and business manager render him thoroughly competent to conduct the affairs of the establishment to the entire satisfaction of the public, and those who know him cannot have a doubt on this score.

Dr. Henderson is experienced and skillful in his profession, and will be welcomed back to his duties by the public.

**PROF. DEWITTIE, COL.**—This Greeley gentleman of color did not "orate" to much effect here last Monday night, as he was announced to do. He began, but the shouts and cries of his colored audience soon squelched him.

It was reported that Col. T. B. Long was the instigator of the action of the colored People toward Prof. DeWittie; but we are assured that this is a mistake. He advised against it. This is but justice to him and we are gratified to be able to make the statement.

**PATRONS OF THE EXAMINER.**—All those indebted on account to the *Examiner* are invited to a notice in another column headed, "SETTLE UP." We think it about time for those who intend to pay to comply with that notice and settle up. We offer to take produce to accommodate those who have not the money; and we don't know a single patron of the *Examiner* who can not pay in this way without inconvenience. We want corn to fatten our hogs—we want it shelled—and there is no one that owes us enough on subscription account to supply our wants, but the aggregate, if they would respond would supply us for years. Bring in your corn, flour, peas, pumpkins and potatoes.

**A MURDER IN ROWAN.**—Jim Alexander, col., killed Caleb Henry, col., at a corn-shucking, about six miles from this place, last Friday night.

The shuckers at the corn pile had been divided, Jim Alexander leading one half, and Caleb Henry the other. Henry beat Jim and ran over his corn. They quarrelled when Jim seized a piece of a pole with which he struck Caleb on the back of the head with such force as to fracture his skull and cause death about six hours after. The murderer has not yet been arrested.

Coroner Fraley was summoned to the scene of murder and his investigation elicited the above facts.

**AN ATTEMPT TO ROB.**—Some thief not having the fear of the law or of man before his eyes, made an attempt to rob the store of Messrs. Smith & Bernhardt, on main street, last Friday night. He climbed over a brick wall encircling the back door, shaved away the door-latching and the door with a knife, until he was enabled to raise the bar. But after he had raised the bar, he could not enter, there being a box of bacon sitting against the door. He then made his way into the cellar by way of the cellar door, but fortunately every thing there, but a few pounds of sugar had been secured. He carried off the sugar, and has not since been heard of.

Merchants and others will do well to keep an eye out for rogues. There are large numbers of idlers that must steal for a living.

**CLOVES.**—native to the Molucca Islands, and so called from their resemblance to a nail (*clavis*). The East Indians call them *changkang*, from the Chinese *tehknika* (fragrant nails). They grow on a straight, smooth-barked tree about forty feet high. Cloves are not fruit, but blossoms gathered before they are quite unfolded.

And so probably is *club*, from Latin *clavus*, a club; *clavus* a nail; and *clover*, as of club-grass, from the shape of its head.

**MAYOR'S OFFICE, SALISBURY NOV. 4 1872.**—At a regular meeting of the Town Board held this date, there were present, John I. Shaver, John Snider, Robt. Murphy, John H. Verble, J. J. Brown, J. M. Coffin, Absent, J. S. McCubbins and John Foster.

R. J. West made application to have his liquor license changed to his new place of business, which was allowed.

Benj. Cattle, policeman, tendered his resignation which was accepted.

After discussing many questions, the following bills were presented, examined and ordered to be paid less the parties taxes.

One by Foster & Horah,	\$23.01
" Benj. Cattle, policing	14.00
Three by J. O. White for hauling	76.00

The election of a permanent police was postponed.

The meeting adjourned, subject to the call of the Mayor.

**"Let it be impressed upon your minds, let it be instilled into your children, that the liberty of the press is the palladium of all the civil, political and religious rights of an Englishman, and that the right of reply to return a general verdict in all cases where a libel is an essential part of our Constitution, not to be controlled or limited by the Judges nor in any shape questionable by the Legislature."**

These words were uttered to Englishmen one hundred years ago! Do not the occurrences of the last few years warn us that they apply with equal truth to North Carolinians to-day? It is high time for thinking men to consider what our condition will be when free speech, a free press and free juries no longer exist!—*Wilmington Journal*.

The society of women is the cement of good manners.—*Goethe*.

## ALLEGED WASTAGE IN THE CURRENCY.

General Spinner, United States Treasurer, and Assistant Secretary of the Treasury Richardson, have discovered a method whereby they believe \$18,000,000 additional currency could be issued without causing inflation beyond the limit now authorized by law. General Spinner estimates roughly that the waste of currency since its first issue, by reasons of losses by fire and other destructive causes, certainly reached the sum of \$15,000,000, and probably eighteen to twenty millions.

The fire at Chicago was deemed a very important agent of destruction, and large amounts of the first shabby issue of fractional currency were worn and mutilated beyond redemption. A considerable amount of compound interest notes long since due and redeemable, but yet outstanding, will probably never be presented for redemption. The idea thus presented will be brought before Congress soon after its next meeting, and pushed with the hope that this alleged wastage will be made good by that body in that amount of currency the Secretary of the Treasury has authority to issue.

## NOTORIOUS WOMEN COME TO GRIEF.

Victoria C. Woodhull and Tennie C. Claflin were arrested in New York on Saturday upon three warrants, one for a libel upon Henry Ward Beecher and Theodore Tilton's family; one for a libel upon a broker named Chaffin, and a third for sending through the mail an obscene publication, (*Woodhull & Claflin's Weekly*). They were committed to the Ludlow street jail in default of \$8,000 bail each. Subsequent to their arrest, a warrant was issued, and Col. James Blood, editor, and William A. Smith, publisher, arrested and locked up. At the jail the women manifested their usual boldness and demanded apartments suitable for their accommodation, and complained of the outrage put upon them by being held in confinement over Sunday, preliminary to a hearing. The popular feeling is very strong against them, and threats of lynch law were freely indulged in. When arrested they were in a carriage preparing for flight.

## A CORPSE GETS OUT OF THE COFFIN AND SPEAKS TO THE WATCHERS.

A few days since a young lady of Urbana, Ohio, who had been ill a short time, died and the body was prepared for burial. Friends and attendants for interment, were placed in the coffin. The night before the day of the funeral a number of young lady watchers were seated in a room adjoining that in which the coffin had been placed, when, greatly to their astonishment, the figure of the dead girl appeared before them and spoke faintly. When the terrified attendants had somewhat recovered their fright, seeing that the supposed corpse was really a living life, they were restored to care for their friend so startlingly restored to them, almost from the very grave, and she received proper attention, and is now likely to recover.

Many of our readers, says *The Robesonian*, will be interested to learn that Rev. Jas. H. Colon, formerly of Montgomery county, N. C., but for the past three years laboring as a missionary of the Presbyterian church among the Choctaw Indians, is succeeding well in his work. He is now at the head of an academy for the instruction of the Indians, who pay \$6,000 dollars a year for the tuition of sixty pupils.

John Quincy Adams Smith, while carrying on a lawsuit with his sister in an Illinois court, fell to the floor, and was carried off lifeless. He might have known that name would have smothered him.

Miss Nellie Margach, of Meadville, fired a revolver at a mark and hit herself. She evidently was not a success in pistol practice, but would probably shine as a boomerangist with very little instruction.

Georgia boasts one exception to her general carpet-bag fruits in Troup county, which four years ago was in debt \$8,000, but has now paid, and bought and paid for a \$4,000 poor farm, and has \$3,500 in the treasury.

Dr. Bullows says that the old controversy between Unitarianism and Trinitarianism and Calvinism is over. A great many peace-loving disposed people will be glad to hear it.

Locomotive engineers are now called "Knights of the Throttle" in Kansas. Their term would apply better to Boston than these affectionate people who wander around night to squeeze people's throats and pockets.

Miss Healy, daughter of the famous Chicago artist of that name, has become known to fame as an authoress within a year, and recently published in Europe another successful novel entitled "A Summer Romance."

A young man touched off a fuse in a Wisconsin silver mine, the other day, and was rapidly pulled up, when the rope broke and he tumbled back, a distance of forty feet. The blast then exploded, but he escaped without perils with only slight bruises.

Two brothers, of Jasper, Ala. lately went into a pea field after dark for deer shooting, such unaware of the other's intentions. One of them coming in range was mistaken by the other for game and instantly killed. Very "dear" shooting indeed.

The Historical Society of old Swiss Cantons has proved, to its own satisfaction, that William Tell and the Landvogt Gessler never existed. This is absurd. They show you Zurich the identical scene with which Gessler made Tell shoot the apple from his son's head; and now, if Tell and Gessler never existed, where the dickens, we should like to know, did that cross-bow come from?—*Courier Journal*.

If you feel dull, drowsy, debilitated, have frequent headache, mouth tastes bad, poor appetite, and tongue coated, you are suffering from Torpid Liver or "Biliousness," and need a cure you so speedily and permanently as Dr. Pierce's Golden Medical Discovery. Sold by all druggists.

**A Delightful Surprise.**—Ladies whose faces are clouded by unsightly disfigurements, and who have resolved to try HAZEL'S MACRO-LIA BALM as a remedy, have no idea of the welcome surprise they will receive from their mirrors after a few applications of that healthful purifier of the complexion. If at all excruciating, they will scream with rapture on beholding the change; whether the blemish is due to freckles, roughness, or an unnatural pallor, it is bound to disappear, under the tonic operation of this wonderful agent. To say that the blemish disappears, does not, however, convey any idea of the effect produced by this celebrated beautifier. The unsightly thing, whether diffused over the whole countenance or in spots, or patches, is replaced by a uniform, healthy bloom, to which no description can do justice.

**JUDGE STORY TO RETIRE.**—Judge Story has written a letter stating his inability to be present at the present term of the United States Supreme Court, but will attend the December term. He will retire in April next, after a judicial service of over fifty years, of which the last twenty-seven years have been spent upon the bench of the United States Supreme Court.

**MORE ARRESTS.**—Some Yankee soldiers brought down to Charlotte, from Gaston, last Thursday Messrs. Fresno Massey and Robert Falls, charged with illicit distilling. The former was discharged in Charlotte without bail and the latter with bail. Peters, the loyal whisky smeller, was with the soldiers.—*Southern Home*.

A Texas sheriff was murdered by a Mexican, Monday a day or two ago, and the assassin, mounting his horse, leisurely rode over the border and was safe. Under the admirable management of our present commander-in-chief of the army and navy, one company of cavalry detailed to guard eight hundred miles of the Mexican frontier, while most of the troops are stationed for political purposes where they are worse than useless.—*Louisville Courier-Journal*.

**Enterprising Widows.**—It is stated that at Society Hill, South Carolina, after the war, three widow ladies, who were in great want, sent to some Charleston merchants an inquiry whether they could oblige them by making and selling for them a pair of glass jars and sugar on a credit for the purpose of making preserves, to see if they could make any money out of the business. The credit was given, the preserves made, shipped to New York city and sold. At the present time forty families are supported at Society Hill by this industry alone, commenced by three enterprising widows.

Squire—"Robson, they tell me you've taken your boy away from the Public School. What's that for?"

Villager—"Cause the master ain't fit to teach 'em."

Squire—"O, I've heard that he's a very good master."

Villager—"Well, all I know is, he wanted to teach my boy to spell 'taters' with a 'P'!"
