YOU CAN DO YOUR OWN PAINTING

BRADLEY'S PATENT ENAMEL PAINT,

T. A. T. BY USING

HESE PAINTS are composed of Pure WHITE LEAD, ZINC and LINELED OIL, with other materials which add greatly to the durability, elasticity, beauty and strength of the Paint. The whole are chemically combined, so that the pigments are held in permanent solu-tion, thus forming a smooth glossy, firm, elastic, beautiful and durable Paint. The Oil, which is the real life of the Paint, cannot leave it and be absorbed by the substance to which it is applied as it does in the paints mixed in the ordinary way, and thus leave the pigment dead and brit tle, to wash and rub off in a few months or at farthest in three or four years. This Paint is unaffected by changes of temperature, is perfectv impervious to the action of water, is well adanted to all classes of work, and is in every way a better Paint for either Inside or Outside Work or Boat Painting, than any other paint known to the trade, and will last at least three times as long as the best Lead and Oil mixed in the or-
