A TENNESSEE HORROR.

A man Murders his Son in-Daw—A Son Kills his Father—Two Brothers Closing in Deadly Conflict, with Pistols and Bowie Knives.

In the the adjoining county of Hancock there lived a family consisting of a father, mother, two sons, a daughter and son-in law. Some time ago, the father, Dan Sutton, seprated with his family, and with a woman living in or near the Hawkins county line. From this place frequent forays were made by the father on the old homestead, and from time to time much property was conveyed to the woman's house. They submitted patiently to these depredations until the father took the last horse on the place.

The son, William Sutton, who had remained with his mother, procured a replevin writ, and his brother-in-law Bernett, went to the woman's house and took possession of it. They were on the point of leaving, when the father, Dan Sutton, came out of the house with a rifle and fired at William Sutton. The old man seized an axe and split open the skull of his son-in law, who sank down in a pool of blood and expired in a few moments. The father next advanced on Wm. Sutton, with his axe uplifted. William drew his pistol and fired, killing the old man instantly. In the meantime, John Sutton seizing Barnett's pistol, closed in with his brother. Thus they faught muzzle to muzzle until every shot was expened. After knocking each other with the but end of their pistols, they threw them aside and drew their bowie-knives In a short time John lost one of his hands, and another stroke from William cut off his chin, and thus the bloody fray ended. John is thought to be dying William was hurt in several places but has managed to escape.—*Rogerville, Tenn. Reporter.*

MCENERY'S ULTIMATUM.

NEW YORK, March 9.—A *Herald* special from New Orleans gives the text of the ultimatum issued by the McEnery government to the people of Louisiana, After reviewing the causes of the present difficulty, and severely denouncing the conduct of the United States Government in establishing the Kellogg government, it says it is still more to be lamented that the support and protection of the government have been continued by the President. It totally dissents from the view that there can be any legal government in the State entitled to recognition by the Federal authority which is not *de jure* as well as *de facto*. We have further to record the mortifying fact, as declared by the report of the comittee of the United States Senate, that such government can only be maintained and its authority enforced by the aid of the military power of the United States. It stigmatizes the statement that the people of Louisiana voluntarily submit and acquiesce in the usurpation as a stupendous falsehood. The McEnery government have deemed it imperative on themselves to assert their rights and exercise to function confided in them by the people, they have been hindered by intervention of the Federal Executive. They therefore appeal to their brethern in other States for smypathy and support of the position, which they are all interested in maintaining. They call on the people of Louisiana to mantain their dignity and manhood, and to unite with them in firm opposition, not to the United States, but to any and every act of the Kellogg government. The maniferto, is signed by McEnery and the Legislative Committee.

A SHIP TAHT HAS COME HOME.—The ship that was to bear fortune to the "Chase heirs" has at last come home, bringing with it the snug sum of $260,000,000 to be divided among the American heirs of three brothers, Englishmen, emigrated to this country about the year 1689. Of these brothers Aquilla settled in Newburyport, Mass.; Thomas in Rhode Island, and William in Yarmouth, Mass. A fourth brother, named Richard, remained in England. The vast property comes by descent from Sir Townley, living about the year 1600 at Townly Hall, in Lancashire, England. He was the progenitor of a certain Miss Mary Townley, who married a man named Chase, who was the father of the four sons mentioned. This Mary Townley was the heir of all her ancestor's immense riches. A late decision of the English courts has given them three-fourths of the sum of $385,000,000, the full amount of the inheritance in our times, to the American heirs, the remainder, about $125,000,000, having already been distributed among the heirs of Richard, who had remained in England.

LUCRATIVE STATESMANSHIP.—Fifteen or sixteen years ago John Sherman came to Washington with no visible fortune, and supposed to be worth $20,000 at the utmost in Mansfield, Ohio. He is to-day estimated to be a millionaire four times over, and to have an income of nearly $150,0 0 per annum. He had great facilities from his connection with the financial committees, and from his peculiar friendship with Jay Cooke & Co which dates back to the time of their mutual poverty. And it is clear that he did not neglect these opportunities. No wonder seats in the Senate are sought at high prices when they bring such marvellous returns. It is easily to count twenty or twenty five senators who came here poor and who are now revealing in wealth. Everybody knows it: The surprise is that honest men countenance such unblushiug rogues, and have not demanded investigation. Tolerance has encouraged crime, until seats in the Senate are sold at legislative auctions, as we have recently seen in Kansas, South Carolina, Nevada, and elsewhere. It is said that Jones paid nearly $400,000 for his place from Nevada. First he bought the primaties, then the candidates for the Legislature who were tricky, and finally the votes of the polls in the doubtful counties.—*New York Sun.*

The Pall Mall Gazette of February 19th, says: "It may be said with almost literal truth, that the Londoners have not seen daylight this week. To-day, however, the darkness has been even worse than on Monday and Tuesday. Up to noon it was impossible to dispense with gas and candles. On the south side of the Thames the darkness was excessive. The railway stations were lighted up exactly as at night. There has been no great amount of fog, and trade has not been seriously interferred with in the streets, on the railways, or on the river.

NEWSPAPER LAWS.

We receive so many inquires as to the laws goverung the circulation of newspapers, that we find it necessary to publish the following summary, which will cover all the questions that have been addressed to us:

1. Subscribers are considered wishing to continue their subscription.

2. If subscribers ordering the discontinance of their periodicals may continue to send them until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are held responsible till they have settled their bill, and ordered them discontinued.

4. If subscribers move to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.

5. The courts have decided that refusing to take papers from the office, or removing and leaving them uncalled for, is *prima facie* evidence of intentional fraud.

6. Any person who receives a newspaper and makes use of it, whether he has ordered it or not is held in law, to be a subscriber and must pay for it.

THE AMERICAN

Button-Hole, Overseaming AND *Complete Sewing MACHINE.*

The first and only BUTTON-HOLE AND SEWING MACHINE combined that has made its advent in this or any other country.

☞ The following reasons are given why this is the best

Family Machine to Purchase.

1. Because it will do everything that any machine can do, sewing from the finest to the coarsest material, hemming, felling, cording, braiding, binding, gathering and sewing on, at the same time ruffling, quilting, etc., better than any other machine.

2. Because the tensions are more easily adjusted than any other machine.

3. Because it can work a beautiful button-hole making as fine a pearl as by the hand.

4. Because it will embroider over the edge, making a neat and beautiful border on any garment.

5. Because it will work a beautiful eyelet hole.

6. Because it can do over-hand seaming, by which sheets pillow cases and the like are sewed over and over.

7. Because you can quickly raise or lower the coarsest material, hemming, short deep bobbin by which the thread is evenly drawn from the centre; the tension is consequently even and does not break the thread.

8. Because you have a which the thread is evenly drawn from the centre; the tension is consequently even and does not break the thread.

9. Because the presser foot turns back; that the cloth can be easily removed after being sewed

10. Because the best mechanics pronounce it the best finished and made on the best principle of any machine manufactured. It has no springs to break; nothing to get out of order.

11. Because it is two machines in one. A BUTTON HOLE WORKING and SEWING MACHINE combined.

☞ No other Machine can accomplish the kind of sewing stated in Nos. 3, 4, 5, and 6.

Parties using a family sewing machine want a Whole Machine, one with all the improvements.

It is to last a LIFETIME, and therefore one is wanted that will do the most work and do it the best: and this machine can do several kinds of sewing not done on *any other machine* besides doing every kind that all others can do

The American or Plain Sewing Machine.

(Without the button-hole parts), does all that is done on the Combination except button-hole and overseaming.

MERONEY & BRO., Agts.
Salisbury, N. C.

Examine them before purchasing any other Sewing Machine.

I do not hesitate to say the American Combination, surpasses all other machines. Besides doing all the work that other machines can, it overseams and works button-holes in any fabric, from Swiss muslin to Beaver cloth I have used Singer's Shuttle, Howe's and the Weed machines, and find the American far superior to them all.

MISS M. RUTLEDGE.

I have used six different Sewing Machines. The American surpasses them all.

MRS. A. L. RAINEY.

I have used The Singer and other machines and would not exchange the American for any.

MRS. H N. BRINGLE.

MERONEY & BRO., Agts. American Com. S. M.

SIR: I have used the Howe Singer, Wheeler & Wilson, Wilcox & Gibbs Sewing machines, and would not give the American Combination for all of them. it will do all that is claimed for it in the circular. I consider it superior to all others I have ever seen. Very Respectfully,

MRS. GEO. W. HARRINSON.

We the undersigned take great pleasure in giving our testimony in favor of the American Sewing Machine in preference to any other. believing that is it truthfully recommended as the best machine made. It is simple, durable runs very light and does not get out of order or drop stitches.

MRS. LAURA M. OVERMAN,
" A. L. FOUST,
" J. ALLEN BROWN,
" A. W. NORTHERN,
" A. E. JONES,
" M. E. THOMASON,

We have seen flaming advertisements and heard much said by Agents of other machines.

We will forfeit one hundred dollars to the contending party, if after a fair trial before competent judges the American Machine will not do as well if not better the work done on any other machine, and do valuable work that no other machine can do.

We have been Agents for Sewing Machines since 1856, have sold Singer's, Lad Webster's Atwaters and Florence's, and have abandoned all for the American.

Send and get samples of work.

KATHAIRON

Only 50 Cents per Bottle.

It promotes the GROWTH, PRESERVES the COLOR, and increases the Vigor and BEAUTY of the HAIR.

OVER THIRTY YEARS AGO LYON'S KATHAIRON FOR THE HAIR was first placed in the market by Professor E. Thomas Lyon, a graduate of Princeton College. The name is derived from the Greek, "KATHRO," signifying to *cleanse, purify, rejuvenate, or restore.* The favor it has received, and the popularity it has obtained, is unprecedented and incredible. It increases the GROWTH and BEAUTY of the HAIR. It is a delightful dressing. It eradicates Dandruff. It prevents the Hair from turning gray. It keeps the head cool, and gives the hair a rich, soft, glossy appearance. It is the SAME in QUANTITY and QUALITY as it was over a QUARTER of a CENTURY AGO, and is sold by all Druggists and Country Stores at only Fifty Cents per Bottle.

THE ALDINE, while issued with all the regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and whit. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of *THE ALDINE* will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, *THE ALDINE* is a unique and original conception—absolute and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and then, there are the chromos, besides!*

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, when *THE ALDINE* assumed its present noble proportions and representative character, the edition was *more than doubled* during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of *THE ALDINE.*

The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition, *THE ALDINE* will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar, through photographs, or copies of any kind.

The quarterly tinted plates for 1872, will reproduce four of John S. Davis' inimitable child-sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country; but, as the usefulness and attractions of *THE ALDINE* can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance double sure," by the following unparalleled offer.

Premium Chromos For 1873.

Every subscriber to *THE ALDINE*, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled, "The Village Belle," and "Crossing the Moor," are 14 x 20 inches—are printed from 25 different plates, requiring 25 impressions and nice to perfect each picture. The same chromos are sold for $30 per pair, in the art stores. As it is the determination of its conductors to keep *THE ALDINE* out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, *guaranteeing* that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and, considering the unprecedented cheapness of the price of *THE ALDINE* itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of *THE ALDINE.*)

The Literary Department

will continue under the care of MR. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of *THE ALDINE* always in keeping with its artistic attractions.

TERMS.

$5 per annum, in advance with Oil Chromos Free.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, *without responsibility to the publishers*, except in cases where the certificate is given, bearing the *fac-simile* signature of JAMES SUTTON & Co.
