WATERMELONS are beginning to make their appearance on our streets. We are indebted to Mr. A. M. Brown, a prosperous and industrious farmer of Southern Rowan, for a fine one.

AN ALLEGED RAPE. Some little excitement was occasioned last Monday over the trial of P. Swepson, esq., before the Mayor, on the charge of rape on the person of one Annie Fisher, whose occupation it is not necessary to mention here. The allegations were only partially sustained. Swepson was acquitted by Bail.

SALISBURY.—We invite the attention of our citizens to an article from the Hillsborough Recorder under this head. We hope they will all read it carefully and take courage. All Salisbury needs or is likely to want for some time to come are manufacturing and the Yankin Railroad. These can be obtained with a little more enterprise on the part of our leading citizens.

DEATH OF DR. REEVES.—We are pained to have to announce the death of Dr. Samuel Reeves, Jr., who died in this place last Tuesday morning, after a painful illness of two or three weeks. The Dr. was generous, whole-souled, and true and faithful as a friend. His death is a sad affliction to his bereft family, and he will be mourned by many friends. Aged about 45 years.

BEAUFORT, N. C., may some day not very remote, become a popular watering place. It possesses many attractions and advantages for a sea-side summer resort as any other place on the Atlantic coast, and some which other places have not. Quite a number of Western people are visiting there this summer—several from this place—and it will evidence the good sense or our people if, instead of augmenting the wealth of Salisbury and Long Branch they build up a summer resort nearer home.

A LITTLE SPAT.—Samuel T. Williams, Esq., political editor of the News, and T. B. Kingsbury, Esq., Associate editor of the Sentinel, have had a little spat, a little measuring of strength, in which they pommelled each other quite severely editorially; but it is gratifying to see how gracefully they withdraw from the contest and acknowledge their mistakes. Two such gentlemen should not waste their time in useless bickering, and they will not.

Concord Presbytery.

At an adjourned meeting of Concord Presbytery, held at Thyatira church, on the 9th instant, the former action of Presbytery selecting Hickory Station as the place, and the 18th of September next, as the time for the next semi-annual meeting of this body, was reconsidered; and instead, Thyatira church was chosen as the place, and the 19th day of August next, as the time for said meeting.

WM. W. PHARR, Secret. Clerk.

BUSINESS CHANGE.—Mr. Lewis V. Brown has purchased the stock, tools, and fixtures of the Tin Shop recently owned by Messrs. Brown & Weant, and will continue the business in all its various branches. He will keep on hand a large assortment of Tin ware, Cooking & other Stoves of the best and most approved patterns. Mr. Brown is not only a steady and responsible party, but a thorough and practical machinist who understands all the minutiae of the business he has under taken. A young man of his capacity and industry should be encouraged. See advertisement in another column.

THE BUMBLE BEE.—There is a monthly Magazine on our table, published in Illinois, of the above name. At first we thought it ought to be Humble Bee; but Webster says, he's right, so this Bee may just Bumble on.

We notice in it several very good bumbles—for instance; it wants to know how it is that the Government can afford to furnish postal cards and carry messages on them for one cent, when it won't allow a man to furnish his own writing material and carry his message for him for less than 3 cents.

Again; it says the best way to prevent tightness in money matters is for every body not to buy until he has the money in hand to pay. That is a very old bumble but a very good one.

SALISBURY ITEMS.—We not unfrequently notice in papers at a distance, scandal, nonsense, and bosh, under the above head, which have been forwarded by some hungry news-hungry, anxious to see himself in print, we suppose. The so-called rape, alleged to have been committed here is paraded in the Raleigh Sentinel of this morning. Well, the matter is too disgusting for our paper, and for other reasons, we give it merely a passing notice. There are many items that a prudent journalist would not publish about his own town that are thus given in other papers. Some times facts are properly stated, but more frequently they are not. But a few days ago a long winded, trashy article was sent from this place, purporting to be a sort of history or sketch of J. Allen Ketchey's life. There is no one acquainted with Ketchey's career and read this production, who will not be greatly amused at the assumption of fact it contains and at the pliable imagination of the "News Reporter." It is not every one who will stop to think what is proper to be published about a town, and what is not. We endeavor to give all the news that we deem legitimate matter for publication. It is true, our paper is only a weekly, but four citizens will give us the necessary encouragement, we will publish it oftener, and we shall then be glad to have the assistance of the numerous reporters among us. We will call and trim their communications so as to suit all parties, and they will prove greatly to the edification of our entire community, no doubt.

THE Farmers' movement is sweeping everything before it in Minnesota, and the politicians are beginning to cultivate it assiduously. We see it stated that the Hon. JONATHAN DODD has been seized with so overwhelming a love for agricultural pursuits that he is traveling over the State delivering addresses upon the grievances of the farmers. He is arrayed in the picturesque costume of a hickory shirt, blue overalls and brown shoes without stockings.—Richmond Whig.

IT is to be feared such miserable skunks will succeed in pelting the wool over the eyes of many farmers, if they are not very careful. They have no love for the farmer or for agriculture; they merely wish to ingratiate themselves for the purpose of riding into office on the shoulders of the farmers; and when they have succeeded, they have no further use for farmers—they would not so much as notice one were they to meet him at Washington or at the capital of the State. We expect this farmers' movement to kill out the timeserver, the office seeker, and the mere politician.

SAD CASE.—It will be remembered that about two years ago a young man by the name of Rimer killed his aged mother and threw her on the fire in her house. The murder was committed with an axe. Her head was terribly mutilated, and she was also severely burned, but quite dead when discovered by the neighbors, who were informed by the young man himself of the fact. He was arrested and committed to jail. He was known to be partially deranged before he slew his mother, but no danger was apprehended from him. He has never had any trial, but was ordered to be sent to the Lunatic Asylum. Application was made for his entrance there, and we believe he was at one time carried to Raleigh, but was turned away on the ground that he had no room. He has been lying in the jail here ever since, and is hopelessly insane. Tuesday Dr. Caldwell was sent for to see him, and on arriving at his cell he discovered that the poor fellow had so lacerated his person as to render a surgical operation necessary. After it had been performed and his hands secured behind, the Dr. left, but was again called to see Rimer, who had succeeded in getting his hands loose and tearing asunder his wounds to such an extent as to allow his intestines to protrude. The Dr. administered the necessary attention, but very little hope is entertained of his recovery. If a crying shame that this man should have been kept here confined in the county jail for the period of nearly two years. If the Lunatic Asylum is too small, it should be enlarged.

THE FIGHT IN THE FARMYARD.—I learned a good lesson when I was a little girl, says a lady. One frosty morning I was looking out of the window into my father's farmyard, where stood many cows, oxen and horses, waiting to drink. The cattle all stood very still and meek, till one of the cows attempted to turn round. In making the attempt she happened to hit her next neighbor; whereupon her neighbor kicked, and hit another. In five minutes the whole herd were kicking each other with fury. My mother laughed, and said: "See what comes of kicking! when you are hit. Just so. I have seen one cross word set a whole family by the ears some frosty morning."

JOHN S. LONG. This rarely gifted gentleman recently paid our office a hurried visit, as he was just leaving for his home at Newbern. He had been attending a meeting of the State Grange. He was chosen Lecturer for the State. We deem the Patron of Husbandry extremely fortunate in securing the services of so able and eloquent a speaker. Mr. Long has but few peers in oratory in a State that has never been deficient in distinguished public speakers.—Sentinel.

The following article clipped from some newspaper, has been sent to us for publication. Its sentiments are just and withal so appropriate that we publish it with pleasure, regretting only our inability to give the credit due to the paper that first recalled such noble utterances: MAGNANIMITY—A LESSON OF HISTORY.

It is a sad reflection that, with all our vaunted civilization and boasted advancement in humanity, arts and science, there is yet much in the teachings of the remote past to shame and rebuke us. We recall, just now, an incident full of profitable suggestions for the present times: In the second century an insurrection against the Roman authority broke out in Syria and the East, headed by a pretended descendant of the patriot ASSIUS, who had conspired against the mighty Caesar. It ended in disaster and failure; and nothing seemed to be left but vengeance upon the adherents of the rebellion. Under such circumstances, here is the letter which the royal conqueror—the noble ANTONIUS PIUS—wrote to the Senate, and which deserves to be written in letters of gold upon the historic page: "I beseech you, Conscript Fathers, not to punish the guilty with too much rigor. Let no one be sent to death. Let the banished return to their country. I wish I could give back their lives to those who have died in this quarrel. Revenge is unworthy of an Emperor. You will pardon, therefore, the children of this Cassius, his son-in-law, and his wife. Let them live in safety,—let them retain all that Cassius possessed,—let them live in whatever place they choose, to be a monument to your clemency and mine!"

OB! for one hour of just such public sentiment now! It is a reproach, indeed, and a sad and melancholy evidence of moral deterioration, that an opposite tendency so largely prevails. Surely, surely, there is everything in the present attitude of the Southern people to disarm vindictiveness towards any class of its people. Their resignation and fortitude are a standing miracle. If they were proud and resolute in prosperity, they are grand in the destitution. To-day; a whole nation in arms, to defend what they believe to be right; to-morrow, convinced of the hopelessness of the struggle, returning to the peaceful pursuits of industry with a cheerfulness that can hardly be realized! Let us profit by the lesson of a barbaric age.

THE CAREER OF A GREAT REMEDY.

Twenty summers have elapsed since it was briefly announced that a new vegetable tonic and alterative bearing the name of Hostetter's Stomach-Bitters, had been added to the list of restorative medicines. The modest advertisement which invited attention to the preparation stated that it had been used with success in private practice as a cure for dyspepsia, bilious complaints, constipation and intercostal fever. It was soon discovered that the article possessed extraordinary properties. The people of every class, tested its merits as a tonic, stimulant, corrective and restorative, and found that its effects more than fulfilled their hopes and expectations. From that time to the present its course has been upward and onward, and it stands to-day at the head of all medicines of its class, American or imported, in the magnitude of its sales and its reputation as a safe, agreeable and potent invigorant and restorative. For languor and debility, lack of appetite and gastric disturbances so common during the summer months it is absolutely infallible. Indigestion, bilious disorders, constipation, nervousness, periodical fevers, and all ordinary complaints generated by a vitiated and humid atmosphere, vanish under its renovating and regulating influence. This is its record, avouched by volumes of intelligent testimony, extending over a period of a fifth of a century, and comprehending the names of thousands of well known citizens belonging to every calling. In Europe it is thought a great thing to obtain the patronage of royalty for a "patent medicine," but Hostetter's has been spontaneously approved by millions of independent sovereigns, and its patent consists in their endorsement.

FOR LOSS OF APETITE.—Dyspepsia, Indigestion, Depression of Spirits & General Debility, in their various forms, FERRO-PHOSPHATED ELIXIR OF CALLEWAY made by CASWELL HAZARD & Co., New York, and sold by all druggists, is the best tonic. As a stimulant tonic for patients recovering from fever or other sickness, it has no equal. If taken during the season it prevents fever and ague and other intermittent fever.

THE GREAT SOUTH AMERICAN JURUBERA BLOOD PURIFIER.

Is the most powerful cleanser, strengthener and remover of Glanular Obstructions known to Materia Medica. It is especially adapted to conditions "born down" and debilitated by the war, weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness manifested by Tumor Eruptions, Itches, Boils, Pustules, Scrofula, &c., &c. It is worn and languid from overwork and dullness drowsiness and inertia take the place of energy and vigor, the system needs a Tonic to build it up and help the Vital Forces to regain their recuperative power. In the heat of summer, frequently the Liver Spleen do not properly perform their functions the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to bilious derangement. Dr. WELLS' Extract of Jurubera is prepared directly from the South American Plant, and is peculiarly suited to all these difficulties. It will cleanse the Vitiated Blood, strengthen the Life Giving Power, and Remove all Obstructions from Impaired and Enfeebled Organs. It should be freely taken, as Jurubera is pronounced by medical writers the most efficient Purifier, Tonic and Deobstruent known in the whole range of medicinal plants. Marriage Certificates for sale here.

WATER WHEEL. To be the Best ever Invented. Pamphlet free. Address, YORK PA. DR. TUTT'S VEGETABLE LIVER PILLS. The startling drawback on nearly all medicine agents have ever been that in their process of purification and purification they have also debilitated the system. To obviate this difficulty physicians long sought for an agent that would PURGE, PURIFY AND STRENGTHEN. At one and the same time. Dr. TUTT'S Vegetable Liver Pills, by a discovery which fully realizes the fondest desires of the medical faculty, and which is justly regarded as the most important triumph that Pharmacy has ever achieved. This important desideratum is: Purify the blood and remove all corrupt humors and unhealthy accumulations from the body, and yet produce no weakness or lassitude whatever, but on the contrary tones the stomach and invigorates the body during the progress of their operation. They unite the heretofore irreconcilable qualities of a Strengthening Purgative and a Purifying Tonic. Dr. TUTT'S Pills are the most active and searching medicine in existence. They at once attack every root of disease, and their action is so prompt that in an hour or two after they are taken the patient is aware of their good effects. They may be taken at any time without restraint of diet or occupation; they produce neither nausea, griping or debility, and as a family medicine they have no rival. Price 25 cents a box. Sold by all Druggists. Principal office, 18 and 20 Platt St., N. Y. 4r.
