ROCKING AND GRAVELING .- The Commissioners are rocking and graveling Public Square around the Public Well. The square is much improved, but could be considerably more improved, if they would pull up the well and sell out the pump, thus doing away with an expensive nuisance and eyesore. It is to be hoped, however, that they will not do this, unless they can get cost for the pump at least.

HONOR FROM ABROAD. -Our esteemed fellow citizen, Dr. Marcellus Whitehead, has had conferred upon him the distinguished honor of a diploma as a member U. S. A." This is a well deserved honor. The society is, as its name imports, composed of those who have distinguished themselves in the study and treatment of the diseases &c., of women.

Attention is juvited to a letter from the Rev. A. M. Mangum, to be found in another column.

We very much regret that Mr. Mangum feels almost compelled to give up the labor of finishing the history of Salisbury. We hope he will not do it, and that every assistance will be given him by those who can, to enable him to prosecute the important and interesting subject. We shall be very glad to publish such sketches as he may make or may have made.

Soon after the late war, being so situated that I had considerable leisure, concluded to collect all the materials in my reach, bearning on the history of Salisbury, and to put them in a form to secure their preservation.
