## MONEY PANIC NORTH.

The suspension of Jay Cooke & Co., large Bankers, was, it seems, the signal for a great money panic in Gotham. The failure of this firm was followed by many other banking bouses, both large and small, to the number of some 30 or more. and the excitement among the money changers has grown to fever heat. Too much Railroad stock is the matter. none but the greedy money changers suffered by these monetary troubles and convulsions, we would not have our sympathies enlisted very much, but the effect is felt pretty generally, and many innocent and helpless people suffer, -in fact, are the principal sufferers. A crisis in money matters is more or less likely to occur at any time and under any system; but we believe it is more likely to occur under the present "National system" than any other. It is rotten to the core and irremediable except by total extinction. And this we vet hope to live to see accomplished.

### LIBERALISM.

There are some blatherskites defending the Greeley movement and Liberalism yet. They even go so far as to say that the little handful of fanatics that went on that wild goose hunt after government pabulum form a neacleus around which the people must rally if they would save the country. Greater stupidity can not be imagined. There is no such thing as a Liberal party and there has not been, not even in name. The name was a delusion and a snare, and the fanaties who claimed to be of it were the worst extremests. The doubt intended by the instigators, the most efficient auxiliary of Radicalism. It was mainly made up of broken down, superannuated Federalists. Men who had spent a life-time in opposition to Liberal views and true Republican or Democratic principles, who had urged extremes and ridiculed the sovereignty of the people-were made the exponents of a new doctrine, and are still held up to us as the only possible that such things should be after the most signal and complete overthrow ever inflict. for. ed upon any faction. We would like never to hear any thing more of Liberalism, and especially of that mongrel sort with which we were so thoroughly nanseatthat kind of liberalism. There is no force or strength in it. It is a sort of wet nurse we would prefer the later. If Democracy | complied with. is to be destroyed, and the free institutions enemy in disguise.
