Salisbury, N. C. Dear Sir :- I bought last fall from Wade, Boykin & Co., Baltimore, I dozen bottles of your which they are determined to sell as low as any "Kluttz's Chill Cure" I sold it to those having house in Western North Carolina. They keep chills, and as this is a prevalent sickness in many sections. I was anxious to find a specific for Chills, Fevers and Ague &c. I looked carefully after the results of each bottle, some of which was used in long-standing cases, and allow me to say that every bottle effected a cure. I am now selling it and warranting a cure or no pay. This "Kluttz's Chill Cure" saves many a Doctor's bill of \$5, \$10, or \$20. THE NEW FAMILY SINGER SEWING MACHINE.

We claim and can show that it is the CHEAP-EST, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the INTER-LOCKED-ELASTIC-STITCH, alike on both sides of the fabric sewn. Thus, beaver cloth, or leather. may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarlatan, or ruffling, or almost any other work which delicate fingers have been

known to perform. of operation; uniformity of PRECISE action at any speed; capacity for range and variety of work, fine or coarse-leaving all fivals behind it. We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussia, England, and recently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Progress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, to present to the public the sworn returns of sale, (to which any one can have access) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shews the precise number of machines sold by each Company.
