The Boy who Wanted to Know

The following is strictly true: A lady coming to this State recently, stopped at one of the Chicago hotels with her little son. The boy was not perfectly satisfied with matters and things at the dinner table, and expressed himself frequently to that effect. The mother finally rose and remarked, in an undertone, to the youthful offender, "Come with me up stairs, and I will attend to your cash." The lad understood at once what attending to his case' meant. but there was an important matter of detail which he was painfully anxious to have more fully explained; so, pulling backward on the hand of his mother, he blubbered out, in a voice land enough to be heard over most of the well-filled dinning-room: "Say, mother. nee your going to take your hand or your slipper?" The enthusiasm with which this brief address was received was unbounded. Poor little fellow, how often have we wanted to know that same thing ourself? With a brief season of waiting we generally found out, as he undoub led did

RAILROAD OBSTRUCTIONS .- A few nights sipce another obstruction was placed on the N. W. N. C. Railroad, in the neighborhood of Friendship. Guilford county. This makes the third or fourth attempt to wreck this Railroad, involving the loss of the lives of passengers and damages to the Railroad company. What fiend or fiends in human shade we have to contend with no one knows and we think placing obstruction on Railroad track sas well as barn burning should be made hanging offences.

The Lincoln Progress says : The Central Raffroad train from Charlotte to Lincolnt v has been three times thrown from the track in the last month, on account of the switches having been changed twice and a cross tie placed on the rails. The Progress hopes that every good citizen will be watchful to detect these villains and bring them to justice. A reward for the offenders might induquesome persons to ferret them out.
