## How to Promote Peace in a Fami-

Remember that our will is likely to be crossed every day, so prepare for it. Everybody in a house has an evil nature as well as ourselves, and therefore we are not to expect too much.

ABREST OF MORE COUNTERFEITERS IN NORTH CAROLIANA .- Greensboro', N. C. Oct. 22.-Eight counterfeiters were brought in to-day by the officers of Colonel Whiteley, chief of the United States Secret Service, and will be tried to morrow before He United States Commission er, P. R. Harden. They are said to be men of character and prominence, but I withhold their names for the present by request of the officers, as there are more arrests to be made. The officers inform me that about fifty more will Arrive at Asheville to-night en route to Greensboro'. These men were picked up mostly in the mountainous regions of Cherokee and Ashe counties, of this State. One of the number brought here to-day was (it is said) foreman of the grand jury of Rowan county, and was arrested at Salisbury yesterday while in court. A quantity of two and a half counterfeit gold pieces were found in the trunks of some of these, and very closely resembled the genuine, except in weight. They are all dated 1851. The work of arresting is said to be but just begun. I will telegraph you the result of the trial to-morour stock and hear our prices. Our terms eash. row. Petersburg Appeal.

The two cigar steamers of Mrs. Ross Winans, of Biltimore, make frequent trips in the British Channel, although their officers take pains to prevent any knowledge of their capacity for speed from becoming public. One of these steamers was built at Cherbourg and the other on the Clyde. The latter is about 400 feet long, and is built on a different plan from the original cigar steamer, which now lies at her wharf in Baltimore. Instead of a wheel in the centre the vessel has two propellers at the extreme points. of the cigar. The cigar portion of the hulf is submerged, and an eye-witness describes the whole appearance of the vessel as he saw it recently in the harbor of Southampton as "that of an ordinary a whale." Mr. Winans hopes to obtain a speed of twenty miles an hour by pro-pulsion alone with his strange craft.
