The Public Health Association of New York, Dr. Stephen Smith, Health Commissioner, President, held a regular meeting last evening at the Medical Journal Hall, 107 East Twenty-eightheureet. A paper was read on "Thesewerage question, and the dry earth method of treating refuse." The lecturer embodied a history of the success of the earth closet in England, India and America. He maintained that nearly all typhoidal diseases are dependent upon the extremental pollution of the air for their origin and transmission. Diphtheria, cerebro-spinal meningitis, convulsions, diarrhoza, and indigestion are largely traceable to the same source. Murray Hill suffers from this equally with Baxter street, in spite of patent sewer-traps. Gas presses most at the highest outlets. Some of the laboratories here and in Europe are useful, but sewerage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but sewerage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but sewerage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but sewerage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but severage irrigation' is a failure. Disease spreads the laboratories here and the laboratories here and in Europe are useful, but severage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but severage irrigation' is a failure. Disease spreads the laboratories here and in Europe are useful, but severage irrigation' is a failure. Disease spreads the laboratories here and the laboratories here and in Europe are useful, but severage irrigation' is a failure. Disease spreads the laboratories here and the l Dry Earth as a Sanitary Agent. 'sewerage irrigation' is a failure. Disease spreads tination, with the spreading of the crude fertillizer and the luxuriant crop poisons the animals that eat it. The earth closet will supersede all rivals in Finally it will be used in cities, unless we prefor, like Babylon and Rome, to send the strength of our soil into the rivers and make the land a desert. Already the deportation of soil in the form of cotton, grain, tobacco, &c., has made barren a large part of the country. The remedy is to consume products where they are raised, returning all debris to the soil. Dry earth almost mirroulously disinfects and disintegrates retain. these maladies have been much diminished by the earth closet. The jails, hospitals, prisons, and barracks of the Bombay, Madras, and Bengal presidencies, of India, all use the dry earth system with great success, in spite of tropical heat. It is used here in Central and Prospect parks and in thousands of homes. The New Money Orders.—Money can be sent to any parks and in thousands of homes. The New York Chicago, and Boston Boards of Health recommend it. Let us be wise. "Rome," said Liebig and Victor Hugo, "put Italy in her sewer, then Sardinia, then Northern Africa, and then ceased to rule the world.—N. Y. World.

Money Orders.—Money can be sent to any part of the country with absolute safety. by obtaining a Money Order, for which fees are:

On not less than \$1. and not over \$20, 10 cents.

On Friday of last week Senator THUR MAN delivered a forceful and eloquent speech at Columbus, Ohio, of which the following is a striking extract :

"There can be but two great parties in a Republic, neither of which can hold power in perpetuity. The genius of republican institutions and sound common sense forbid that. When the rulers elevated to power by a party misbehave, that party must give way to its opponents. If the rulers chosen by the latter in turn do wrong, the other party will be restored to power. This is the true idea of party responsibility, and the only really effecdid and never will think alike. The party in the ascendant rules for the time, but it holds its power upon the conditions sell as cheap or cheaper than any House in the that it shall rule honestly and missless 1573-tf. that it shall rule honestly and wisely. If is precisely the state of the Republican party to-day. Whatever claims to merit it may have had in the past, its rulers have ceased to govern wisely and well. The people no longer have confidence in them and the time is not far distant, I think, when this want of confidence will bear its proper fruit."

When a discoverer of any scientific subject, asks the co-operation of the learned in science, to test the merit and truth of his discovery by severe tests and practical results, and then to indorse and recommend it, it is fair to presume it is valuable for the purpose intended. Such has been the course pursued by Messrs. Hall & Co., prietors of Hall's Vegetable Sichian Hair Renewer. And all those who have tested it (among whom we may mention Dr. A. A. Hayes and S. Dana Hayes Chemists; Walter Burnham, M. D. Prof. of Surgery in Penn. University, Philadelphia; Geo. Gray, M.D. Professor of Anatomy and Physiology.) assert it is the best proparation in use for all cutaneous diseases of the scalp. Restores gray haig to its original color, prevents the hair from falling out, creates a new growth. It is certainly worthy of a trial .- Newburgport Herald of Gospel Liberty.

INVALID CLIMATES.—A comparison of three places of invalid resort, Mentone, France, Aiken, South Carolina, and Ana heim, In Southern California, for the months of December, January and February, has been made by Francis S. Miles of New Yothe He says that at Anaheim, an invalid could have been out of doors all day during St days, and would have been confined in doors by bad weather 9 days. Two prizes \$1,000) 23 At Mentone there were 67 fair days and Six prizes bad days, and at Aiken, 63 fair days and Ten prizes 37 bad days. The average temperature at Anaheim, during the three winter months, (in all,) worth from \$20 to \$300 each.

anaheim, during the three winter months, (in all,) worth from \$20 to \$300 each. Anahelm, during the three winter months, was 61 degrees; at Mentone, 484 degrees, Doin Silver, Vest Chains, Solid and Double-plated Silver-ware, Jewelry, &c., &. Mt. Pleasant, N. C.

Iron in the Blood

MAKES THE WEAK STRONG,

The Peruvian Syrup, a Protected Solution of the Protoxide of ed Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in

derful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints. Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably head itate to give it a trial.

See that each bottle has PERU-VIAN SYRUP blown in the glass. Pamphlets Free.
