**THE SUN.**  
WEEKLY, SEMI-WEEKLY, AND DAILY  
THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have induced us to give it many thousands more, are briefly as follows:

It is a first-rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible and interesting manner.

It is a first-rate family paper, full of entertaining and instructive reading, every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first-rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in the department.

It is an independent political paper, belonging to no party and wearing no color. It fights for principle, and for the election of the best men to office.

It is especially devoted its energies to the exposure of the great corruptions that have weakened our country, and threaten to undermine republican institutions altogether.

**THE WEEKLY SUN.**—Eight pages, fifty-six columns, only \$1.00 a year. No discounts from this rate.  
**The Semi-Weekly Sun.**—Same size as the Daily Sun. \$2.00 a year. A discount of 20 per cent. to clubs of 10 or over.

**A Manual of Health.**  
An edition of between nine and ten millions of copies of a very useful work is now ready for gratuitous distribution, and can be had for the asking at any drug store in the United States. The British Colonies Spanish American Brazil. The work is reprinted to Hostetter's Almanac for 1874. The medicinal properties of the various plants to which the human system is subject, and sets forth the peculiar properties of Hostetter's Stomach Bitters—the purest and best tonic at present known—as a preservative of health and strength, as a remedy for debility and disease. The Almanac is printed in all the principal languages of the civilized world, and reaches a larger number of families and individuals than any other medical treatise that ever issued from the press.

No man or woman who has due regard for that choicest of heaven's blessings, bodily vigor, should fail to read the plain, simple and convincing articles which this truly practical publication contains. The miscellaneous matters is varied, instructive and amusing, and the calendar department copious and comprehensive. Hostetter's Almanac, in short, a household convenience, adapted to use of all classes and callings. The farmer, the planter, the miner, the merchant, the mechanic, the laborer, the professional man, all need it; and to inventors of both sexes, it is literally an oracle of prime necessity. The medical technicalities which render so many medical treatises intended for popular use unintelligible to the general reader, have been carefully avoided in this pamphlet. All is clear, explicit, forcible, and agreeable with reason and common sense.

The proprietors, Messrs Hostetter & Smith, Pittsburg, Pa., on receipt of two cent stamps will forward a copy by mail to any person who cannot procure one in his neighborhood.

**STATIC CHOLERA IN CHINA.**  
A PAIN-KILLER  
DEAR SIR: During a residence of some ten years in Siam and China, as a missionary, I found your Pain-Killer a most valued remedy for that fearful scourge, the Cholera.

In administering the medicine I found it most effectual to give a tea-spoonful of Pain-Killer in a glass of hot water, sweetened with sugar; then, after about fifteen minutes, begin to give about a tablespoonful of the same mixture every few minutes until relief was obtained. Apply hot applications to the extremities. Rubbe the medicine with Pain-Killer on the chest and the limbs briskly. Of those who had the Cholera, and took the medicine faithfully, in the way stated above, eight out of ten recovered.

REV. R. T. FORD, Missionary in China.  
Dear Sir: During a long residence in China I have used your valuable Pain-Killer, both in my family and among the Chinese, and have found it a most excellent medicine. It is the Saviour of 1872 and 1873, while residing in Hongkong. I found it a long standing cure for cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them and opens a door to civilization. In diarrhoea, cholera, vomiting, cholera, coughs, &c., your Pain-Killer has been my chief medicine. Yours, very truly,  
REV. T. P. CRAWFORD, Tungchow, China.

**THE PAIN-KILLER** should strictly observe the following directions:  
At the commencement of the disease, take a teaspoonful of Pain-Killer, in sugar and water, and then bathe freely across the stomach and bowels with the Pain-Killer clear. Should the diarrhoea and cramp continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked and the patient relieved in the course of a few hours.  
N. B.—Be sure and get the genuine article, and is recommended by those who have used the Pain-Killer for the cholera, that in extreme cases the patient take two (or more) teaspoonfuls instead of one.

**THE PAIN-KILLER** is sold by all the Druggists and Dealers in Family Medicines.

We claim and can show that it is the most beautiful, most delicate, most smoothly running, most adjusted, easily operated, and most economical of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which will sew, with equal facility and perfection, using silk or linen or cotton thread, fine or coarse, making the ENGLISH LOCKED-ELASTIC-STITCH, alike on both sides of the fabric sewn. Thus, heavy cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this stitching and never-wearing instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarlatan, or ruffling, or almost any other work which delicate fingers have been known to perform.

And with its simplicity of construction; ease of operation; uniformity of PRECISION action of its speed; capacity for range and variety of work; fine or coarse, sewing all rivals behind it. We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussia, England, and recently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Progress, and three first articles manufactured on our Machines. But it gives us much greater pleasure, to present to the public the sworn returns of sale, (to which any one can have access) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shows the precise number of machines sold by each Company.
