THE NOMINATION.-The nomination of Mr. Cushing is not liked by very many odd the leading Republican Senstors. In the first place, many of them look upon appointment as an attempt on the part of the President to punish them for refusing to confirm Judge Williams, since he knew that they, would prefer some man of more pronounced Republican principles than Mr. Cushing-They also say that he is too old, and that though he may, with his vigorous constitution, survive the present Administration, he could hardly be expected to outlive the next and it is possible that the next president may not be in political accord with the men who manage the prescut Administration. Some of the Republicans are very angry at the nomination, and would work for its defeat did they not fear that the President would get obstinate, and, as they term it "break up the party."

Most of the Democratic Senators will vote for Mr. Cushing's confirmation, and there is little doubt that he will be confirmed early next week .- N. Y. Tribene.
