

Carolina Watchman.

SALISBURY, THURSDAY MARCH 19. A slight fire occurred in Greensboro...

The State Printing, says the Daily Current, is rapidly pushing forward...

The Southern Fine Stock Company of Oshes, Tenn., have for sale the best breeds of Cattle, Sheep, Swine and Poultry...

THE STATE FAIR.

We learn from the State Journal that extensive preparations are already progressing for the 14th Annual Exposition of the N. C. Agricultural Society.

And pray, what are the managers of our Fair doing? It is time they two were at work.

The Charlotte Democrat publishes our article on the subject of ice, and suggests, in the same good spirit that ours was written in, that it is "comforting" to know that ice can be had on reasonable terms...

The Fence Law.—We would not be surprised, from what we occasionally hear, if the fence law would become popular in this section of country, ere long.

Quite a number of our farmers have kept up their stock for years and have derived benefit therefrom. Others have permitted theirs to run at large, which sometimes become troublesome to the neighbors, ill feeling and feuds are the consequence, occasionally.—Salem Press.

The Fence Law ought to become popular throughout the State and the South. The rapid rate at which the woodsman is destroying the timber renders it necessary that some steps should be taken to preserve it by doing away with the expense of keeping up so much fencing. But the Grangers will no doubt judiciously consider the matter, and we are willing to leave it with them.

DEATH OF CHAS. SUMNER.

Chas. Sumner, the able and distinguished Senator from Massachusetts, is dead. He died at his residence in Washington city, on the morning of the 11th inst., in the 64th year of his age.

Mr. Sumner succeeded Daniel Webster to the U. S. Senate, and was first elected to that position in 1851, and he held it without intermission ever since. His election to the Senate in 1851 was the triumph of fanaticism and abolitionism in Massachusetts, and to the service of these he faithfully devoted his life.

Gov. Kemper of Virginia, a good and true Conservative, is now being terribly abused by some of the Conservative papers of that State because he would not be a party slave, and do what the party wanted him to do, right or wrong.—Charlotte Democrat.

Yes; he is abused now by his own party for doing what the members of the Conservative party have been abusing the Radical party for not doing; that is, for acting independently, and discharging his public duties conscientiously and fearlessly without reference to the special demands of either political party.

We want rulers who know nothing but the necessities of the public interest, the general good of the whole people, in the discharge of their official duties. We want no mere party tool to fill the office of Governor, of Legislator, or of any other position.

We believe in loyalty to party and party organization, but there is such a thing as going to extremes, and extremes are always wrong.

THE LATEST FROM BALD MOUNTAIN.

Volcanic and Earthquake Pronouncements in the Mountains of N. C.—Bald Mountain the ostensible seat of the Calamity. Loud Subterranean Thunder and Terrific Shocks that Wake Nervous Children and Frighten Sinners to the altar of the Church, &c.

For the last ten days or two weeks there has been great excitement manifested on the subject of the volcanic and earthquake pronouncements in the mountains of Western North Carolina as detailed by reliable correspondents and others who have either visited or live on the spot. Some of our exchanges have given as much as a column at different times to the alarming subject; and yet it has not been exhausted and the interest has not flagged.

DEATH OF CHARLES SUMNER—FURTHER PARTICULARS.

WASHINGTON, March 11.—Hon. Senator Sumner appeared in his seat in the Senate yesterday, and although taking no part in the business of the session, seemed in his usual health. About 2 o'clock he was seized with a severe pain in the region of the heart, and left his seat and reclined for a moment on a sofa.

The Boston Advertiser, one of the Radical malcontent newspapers in Massachusetts is not surprised at the defeat of its party in the late New Hampshire election, but thinks it the natural effect of plain, palpable causes.

TRUE.

We understand that one of our leading law firms is in possession of a letter from a lady out west, laying claims to the entire city of Greensboro and much of the surrounding country, which she claims was willed by her grand-father to her father some hundred years ago.

THE NEXT STATE FAIR.—In speaking of the approaching State Fair, in the State Agricultural Journal, in its issue of the 12th inst., says:

Extensive preparations are being made for the 14th Annual Exposition of the North Carolina Agricultural Society. The premium list is being revised and will soon be ready for publication. The Fair will commence on the 13th of October and continue until the 23rd. The last State Fair, as is well known, despite the limited time in which to prepare the new grounds, was successful, and the management of the 13th industrial exposition gave universal satisfaction.

What we Owe to the Mechanic.

To nothing are we so much indebted for the improved condition, increased comforts, and elevation of mind and intellect among all civilized people, as to the discoveries, inventions and improvements in the mechanical arts.

The tillers of the soil, the artisan and the manufacturer, all upon a common level, were regarded as mere serfs, useful only as producers of what was required by the higher orders.

Labor-saving machinery has changed all this. It has been the great elevating and equalizing agency of modern times and made it possible for the mechanic and the laborer to supply his wants and to surround himself with comforts, conveniences, and luxuries unknown in former times.

The Democratic Victory.

The New York Herald says editorially of the New Hampshire election "a democratic victory in this State is an unusual and noteworthy event, no matter how small the majority. As Mercurio said, 'tis not so deep as a well, nor so wide as a church door; but 'tis enough.'—New Hampshire can hardly be called a representative State, so far as elections go, nor should we estimate the result too highly as an evidence of public opinion.

Our Senators.

It is a subject of pride to every North Carolinian that our old State is represented in the United States Senate by two such distinguished statesmen as Hon. A. S. Merrimon and M. W. Ransom.

DEATH OF A JOURNEY.—The day is not very far distant when the world will begin to look on death as a journey to another country.

Both Houses of the Iowa Legislature have passed the Railroad bill, which originated in the State Senate by a vote of 91 to 4. It divides the roads of the State into three classes, and enacts directly without the intervention of a board of Commissioners, as in Illinois, the rates that may be charged, in each class, for freight and passengers.

THE GREAT ANTAGONIST OF DISEASE.

What is the natural antagonist of disease? It is the vital principle. From the moment that disease is developed in the system, this champion fights the intruder until it either conquers or is conquered.

New Boarding Rates.

The undersigned are constrained, more by necessity than choice, to advance the price of Board at their respective Houses. Experience has demonstrated to them the insufficiency of the sums now charged; and as they find nearly all the attendant expenses of Housekeeping still advancing, the necessity for an advance in Boarding Rates elsewhere in the town and cities of the State, have for the most part, had a sliding scale, designed to meet the increased prices of commodities, thus securing a safe margin on their time, investments, and labor.
