

The young lady in Wisconsin who received \$1,000 damages for a kiss, is reported as spilling for some more damage.

A Cherokee Indian was recently admitted to practice law in the United States Supreme Court.

A Big Dream.—A circus elephant took cold at Cincinnati, the other day, and the doctor prescribed two gallons of whiskey.

"Sally," said a fellow to a girl, who had red hair, "keep away from me or you'll set me on fire." "No danger of that," replied the girl, "you are too green to burn."

A Greek maiden being asked what fortune she would bring her husband, replied in the following beautiful language:—a heart unspotted and virtuous without a stain, which is all that descended to me from my parents."

Hannibal, Missouri, has voted in favor of local option by a decided majority. Many ladies remained at the polls all day, denouncing in favor of such a law. Mark Twain says that when women vote liquor license will soon be almost unknown, and this looks as if he were right.

It was at Admiral Washington's table that Dr. Johnson made that excellent reply to the poet exclaim, who absolutely baited him during dinner time.

"Pray now," said he, to the doctor, "what would you give, old gentleman, to be as young and sprightly as I am."

"Why, I think," replied Johnson, "I would almost consent to be as foolish."

Capt. Joe Mills, of Burke, is having good luck with his mine this Spring. The Piedmont Press says he recently panned out two pennyweights of gold from a pound of ore that showed no free gold—over \$4,000 to the ton.

CIVIL RIGHTS BILL.—Senator Bottwell has proposed an amendment to the civil rights bill providing that its provisions shall apply to schools and public institutions of learning or benevolence authorized by law and endowed by the United States, or hereafter endowed by any State or the United States. The language of the bill of the committee now pending before the Senate is, "and also of common schools and public institutions of learning or benevolence supported in whole or in part by general taxation."

"Follow-citizens," says an advertiser in the Auburn Advertiser, "I must respectfully take this method to inform you that I am cooked. Yes, thoroughly cooked on the credit system. Perhaps not exactly burnt, but I am fearfully browned on the bottom." All this is an introduction to the statement that the man will sell coal hereafter only for cash.

Small-pox has broken out on an alarming extent in Rockwood, Ga. So great is the distress that the citizens of the town sent a petition to the Mayor of Atlanta asking that nurses be sent them, and also a quantity of provisions. The Mayor has called upon the people of Atlanta to respond with contribution for the assistance of the sufferers.

LOVE AND MARRIED LIFE.—The affection that links together man and wife is a far holier and more enduring passion than young love. It must be in its nature in its character—but it is far richer in its attributes. Talk not to us of the absence of love in wedded life! What! because a man has ceased to "sigh like a furnace," are we to believe the fire is extinct? No; it burns with a steadier flame, shedding a benign influence upon existence a million times more precious and delightful than the cold dreams of philosophy.

The Piedmont Press says that a rich vein of iron ore has recently been discovered in the vicinity of Lead Station, on the W. N. C. R. R. The vein is regarded as exceedingly valuable, and the lands of McElrath and Murphy who are now negotiating sale with capitalists in Philadelphia. The vein is found on Judge Bynum's land.

Joaquin Miller, the wild California poet, found Geneva full of his countrymen, and asked to be taken where there were no Americans. The boatman looked at him for a moment, then hopelessly up and down the lake and away across at Mont Blanc, and at last shook his head; but suddenly a new idea seemed to strike him, and he lifted his eyes toward heaven.

Greensboro circus items from the Patriot: Rabbits and bouquets were among the trophies the circus carried from his way to Indiana, lent his money, amounting to \$40, to a confidence man at the circus and did not want to pay his fare to Indiana, so he went back home. The ring-master would play elephant for the clown, both got mad and had a large sized row over it in the dressing-room.

PRETTY GOOD.—An Irishman driven to desperation by the stringency of the money market and the high price of provisions procured a pistol and took to the road. Meeting a traveler he stopped him, "Yer money or yer life?"

"Seeing Pat was green," he said, "I'll tell you what I'll do—I'll give you all my money for that pistol."

"Agreed."

Pat received the money, and handed over the pistol.

"Now," said the traveller, "hand back the money, or I'll blow your brains out."

"Blaze away, my hearty," said Pat, "I'll give you a drop of powder that's in it at all."

The following "remarkable story" is taken from the Geographical Magazine for April. It was told at a meeting of the Imperial Geographical Society in the United States service, in a paper on the progress of civilization in Japan: A young Japanese, who was sent to America to study, receiving from his government an allowance of \$1,000 per annum, embraced Christianity and became a Methodist. According to Japanese law he was punishable by death. Considering he was bound to notify the fact to his government, he wrote home and renounced all further claim to his allowance. The government of Yedo thereupon instituted inquiries in America into the manner in which the young man was following his studies; the result of these being in favor, all the reply that he obtained from the Japanese government in answer to his annual allowance to \$1,500.

The Montgomery (Ala.) Advertiser says: "We witnessed the operation of converting water into ice yesterday at the factory established by Dr. Lee. The machinery is of the best quality. The engine (one hundred horse power) is now running night and day, and thus for the company have only been able to accumulate sixty thousand pounds, the demand having exceeded the expectation of the company. Shipments are daily made to Birmingham, Selma, Greenville, Union Springs and Opelika. The condensed water which is converted into ice is of purest quality, and therefore the ice is as transparent as glass. In the manufacturing and distribution of ice this company gives employment to about twenty-five men, most of whom have families, and it may safely be stated that it supports from seventy-five to one hundred persons, besides paying a good dividend to the stockholders."

TROUBLE BREWING.—Railroad laws have been passed by Illinois, Iowa and Wisconsin. It remains to be seen whether they will relieve the farmer. It is said that some of the principal roads in Wisconsin have determined to disregard the law, which goes into effect the 1st of next month. The way it will be done is as follows: If a ticket agent refusing to accept the fare fixed by law is arrested and punished, they will close the ticket office in which he is stationed; and if a freight agent is prosecuted, they will close the freight office. The trains will run by the stations at which the offence is given without stopping, and leave the people who are dissatisfied with their rates without any railroad facilities at all. It is probable that a similar policy will be adopted by other roads in the same State, and it is easy to see that such a course will create more bitter feeling than has yet shown itself in the war which has already waged holy in the West between the Grangers and the railroads.

PROSPECTIVE ORIENTAL WAR.—The Khedive of Egypt is growing more and more aggressive, and influenced by the immobility of Pyramids and the Sphinx, displays excessive and filibusterish propensities. Elated by his recent conquest in Central Africa he has now fixed his eyes longingly upon Abyssinia, with the view of annexing it to Egypt, and then proclaiming himself 'Sultan of Egypt.' Great alarm has been caused at Constantinople by this intelligence, which has been further aggravated by a memorandum recently submitted to the Grand Vizier, showing the first Calliphs were of Egyptian extraction; that the successors of Omar and Osman became Caliphs only by the right of conquest, not by the election of the faithful; and that an Egyptian Sultan will prove a dangerous rival to the present one as the legal representative of the Caliphs. What "the sick man" will do about it has not yet been made apparent. Whether he is sufficiently convalescent to do anything is a matter of great doubt.

As an encouragement to our Brookville friends who contemplate establishing a cheese factory, it may be stated that the quantity of cheese sent from this country to England is astonishing. During the three months of January, February, and March it amounted to \$2,830,230—a gain over the corresponding quarter of last year of more than four hundred thousand dollars. With both a home and foreign market, the manufacture of cheese ought to prove profitable.—Lynchburg Republican.

NESTS FOR SETTING HENS.—We do not often see nests for setting hens properly made. Hay is most commonly used but its seed attracts mice, and it is scratched about by the hen in quest of the seed as food. Besides it is too dry, and eggs must be kept damp in some way, as they lose water steadily by evaporation. We prefer damp earth hollowed out and covered with finely cut straw, which will not become entangled in the feet of the hen. The curve of the nest must be neither too great nor so small as not to keep the eggs together. In case trouble may be expected, then both a nest and hen and all, every night with a box having wire cloth at the ends or sides to let a air.

WAR'S WASTE.—Give me the money that was spent in war, and I will purchase every foot of land upon the globe. I will clothe every man, woman and child in an attire of which kings and queens might be proud. I will build a school house on every hillside and in every valley upon the earth; I will build an academy in every town, and will endow it with a college in every State, and fill it with able professors: I will crown every hill with a place of worship, consecrated to the promulgation of the gospel of peace; I will support in every pulp an able teacher of righteousness, so that on every Sabbath morning the chime on the hill should answer to the chime on another around the earth's wide circumference; and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven.—Rufus Stearns.

A Japanese correspondent writes that a revolution favorable to Christians has been effected Corea, heretofore the most exclusive and persecuting of Asiatic monarchies. The Queen has studied a catechism, but has not yet chosen a particular sect or creed.

AN ARKANSAS SENATOR IN THIS CITY.—Col. George McCauley, State Senator from Arkansas, was at the Exchange yesterday on the way to visit his friends at Chapel Hill. He left Orange county when a boy twenty-five years ago. Col. McCauley was a good confederate in the war and the scars to prove it. He is a Democratic Senator from Independence and Van Buren counties, Arkansas. He left Little Rock last Saturday a week for Washington City in company with ex-Senator Price and others. This Senator we gather the following in bit of insight into the state of affairs in Arkansas: Brooks is 60 years old, weighs 200, is 6 feet 2, iron framed, of splendid intellect, the ugliest man you ever saw, when aroused will outfight a wildcat. He is a northern parson. He made the Greeley fight in Arkansas and the Democrats and Conservatives accepted his platform and made a joint fight with him. The Little Rock Gazette was bought up by Baxter, the opposition republican, to turn bourbon, and to split the Brooks party; it hoisted the straight ticket for Andrew Hunter, a very good and worthy man. Baxter has since given the Gazette the public printing for two years, and it is generally believed it got sixteen thousand dollars besides. Brooks was elected by a large majority even making large allowance for frauds and scorchings. Clayton ran the machine for Baxter and sent out men to bethe the registers to scratch off names sufficient to carry the State. Elisha Baxter, was a good and prominent man in Tennessee. Report says that John has but little use for Elisha. Baxter went to Arkansas in 1854 and he has run for every office from magistrate up and has been elected to none.

He is about 52, very fine looking, a blank, expressionless kind of character, but very smooth featured. He was a strong Confederate war speaker, and was commissary for a time in Col. Desha's regiment. He afterwards deserted to the yankees and at the close of war he was made register in bankruptcy. After the election the votes were counted out by the President of the Senate, not in presence of both houses, but only a few present, and Baxter himself of the number. Chief Justice John McCreary, familiarly called "Poker Jack," administered the oath of office on the spot, and soon afterwards administered the same oath of office to Brooks, "and," said the Senator, "if I could flip them both out and offer a consideration he would administer the same oath to me." The Senator gave me a red ticket with "admit" written on it that he had to get from Col. Johnson, Baxter's Secretary, before he could pass the guards at the Capitol gate to take his seat in office.—Raleigh Crescent.

The oldest voter registered in Petersburg gave his age at 105. His name is Henry Wood, and he remembers Washington and Lafayette quite as well as if he had nursed them both.

A beautiful lady was kissing and caressing her beautiful little lap-dog: "Ah Mariah!" exclaimed her foppish admirer, "why not grant me the favor you are wasting on Pido?" "I don't kiss every puppy," replied the pouting fair one.

There is an old darkey in Maryland who lately voted for local option, as he understood it, but not as the public generally understands it. The story, a true one, runs thus:

At a recent election a friend asked the old man how he was going to vote?

"Oh," he replied, "the Publican ticket. I always vote dat ticket."

"But how are you going to vote on the local option?"

"The darkey, looking up, asked: 'What's dat?'"

"Why local option is putting down liquor," was the reply.

"Lors-a-massy!" said the darkey, "ob course I vote for local option; I votes to put down liquor to the old pice—sippenny-bit for a pint!"

THE NEW FAMILY SINGER SEWING MACHINE. We claim and can show that it is the CHEAPEST, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of the sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk, linen, or cotton thread, fine or coarse, making the INTERLOCKED-ELASTIC-STITCH, alike on both sides of the fabric sewed. Thus, heavier cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearing instrument may be adjusted for fine work on gauze or gossamer tissue, or for the making of ruffles, or ruffling, or almost any other work which delicate fingers have been known to perform.

And with its simplicity of construction; ease of operation; uniformity of machine action at any speed; capacity for range and variety of work, fine or coarse—leaving all rivals behind it. We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussia, England, and recently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Progress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, to present to the public the recent returns of sale, (to which any one can have access) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shows the precise number of machines sold by each Company.

Table with columns for Year (1890, 1870, 1871, 1872) and various Sewing Machine models (Singer, Groves & Baker, Domestic, etc.) with their respective prices.

The reader will also note that although it is charged that Sewing Machines are sold at enormous high prices, yet he will see that several firms that were in existence have failed or abandoned an unprofitable business.

We respectfully solicit a call from all parties desiring a first class Sewing Machine. At our Store near the Public Square will be found the LATEST IMPROVED ATTACHMENTS for Tackling, Cording, Ruffing, etc. Also Silk, Linen, and Cotton Threads, Needles, Oil, etc.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California.

The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and tonic in the world, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS, being the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carmine, Nervine, Laxative, Disinfectant, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

"Grateful I thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system. No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary, and there is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Purify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Constipation, Flatulency of the Bowels, Indigestion, Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Biliousness. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swelling, Erysipelas, Swelled Neck, Goitre, Scrofulous Ulcerations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., are in all other constitutional Disorders, WALKER'S VINEGAR BITTERS, have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, and all Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Medical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gunsmiths, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Itches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scalds, Discoloration of the Skin, and all Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, or other purgatives, or cathartics will free the system from worms like these Bitters.

For Female Complaints, in young or married or single, at the dawn of womanhood, or the term of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Itches; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
