A meeting of the National Executive Committee of the Union League was lately held in Baltimore, and resolutions passed looking to a re-organization of the League throughout the country .

So look out white folks, and prepare yourselves accordingly. This movement is intended chiefly to carry the next Presidential election, and to bring on a more serious conflict between the whites and blacks, and still further to embarrass and impoverish the South by ruining its labor system.

THE RINGS OPPOSE TO IT. framed to meet the wants of the rings and so enable office-holders to tyrannize over the people, and as far as we have been able to see, the main opposition to a change and to the calling of a Convention originates with the mere politicians, the rings and their representatives. We know that the Railroad rings are opposed to a Convention; so is the Bond holder's ring, and so is the office-holder's and office manipulating ring, and we know that many so called Conservatives belong to these rings. We are told that the people don't want a Convention, when every one knows who has mingled with the masses that the assertion is not true. Those who are opposed to a Convention are the politicians, the time servers, the would be leaders, the rings and the ring managers.

KEEP COOL P

The Hon. Reverdy Johnson who is charged with being always ready to deliver an opinion to suit the man that pays the largest fee, and who is counsel for the Bond holders in their efforts to force North Carolina to pay a fraudulent debt, has recently written a letter to a member elect to the next Legisla ture, in which he has the effrontery to suggest what portion of the fraud the people should pay. What assurance!

The people of North Carolina will not permit dictation on this subject from the Bond-holders or their agents, and the Legislature that will permit it will be repudjated. It is not necessary therefore for Mr. Johnson to bother himself about the matter. A few members of the Legislature may imagine that they can fix up the debt trouble; but they will find them. selves most egregiously mistaken unless they are much wiser than their predecpasors. The fact is the Legislature is as helpless to make a final or satisfactory gettlement of the State debt as would be a body of so many new born babes. They may gas, debate, appoint Commissions, and authorize compromises, but they (the people) may, possibly, approve it if let alone by demagogues ; otherwise, they will assuredly reject not only the Legislature, but its action, and authorize its successor to ando and readjust : and this undoing and readjusting will go on from year to year without results until the people resolve to have a Convention and leave the settlement of the debt question with it. In the mean time Mr. John son and his clients may as well keep rupted. They are yet true to the great

So, it would seem. Judge Fowle is of the opinion that the calling of a Conwention will result in the defeat of the Conservative party in 1876. And this is the conclusion to which he has come after writing a column and a half article against sicle is inexpediency. Judge Fowle's

a close observer of matters and things in this State for the last ten years. If he had said that the failure to call a Convention will insure the defeat of the Conservative party in 1876, he would have bit the nail on the head, for just as sure ly as the sun rises in the east this will be the effect that the failure to call a Convention will produced. How the Judge can arrive at any other conclusion, after carefully reviewing the history of the party in this State, is astonishing to us. The Conservative party has secured

Although the majority has been Conservative, the people are in a more helpless condition to-day than they were four years ago. The public debt, so-called, has been largely increased instead of diminished, the taxes are equally burthensome, the common school system is a sham, the Rail Roads of the State are wholly under the control of rings, and the people are threatened with a new crusade upon their Homesteads. J. S. BLACK IN THE FIELD.

ANA QUESTION. Hon. Jeremiah S. Black, of Pennsylania, has written a letter to the New York Herald criticising both Reverdy Johnson and harles O'Conor's letters on the subject of President Grant's action u the Louisiana case, in which he holds that the President committed a grave violation of his constitutional duty, both in the first instance in sustaining Durell n favor of the installation of the pretender Kellog, and in reinstating Kellogg after his expulson by the rightful government of the State under McEnery. He

"The state is that which stands. movernment is 'the powers that be.' officers are those who actually exercise its authority. It is, therefore, the call of the de facto government that the President must repond to. This principle pervades all law, municipal and international, and its observance is absolutely necessary to the preservation of our domestic tranquility, as well as the peace of the world. If the President assists a faction hostile to the existing government, with the intention to drive the incumbent magistrates from the seat of power, he excites domestic violence and makes insurrection, instead of suppressing it.

"The facts of the Louisiana case, as think they are universally understood since the publication of Mr. Carpenter's report, these : - A man named Kellogg aspired to be Governor, but wholly tailed of the election. Nevertheless, he claimed the office on the grounds which were not only false and fraudulent, Lut abourd. He had no show of a case before the proper authorities, whose duty it was to decide contested elections; but he laid claim before a federal judge, who made an order for his installation.
