Prospectus for . 1875-Eighth Year

THE ART JOURNAL OF AMERICA. Issued Monthly.

A Magnificent Conception Wonderfully carried out.

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attemps have been made to meet the want. The successive failures which so invairably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commer-

cial triumph-THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception-alone and unapproached-absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine 794 paper and engravings in any other shape or 732 number of volumes for ten times its cost; and 94 then, there is the chromo, besides. The national feature of THE ALDINE mus

be taken in no narrow sense. True art is cosmo-194 politan, While THE ALDINE is a strictly 1468 American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative 73 art taste, one that will discriminate only on 246 grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a 2322 leading characteristic, the productions of the most noted American artists, attention will al-335 ways be given to specimens from foreign mas-1210 ters, giving subscribers all the pleasure and 589 instruction obtainable from home or foreign

> PREMIUM FOR 1875. Every subscriber for 1875 will receive a beau iful portrait, in oil colors, of the same noble 1186 dog whose picture in a former issue attracted 664 so much attention.

"Man's Unselfish Priend" 340 will be welcome in every home. Everybody 42 loves such a dog, and the portrait is executed so true to the life, that it seems the veritable 0000 presence of the animal itself. The Rev. T. THE NEW FAMILY SINGER SEWING MACHINE.

We claim and can show that it is the CHEAP-EST, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the INTER-LOCKED-ELASTIC-STITCH, alike on both sides of the fauric sewn. Thus, beaver cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or one tucking of tarlatan, or ruffling, or almost any other work which delicate fingers have been known to perform. .

And with its simplicity of construction; ease of operation; uniformity of PRECISE action at any speed; capacity for range and variety of work, fine or coarse-leaving all rivals behind it.

We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussia, England, and recently in Austria at the Exposition in Vienna where we were awarded five Medals, Merit, Progress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, to present to the public the sworn returns of sale, (to which any one can have pocess) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shews the precise number of machines sold by each Company. 1869 1870 1871 1872
