THE ART JOURNAL OF AMERICA

Issued Monthly. Mago fornt Conce tion Wonderfully

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attemps have been made to meet the want. The successive failures which so invairably followed each attempt in this country to establish an art Le journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely

interest characteristic of ordinary periodicals It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number It publishes scientific news, reports, discussions and discoveries to a degree of fullness value and beauty of THE ALDINE will be and accuracy never before attained by any pa- most appreciated after it is bound up at the close of the year. While other publication-I give every week ten or more columns of the most carefully prepared agricultural matter rivals of a similar class, THE ALDINE is during the year, much more in the aggregate unique and original conception-alone and unthan the entire contents of any other agricul- approached -absolutely without competition in tural publication, and the whole forming a de- price or character. The possessor of a complete partment of which an eminent agricultural volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and hen, there is the chromo, besides. The national feature of THE ALDINE must

be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. 10 mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit, Thus, while placing efore the patrons of THE ALDINE, as leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign mas ters, giving subscribers all the pleasure and instruction obtainable from home or foreign

The artistic illustration of American scenery original with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersion of landscape, marine, figure, and animal subjects, sustain at unabated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE

PREMIUM FOR 1875.

Every subscriber for 1875 will receive a beau tiful portrait, in oil colors, of the same noble dog whose picture in a former issue attracted

"Man's Unselfish Friend"

dealing with all the topics coming within the will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to the life, that it seems the veritable presence of the animal itself. The Rev. T. De Witt Talmage tells that his own Newfoundland dog (the finest in Brooklyn) barks at it! Although so natural, no one who sees this preminm gratulation that the farmer's newspaper far chromo will have the slightest fear of being

The Union owns the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5,000 subscri bers, 100 different pieces, valued at over \$2,500 are distributed as soon as the series is full, and the awards of each series as made, are to be published in the next succeeding issue of THE AL-ENGRAYINGS, illustrating Improvements Surely the paper has maintained success. THE NEW FAMILY SINGER SEWING MACHINE. peculiar to this Company, has merits possessed

We chaim and can show that it is the CHEAP-T, most beautiful, delicately arranged, nicely alljusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sea with equal cotton thread, fine or coarse, making the INTER-LOCKED-KLASTIC-STITCH, alike on both sides of the fabric sewn. Thus, beaver cloth, or lenther may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gommer times, or one tucking of taristan, or ruffling, or almost any other work which delicate fingers have been known to perform.

And with its simplicity of construction; ease of operation; uniformity of PRECISE action at iny speed; capacity for range and variety of work, ne or course-leaving all rivals behind it. We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussis, Begland, and ecently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Proress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, o present to the public the sworn returns of saie, (to which any one can have recess) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shews the precise number of machines Send stamp for Pamphlets, free. sold by each Company. 1869 1870 1877 1872
