THE NEW FAMILY SINGER SEWING MACHINE.

We claim and can show that it is the CHEAP-EST, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will see with equal facility and perfection, using silk twist, linen or TES, DYSPEPSIA, NERVOUS DEBILITY cotton thread, fine or coarse, making the INTER-LOCKED-ELASTIC-STITCH, alike on both sides of the fabric sewn. Thus, beaver cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarlatan, or ruffling, or almost any other work which delicate fingers have been

known to perform. And with its simplicity of construction; case of operation; uniformity of PRECISE action at any speed; capacity for range and variety of work, fine of coarse-leaving all rivals behind it. We with pleasure refer the public to the Gold and Bronze Medals and Diplomas awarded to our Machines in America, Prussia, England, and ecently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Proress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, o present to the public the sworn returns of saie, to which any one can have socoss) of the different Manufacturersof Machines, for the last four vears, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shews the precise number of machines

sold by each Company.
