Pearl Hominy at A. PARKER'S. Talk about the next Mayor's election...

Fresh Mackerel at A. PARKER'S. There is a nice little girl child (aged about 7 years) to be bound out to a suitable person...

Mr. Fred Kerr, son of Maj. Jas. E. Kerr of this place, died on Wednesday night (17th) of rapid consumption, aged 24 years. 'Tis said to die so young.

Mr. J. H. Ennis, Druggist, calls attention to the fact that he is now in receipt of every variety of garden seeds and flower seeds, and that he will not be undersold.

Teacher—Where is the bay of Biscay? Pupil—The bay of Biscay is west of France. Teacher—Are you sure of that? Pupil—Yes sir, I can go to the Mayor's office and say so.

Mr. John Shuman one of our oldest citizens died in this place on Wednesday 17th inst. aged 82 years. Thus has another of the landmarks of Salisbury passed away.

A fresh supply of Mountain Apples just received at A. PARKER'S.

Garden & Flower Seed.—Messrs. Buis & Barker announce the arrival of their large and well selected stock of Garden and Flower seeds. They have every variety and warrant them to be pure and genuine.

She was rather hard on them, that lady who said the other day, that "boys ought to be barred up when nine years old, and fed through the bag-hole until they were thirty." Look out boys or you'll get up a bad reputation.

Mr. A. L. Johnson informs us that he has put up 500 tons of splendid ice, and will be able to supply not only the city of Salisbury, but Charlotte and many other small adjacent towns.

Mr. A. L. Johnson, desires us to extend his thanks to the citizens of Salisbury for the very liberal patronage given him heretofore, and to say that he has just refitted his houses with splendid ice for the present year.

Returned.—We were glad to meet a few days ago in our parlor, Dr. F. N. Luckey, who has just returned from N. Y. City, where he has been sojourning two or three months, for the purpose of improving himself professionally and physically. He is as jovial as ever.

Guanahani.—We call the attention to the advertisement of this splendid fertilizer. It is for sale by Messrs. Meroney & Bro. All good farmers that have tried fertilizer say it will pay handsomely to use them; that they will increase the yield on ordinary land two and three fold. This being true, it is safe for the farmer to invest all he can in some good fertilizer.

Pettongill's Advertising Agency.—We have been dealing with this agency for a number of years past, and we have always found the proprietors prompt and just in their dealings, both with the printer and the advertiser. We know of no Agency more reliable or more worthy of the public confidence.

The Rocky Mount Mail says: Solicitor Hays has days over six hundred indictments against parties in Nash county for failure to list poll tax.

In Rowan county there will be wailing and gnashing of teeth about Spring Court over the same subject. We heard the Sheriff say a short time ago that he intended to hand over to the solicitor the names of all those who had failed to list or to pay their poll tax before that time. Much trouble can therefore be saved by parties delinquents coming forward and settling up promptly.

He paid a dollar and a quarter for it and sent it to her, that pretty valentine with cupid and roses, and words of ardent affection, and she thought that other fellow good, and he was too smart to deny it, but left her to believe that he did it. The real sender was mad, you bet, and would never invest more than ten cents that way again. Next year he'll send her a horrible comic-character valentine, and get her to believe the other fellow did it, just out of spite.

GERANIUMS WILL DRIVE OFF SNAKES. From the Rural Sun. Every species of snake may be permanently driven away from an infested place by planting geraniums. In South Africa the Caffre people use this method of driving off snakes. A missionary of South Africa had his parsonage surrounded by a snake-belt of geraniums, which effectually protected the residents from any kind of snake. A few yards away from this geranium-belt a snake would occasionally be found. It is well known that the whole geranium is highly repellent to venereal diseases—lemon scented, musk scented, and peppermint scented. What, therefore, is a very pleasant nosegay for man is repugnant to the serpent tribe.

He thought it was Delirium Tremens. From the New Brunswicker. Suffice brought his two weeks' spree to a close on Tuesday night. He lay on a lounge in the parlor, feeling as mean as a dog, when something in the corner of the room attracted his attention. Lying on his elbow he gazed steadily at it. Rubbing his eyes, he stared again, and as he started his terror grew. Calling his wife, he asked hoarsely: "Mirandy, what is that?" "What's what, Likey?" "Suiffie's name is Lycurgus, and his wife calls him Likey for short and sweet. "Why that—that—thing in the corner," said the frightened man, pointing at it with a hand shaking like a politician. "Likey, dear, I see nothing," replied the woman.

A Triumph Over Humbug. It is not difficult to alarm the timid, and invalids are proverbially so. Aware of this fact, the vendor of pseudo-bitters, "entirely free from alcohol," have raised a false cry against tonic preparations containing spirits, and no doubt, have frightened a few sick folk into purchasing the fermented rubbish which they sell, and which is infinitely more injurious than the vilest drams drunk at tavern bars. But already a tremendous reaction has set in against these abominable nostrums, which, being devoid of the alcoholic basis which alone prevents liquid botanic preparations from turning sour, decompose almost as soon as made. Hostetter's Stomach Bitters has lived and will live down multitudes of such imposters. A regular recurrence of the demand for the great alterative invigorant from those who have always been its patrons, shows that they have not swerved in their time-honored allegiance to America's most popular remedy; and a constant influx of new orders demonstrates how little impression, after all, the blarney denunciations of the mock-bitters have made upon the general public. So long as Hostetter's Bitters continue to cure and prevent intermittent and remittent fever, dyspepsia, constipation, kidney disease, and the numerous other ailments to which they are adapted, they will continue to dominate the factious opposition of humbug, and that will be just as long as they are manufactured and sold. It is known that the Stencil will be made nearly out every degree of audacity and knavery, that they can never hope to put themselves into public favor at the expense of Hostetter's Bitters, the reputation of which is founded, as it were, upon a rock.

The town clock peals out... and the boys say it strikes ten p.m. every fully load, somehow. (Why?)... Monsieur de Constant, the keeper, soliloquizing to himself thusly the other day, in evident disgust, "some say he too has an some say he too slow, an' how se devels I know how his is, by gaw."

Hams being scarce at the house of Charles Mages, colored, of Mt. Uila township, he in an unguarded moment attempted to apply the deficiency by appropriating one which belonged to his neighbor. For this, Charles now looketh out from behind the prison bars, and will be sent on to learn a trade at the expense of the non-stealing tax-payers. How our country does groan for the good old days of the whipping post!

DIED.—We regret to have to announce the demise of Mr. Geo. O. Poulson of Portsmouth Va., who died at the residence of Dr. J. Hall, in this city on Monday night last. Mr. Poulson had been sojourning here for several months and was well known to most of our citizens as a most exemplary gentleman. He was the father of the late Dr. Geo. B. Poulson of this place. His remains were sent to Portsmouth for interment.

Buis & Barker.—We have heretofore called attention to the enterprise and energy of these young men, as well as to the fact that they have entered into co-partnership for the purpose of conducting the Drug business. They have experience in the Drug business, are sober and steady, and well merit, as we doubt not they will receive, a liberal share of the public patronage. See their advertisement in to-day's paper.

We wish some M. D. would explain to us the reason why Colic is so prevalent on election days. We can't account for it. There was more of it in town last Monday than we have seen in a long time, and it all seemed to be of that particular kind which nothing would help but sperrits. 'Twant no use offering them pepper tea, peppermint drops nor anything of the kind, "nothing never would help it but sperrits," they all said.

"Many a shaft at random sent, Finds work the archer never meant." Our local last week upon that young man who went to the Ball again, was appropriated by at least half dozen young men in town, several of whom were fighting mad. Next time, we reckon we'll have to do like the Scotch preacher who yelled out at the close of his sermon, "Sauldy McFlane, this is the second time ye have stored about, and if ye do it again I'll call ye out by name to the congregation."

Salisbury can beat the world for pretty ladies, and if we were not afraid of the good wife, we would like to brag on a few of 'em by name. As it is, we take pleasure in copying from the Charlotte Observer the following pleasant paragraph in regard to the appearance of one of our young ladies at the recent bal masque in that place: "Miss Carrie McNeely, a Salisbury visitor, represented a "Spanish Lady," and was charming and noble. The young man who said she was "too sweet to live a minute," was knocked in the head, not because he storked, but because his admiration of her made another fellow jealous and mad."

The National Hotel.—We availed ourselves of a standing invitation to dine at the NATIONAL a few days ago, and we are enabled to give additional testimony to what we have heretofore said; and that is, the public will find the National a most desirable place to stop at in passing through Salisbury. Mrs. Dr. Reeves, the Proprietress, is one of the neatest and most skillful managers in the State; her clerk, Mr. D. R. Frasier, is courteous and attentive, and her servants polite and faithful. The public may always count on good fare, clean rooms, and attentive servants.

"The Wadesboro Herald says: Mr. W. L. Rose informs us that the subscription to the Chesapeake & Salisbury Railroad, for Wadesboro township, now amounts to \$90,000, and still the work goes on. We do not know what has been done in other townships, but hope the canvassers are at work and that the remaining \$20,000 will soon be subscribed."

We are very much gratified to see that the people of Anson are taking so much interest in this important Road. The Road can be built, if the people of Rowan, Stanly, and Anson, will it. It only requires determination and effort on their part.

AGAIN? Oh, sweet and fair Loh, rich and rare! That day so long ago; The autumn sunshine everywhere, The heather all aglow. The ferns were clad in cloth of gold, The waves sang on the shore; Such signs will shine, such waves will sing, For ever, evermore.

Oh, fit and few! Oh, tried and true! The friends who met that day; Each one the other's spirit knew; And so in earnest plied The hours flew past, until at last The twilight kissed the shore; We said, "Such days shall come again For ever, evermore."

One day again! No cloud of pain A shadow o'er us cast, And yet we strove in vain, in vain, To conjure up the past; Like, but unlike, the sun that shone, The past is ours, not yours; The words we said, the songs we sung, Like—unlike, evermore:

For guests unseen crept in between, And, when our songs flowed free, Sang discord in an undertone, And marred the harmony. "The past is ours, not yours," they said, "These waves that beat the shore, Though like the same, are not the same, Oh! never, nevermore!"

AMENITIES OF LIFE IN COLORADO. From the Fair Play Sentinel.

Twelve or fifteen armed men went to the house of Elisha Gibbs, rapped at the door and told him they would give him five minutes to come out. Gibbs told them he would come as soon as he dressed. After waiting until they thought the time was up, some of the party placed an armful or two of straw against the door and was in the act of lighting it when Gibbs commenced firing at them with a revolver. David and Samuel Boone, Mr. Kane, and Mr. Reed were shot. David Boone died the next night. Samuel Boone was pronounced fatal by the physicians in attendance, and he is doubtless dead ere this. Reed received an ugly flesh wound. After the shooting was over Gibbs picked up two guns, a rifle, and a hat, what had been dropped by his visitors.

We take pleasure in transferring to our columns the following merited compliments to our citizens: "We don't intend to be invidious in the mention we make of the fancy dress ball given at the Byden House in Salisbury last Monday evening. Miss Shober in the character of the Swiss peasant was particularly fascinating; 1778—Mrs Overman was exceptionally good; Dew Drop—Miss Annie Craig; Daughter of the Regiment—Miss Rowzee; Night—Miss Dean, excited general remark. The two Indian characters were splendidly executed—Miss Maggie Young as Pocahontas, and L. McNeely as Opicannano. Miss Wren represented the Confederate States in an elegant and elaborate costume. Eleven stars decked the crown that covered her head, from which hung a black veil entwining her neck and arms; red white and blue streamers floated from the shoulders upon which was inscribed the names of many hard fought and bloody battles. The dress represented the Confederate flag—dear old emblem of "disloyalty"—decked with excellent photographs of many of the prominent Confederate Generals who were killed in battle. Of course we paid no attention to the male costumes. Among other prominent non-resident gentlemen we noticed on the floor our friend Joe Dobson, of Surry. Statesville Landmark."

The Boyde, Hogue at Salisbury can now justly assert his claims as the best furnished and best kept hotel in the Western section of the State. We were shown through a number of rooms and found them neatly and newly carpeted and provided with new and tasty furniture. The walls have been nicely papered and everything looks clean, neat and comfortable. The table furniture is new and substantial. The host, Col. Linton, is a clever, polite efficient manager. Salisbury, like many other towns we was of, needed first class hotel accommodations, and we are pleased to see this want well supplied in the Boyde.—Statesville Landmark.

Insurance Agency of J. Allen Brown, Office Main St., Salisbury, N. C.—Representing assets of (Fire & Life) of over one Hundred Million Dollars, consisting of Foreign and Home Companies of the highest grade. As to Life, he can place parties in almost any Company desired. Arrangements may also be made with some of his Companies for the loan of money here, at a reasonable rate of interest, and will not require parties to insure unless wishing to do so.

Fire risks written at the lowest adequate rates. As regards rates would say he does not pretend to compete with the many "Wild Cat" Co's., that write at any rate the party wishes. Though should any one want this kind of cheap Insurance, he can have it written for them at such rates as they are willing to pay, but will not recommend such Co's., if

DIPHTHERIA.—The New York Express calls attention to several facts to prove that diphtheria is not a new disease, as most people suppose, and reminds its readers that Washington is supposed to have died of the malady. The letters of Walpole show that a disease very similar to it, if not exactly the same, was an epidemic among certain of the English nobility as early as the middle of the eighteenth century.

In Rowan county, N. C., Feb. 4th, 1875, Mrs. Camilla C. Cune, wife of Rev. W. H. Cune, aged 50 years and 10 days.

The deceased was the daughter of a distinguished parent and was, in her early infancy, dedicated to God in Holy Baptism. After reaching the years of knowledge, and having familiarized herself with the scriptures and duties of Christianity, she was united to her husband in the Lutheran Church. By her humble, uniform and unassuming christian deportment, she demonstrated the sincerity of her religious profession. She attended public religious worship, with commendable frequency and regularly. She was married twice, her first husband having preceded her to the grave. As a wife, she was kind and affectionate; as a mother, she felt her responsibility in the maternal relation; and as a neighbor, she was kind-hearted and obliging. Her death was unexpected to her friends. On Sunday preceding, she attended religious worship in St. Peter's Church, and listened with devout attention to the preaching of the word. On the fourth morning afterward, death came and put a period to her state of probation. Although death may come with but little pronouncement, an approving conscience, consequent upon an upright and pious life, will afford peace and comfort in the hour of dissolution. On Saturday succeeding her death, and in the presence of a large assemblage of persons, her mortal remains were consigned to the quiet grave in Organ Church cemetery. In the death of Mrs. Cune, a vacuum has been created in the families—circle, in which long, and in her neighborhood, which will long be felt. She has left a sorrow-stricken husband and son, and many friends to mourn over their irreparable loss. "Blessed are the dead which die in the Lord." S. R.
