

The Young man that got that very affectionate letter from his lady love, is not right sure that it did not fall from the moon, now.

Governor Brogden stooped mighty low and showed himself to be unworthy of the position he holds, in the matter of ordering the election in Orange county.

It is of very much importance that every Democrat elect be on hand on the day appointed for the assembling of the Convention.

Mr. W. W. Patterson has been nominated by the Democrats of Orange to fill the vacancy in the Convention caused by the death of Hon. W. A. Graham.

Thirteen prisoners made attempt to escape from the Penitentiary a few days ago, and succeeded except two that were killed and one or two that were wounded.

We had the pleasure of shaking the hand of Mr. Taylor of the Lexington Central, a few days ago. Mr. T. has had several years experience in the editorial chair, and gets out a good paper.

Mr. Eli Loftin, of Fredell, is a candidate for door keeper to the Convention. Mr. Loftin lost a leg in the Confederate service, but is active and highly recommended by those who know him for the place.

We had the pleasure of meeting in our city a few days ago, Jordan Stone, Esq., of the Raleigh News. Stone is one of the cleverest of newspaper men, and has shown an energy and ability in the conduct of his paper eminently worthy of success. Long may he wave.

Our Living and Our Dead for September is on our table bright and handsome; but its best appearance is not half its merit. It contains about a hundred pages of choice reading matter, and illustrations. A handsome portrait of Gen. George Burdwin Anderson is given in the Sept. number. The splendid stories by Christian Reid and Mrs. Harris are unflagging in interest. Kingbury's articles are splendid; but so is the whole.

THE PRESIDENT OF THE CONVENTION.

Quite a number of names have been mentioned in connection with the presidency of the Convention, and among them that of our distinguished townsman, Hon. F. E. Shober. We don't know of any one that would fill the place with more general acceptability than Mr. Shober. He possesses in a very high degree all those qualities so necessary to make a good presiding officer, and is just the right age for the position. Ex-Gov. Reid, has been mentioned in connection with the place, and with all due deference to Mr. Reid and his many friends, we are inclined to think that a younger man would be more acceptable, and more likely to expedite business. Mr. Shober is dignified, able, experienced, and will make a most capital presiding officer. Although he is not an aspirant for the place, a gentleman possessing such fine qualifications and so eminently fit for the position cannot well be overlooked.

THE NEGRO VS. THE WHITE MAN.

It seems that the foolish negroes of Georgia, following the rash counsels of certain ignorant and equally wicked leaders, have been for several months preparing to make a united attack on the whites in the vain hope of being able to destroy them and take possession of their lands. Such stupidity is only equalled by the enormity of the crime contemplated. If the number of negroes in the South were five times greater than what it is, such a scheme as they proposed in Georgia could never be carried out; and any general concert of action on their part, with the view of carrying into execution their plan of murder and rapine, would result only in the utter destruction of the negro race. The fact is, if the negroes expect or desire to live in this country at all, they had better begin to cultivate the ways of peace and amity. It matters not how well concealed they may keep their plans, or how well united or wide spread their organization, it must fail and result only in the hanging of the leaders and the condign punishment of their followers. None but the worst enemies of the negro race would counsel such fool hardy exploits as were proposed in Georgia. None but the enemies of the negro race will advise any thing but peace and harmony between the whites and the blacks. There are hundreds and thousands of white people throughout the land that rejoice in such murderous schemes as have been attempted in Georgia and other places, but it is because they know that they only hasten the destruction of the negro race in this country—it is because they are enemies to the negroes. If the negro is wise, he will abandon forever such stupid and wicked projects.

The people of Texas have called a Convention to remodel their Constitution, by a vote of 20,000 majority. North Carolina alone, of all the Southern States, has been tardy in getting rid of a Constitution placed upon her by Yankee bayonets, carpet-baggers, scalawags, and negroes. At the second attempt she has barely got a majority of white men with white notions out of a population that has a majority of fifty thousand white voters. Why is this? Is North Carolina less true to principle—less devoted to the high claims of the Anglo Saxon race—less interested in good and honest government, than other Southern States? We do not believe it. Yet she might justly be charged with gross indifference which is very damaging to her as a State.

The fact is our people take too little interest in public affairs—they are too easily disgruntled and rendered indifferent at the shortcomings of so called leaders; they trust too much to a few, and are too negligent and careless as a whole. A half dozen men in each county generally do the entire work of a campaign, while the great mass sit back and trust to the exertions of these few. And the workers, the energetic, active campaigners, are too rarely rewarded. If the party has anything to give, any position to offer, a drone is sought out and the honors are bestowed upon him instead of upon a worker. There is also too little effort made to secure the services of our best men for office and places of public trust. The man who has got the most brass, most money, and the most gab is generally sought out instead of the man who has intelligence, honesty, and experience. In other words, the drone, the man without qualification, is picked up instead of the active, capable, worthy citizen. The blunders of the last Legislature, should be a perpetual warning to the people of North Carolina never to send any but their best men to that body hereafter. The people must correct the blunders of the past. They must show more back-bone and select better men for office, or prepare to give up the ghost.

There are some strong personal relations between the editor of the Charlotte Democrat and W. W. Holden, and the Democrat has selected the present time as opportune for urging the removal of the disabilities imposed upon him by the court of impeachment. Public opinion in North Carolina is not yet ripe for this act of mercy. It is a terrible punishment to Holden—but Holden committed a terrible crime. The only misfortune is that his co-conspirators against the liberties of the people have not suffered with him.—Statesville Landmark.

Ah! and here's the rub. Not only his "co-conspirators," but the chief instigators in the move for which Holden is now suffering punishment, are all at large, untrammelled in their rights as citizens, and are, in a majority of cases, holding high and responsible positions. For instance, there is Grant, who is believed to be the chief instigator, and certainly the leading abettor, is occupying the Presidential Chair of the United States. There is Chief Justice Pearson, the greatest offender living in the State, is at the head of the Supreme Court of North Carolina. And there are John Pugh, Rodman, Tom Settle, Bill Henderson, Judge Logan, Tim Lee, Tongree, and a host of others, all just as guilty as Holden, and really more guilty, for Holden was made to execute the edict of those worse men, and still not only they, but the vilest thief and scoundrel who has served out a term in the Penitentiary, are allowed to vote and hold office, while Holden, the mere tool of the wicked conclave, is kept under the bar. While Grant, and Pearson, and Pugh, and the escaped Penitentiary convicts can exercise the prerogatives of freemen, we are unable to see that either justice or good government can be subserved by keeping Holden bound. He has been terribly punished already, and we do not believe that the good people of North Carolina are so lost to all the nobler sentiments of the human heart as to give their approval to such inequality of punishment. They were in favor of punishing all the criminals; but they are not in favor of browbeating and bullying a poor devil when he is down, while they let another and more guilty accomplice go unwhipped of justice. Justice demanded the punishment of all, but it does not demand the punishment of one to the exclusion of the rest, and so will say an enlightened public.

INTERESTING OLD PAPERS.

When the new Court House was finished, in 1856, the old Temple of Justice which stood in the crossing of the two principal streets, of Salisbury, was torn down. All the old Court papers preceding and during the Revolutionary war were found in the garret of the building, thrown in a promiscuous heap. They were not saved, but fell with the rubbish. Many of them were picked up as curiosities of the olden times, and some few were saved by the more careful sort of people. Among the latter we present the following:

North Carolina, Rowan County.

This is to certify that I, David Crawford do freely give my consent that Rebecca Riggs should have my daughter Mary Crawford to wife as witness my hand this 29 day of February, 1769.

(Signed) DAVID CRAWFORD.

Rowan County, S. S.—February sessions, 1787.

It is hereby certified that John Phillips hath produced a certificate to the Court that he hath killed five wolves in the

County of Rowan—and ordered by the Court that the Sheriff pay him Twenty Shillings for each, out of the County Tax for the one thousand seven hundred and eighty-six. Ad. OSBORNE, C. C. (Signed)

A similar certificate was given to Gedion Howard, at the same time, who killed one wolf.

"Benjamin Williams, Esq., our Governor, Captain General, and Commander in Chief, in and over said State of North Carolina," addresses, under date of the 14th December, 1807, at Raleigh—

"To the Chairman of the County of Rowan, or any three of the Associate Justices, Greeting: Whereas the General Assembly have added Daniel Cress, John Fulton, George Snider, Nicholas Gaither, George Erwin, Alexander Aldrough, Woodson Daniel, Robert Morgan, and Solomon Davis, to the Commission of the Peace for our County of Rowan, we do therefore commission and appoint them Justices of the Peace in and for said County of Rowan," &c.

The descendants of several of these persons are still among us. We have also, among these old papers, a number of private letters addressed to "Adlai L. Osborn, Student at Law, Salisbury," from H. Chambers, M. Troy, Spruce M. Osborn, Edwin J. Osborn, Gavin Alvies, W. Hogan, &c., dating from 1803 to 1808. They were all young men, some of them at Chapel Hill College; and they write upon subjects which mostly occupy the minds of young men—the ladies. Some of them are splendidly written and are highly creditable to their authors; but none are suitable for publication.

A Snake Den.—We were in a snake den, 8 o'clock, Monday morning last. At one time we were completely surrounded by the venomous beasts. The den was partly underground, but not so dark but we could watch them pretty closely. Can't say we are a snake fancier, but we looked at these with more quietness of nerve and more interest than usual. Some of them were large and other small. And they were mixed up—about 20 different kinds. It seemed to be a sort of camp meeting of snakes of all kinds. May be they were there to organize a State Convention to define the rights of snakes. We reckon they have rights, or they would't have a place here. They wouldn't have a den, nor a living in common with other reptiles. If a declaration of rights drew these rascals, streaked, spotted, pied, black, brown, green, fellows together, they have not assembled a moment too soon. They should have credit for great forbearance, for all this while since another Eye's day man's cruelty to snakes has been proverbial. Some members of her family have distinguished themselves in their relentless pursuit of the crawlers; and some have got on such a good understanding with them as almost to dance with joy on meeting a great rattlesnake with 20 rattles and a button! They go in with such fellows lovingly! Our fellow townsman, Wm. MURDOCK, Esq., has worked himself up to this point. It's shocking to hear him talk about snakes and see him handle them. It was his den we were in. We believe he sleeps among them! He's got frogs, lizards, scorpions, bugs, worms, and so forth. Carries little bags, sometimes, to put them in, but when no bags, puts them in his pockets with pipe and tobacco! He has done an active business in snakes this summer, one would think, to get up so many different kinds, and the season not yet over. These are to go to Scotland, his native land, to take their place in some great curiosity shop in Edinburgh, we believe. Prof. KEAR, and Prof. JULIAN of N. Y., visited his den a few days ago, and like Professors generally, were no doubt delighted (with things to other folks horrible) and wanted to engage him to gather snakes for them. "Wake snakes," and deepen your holes, for these "scientists" get after you nothing short of a thousand feet down will save you.

But to return: among Mr. Murdoch's collection, one bottle contains a "king snake" and another of a different kind which the king was in the act of swallowing when found. The victim of this voracious fellow is nearly or quite as large as the king himself. He had half completed his meal when captured. To side Gold Hill road, on the 21st, a dove performance of the various functions. Such being the case, it is plain that the Bitters are not only the most reliable stomachic, but an eradicant of those diseases of the liver, bowels and kidneys which contaminate the springs of life.

NOTICE.

I will sell at my residence in Rowan county, ten miles East of Salisbury, and one mile East of Gold Hill, on the 21st day of September next, the following property: 5 head of Horses and Mules. 14 head of Cattle, including 3 good Milch Cows, 2 head of Sh-ops. A fine lot of fattening Hogs. Corn, Wheat, Oats, and Roughness. A good lot of Farming Tools, including Wagons and Carriage, Buggies and Harness. Also Household and Kitchen Furniture! A lot of land to be rented at the same time and place. TERMS made known on day of sale. A. A. LENTZ. August 26th, 1875.—2ts. pd.

FRANCIS BARNARD, Practical and Scientific OPTICIAN

Is now in this city, with a splendid variety of Eye-Glasses and Spectacles. His Glasses are all of the finest quality, and when the lenses are fitted to suit the eye, he is able to give perfect satisfaction. There is no economy in buying cheap, imperfect Spectacles or Eye-glasses. The use of imperfect Spectacles does an injury to the eye which the most scientific optician cannot remedy. IT WEARS THEM OUT. The first symptom of failing sight is when you cannot see without spectacles, or partly shutting your eyes, or have to hold an object at a greater distance than usual to see it distinctly. It is a mistake to put off using Spectacles until you are compelled to put them on or not see. Economy and a desire to preserve good eyes as long as you can, should teach you to assist your eyes as soon as they need assistance. And other portion of your body, as soon as it becomes disabled, you try to repair, and why not your EYES, which are the most delicate?

Persons who are NEAR-SIGHTED, and those who are difficult to suit with Glasses, will do well to call on him. He will be at the mansion House for a few days only. Headquarters No. 12 Whiphoff Street, A. A. LENTZ.

CHESAPEAKE & OHIO RAIL ROAD.

We call attention to the advertisement of this magnificent highway through Virginia to the great west. It is a highway not more remarkable for the wonderful natural beauties which it opens up to the tourist than for the stupendous effect it is destined to have upon Virginia and measurably upon the whole South. It is the first complete and exclusive Southern route from the regions of the great west, and while unlocking the hidden treasures of Virginia, it has also struck a fountain head which has opened to the metropolis of that State a mine of wealth, in the language of Dr. Johnson, beyond the dreams of avarice to calculate.

But it was merely for the tourist that we wished to call attention to the schedule; not to expatiate upon a subject which is at once pleasant and inexhaustible.—News.

See the schedule in this paper.

THE NEGRO INSURRECTION—A MOST DIABOLICAL PLOT.

AUGUST 23.—Several of the prominent negroes connected with the troubles in the counties below here have made confessions. Jake Moorman, first Lieutenant of the negro company, testifies on oath that 19 counties were to be embraced in the insurrection. Last Friday was appointed for the uprising, all white men and ugly white women were to be killed, the pretty white women were to be spared, and land and spoils were to be divided among the negroes. All who have so far confessed testify substantially to the same as Jake Moorman. Gov. Smith arrived here this afternoon from Waynesboro. He is determined to preserve peace, enforce the laws and do justice to the whites and blacks.

THE GREATEST CROP IN THE WORLD.

The hay crop of the United States for the last year is reported to be over 27,000,000 tons, cured. This at \$20 per ton is about \$540,000,000. They had to get their living out of grass. The value of animals slaughtered for food in that year was \$309,000,000. The butter crop was \$514,000,000. This all came from grass. There were produced 235,000,000 gallons of milk, worth \$23,000,000. This, too, came from grass. Next 100,000,000 pounds of wool at \$25,000,000. Next 53,000,000 pounds of cheese worth \$5,000,000. Put all these items together and the grass product of 1874 of the United States was no less than \$1,265,000,000. The total value of agricultural products in the United States was \$2,447,538,232. In other words, the crop of the United States can pay off the national debt in two years.

Purify the Springs of Life.

It is a sine qua non of health, that the sources of vitality, the "springs of life" should be free from contamination. The fluids which by their action upon the food, transform it into blood, and the great vital nutrient itself, must be pure; if the muscles, the bones and the brain are to be properly nourished and kept vigorous. To this end the stomach, the liver, the bowels and the kidneys should perform uninterferingly their various functions, since if these are disturbed the vital fluids speedily become vitiated. The best way, the ONLY blood purifier which purifies them, by overcoming those bodily irregularities which produce them, is Hostetter's Stomach Bitters. The principle upon which this salutary alterative acts is as simple as it is philosophic. The origin of most diseases, and invariably those which affect the organs above mentioned, is weakness, caused by insufficient assimilation of the food. The Bitters speedily rectify the cause of the difficulty by restoring vigorous digestion, so that all parts of the physical structure are supplied with an abundance of pure, rich blood. This increases the activity of the discharging organs, and enables them to throw off the effete matter, which, rankling in the system, destroys health. This bodily refuse having been got rid of, and perfect assimilation re-established, there is nothing to prevent the normal performance of the various functions. Such being the case, it is plain that the Bitters are not only the most reliable stomachic, but an eradicant of those diseases of the liver, bowels and kidneys which contaminate the springs of life.

DAVE LAND FOR SALE.

In obedience to an order of the Court of Davie county, I will proceed to sell on the 10th day of Sept. next, at the Court House in Mocksville, the land belonging to the estate of John Maxwell, dec'd, known as the home place, supposed to contain (200) two hundred and eighty acres. It lies about five miles south of Mocksville, and joins the lands of James A. Kelly, W. B. Clement and others. There is about 100 acres of timbered land in the tract. It is well watered with branches, and has a number of fine springs affording as good water as can be found in this part of the country. The land is of good quality for farming. There is a dwelling and barn on the lands, also houses for tenants. There is also on it a vein of Magnetite Iron Ore, pronounced by judges to be rich—60 to 70 per cent. A credit of six months will be given. The purchaser will be required to give bond with approved security, with interest from date. The title will be reserved until all the purchase money is paid. The subscriber, living on the premises, will take pleasure in showing the land and the ores to any one wishing to examine them. S. MAXWELL, Adm'r. of JOHN MAXWELL, Dec'd. Aug. 26th, 1875—2ms.
