

The fight now going on between the third-terms and the opposing members of the radical family belongs exclusively to the Republican party.

SHOOTING.—We learn from rumors on the streets and from exchanges, that an old feud existing between Mr. G. W. Swinson and Adolphus Moore, at Haw River, culminated in a shooting scrape, on Tuesday, in which the latter was pretty badly hurt.

Heathenism.—The Wilmington Journal reports the proceedings of a trial in that city, where it appeared that W. H. Moore, a negro legislator and Justice of the Peace for N. Hanover, having before him a man charged with murder, compelled him to lay his hands on the corpse, alleging that if guilty, blood would flow out of the dead man's ears in testimony of the prisoner's guilt.

AMNESTY BILL.—A Washington correspondent of the Raleigh News, writes thus:

WASHINGTON, Jan. 21, 1876.—Since my last letter the Amnesty bill has been defeated by the indefatigable efforts of a man (Blaine) who during the call of the roll on the final passage of the bill might have been seen running from one to another of the Southern Republicans, especially the colored members, to each of whom he made earnest personal appeals, which resulted in their voting against the bill, though professing to be in favor of Amnesty.

THE CENTENNIAL.

The proposition to appropriate a million and a half dollars of the public money to help out the centennial celebration at Philadelphia, has produced a great deal of discussion in Congress.

Those who opposed it did so on the alleged ground of unconstitutionality, and because they considered it as opening a door through which other leakages from the Treasury would flow.

St. Bernard.—We learn that Mr. H. Sprague, of Morganton, is erecting a large Hotel at Malone's Store (which will be the terminus of the Western N. C. Railroad) on the bank of the Blue Ridge.

The St. Bernard is a happy idea—a success assured, for we doubt whether the green earth has another spot excelling this in the simple but wonderful enchantments of nature.

THE SOLDIER'S MONUMENT.—Mr. Alexander McDonald, of Mass., who has been engaged for several weeks past erecting the Soldiers Monument in the Federal Cemetery at this place, has nearly completed the work.

The main shaft is one solid piece of stone, four feet square at the base and 31 feet high. It required powerful mechanical contrivances to swing this stone clear of the 8 or 10 feet base upon which it was to stand.

The completed monument is about 40 feet high, plainly visible from the cars passing and re-passing on the N. C. R. R. It is very solid, and looks as if it might last forever. It reflects great credit on Mr. McDonald as a skilled workman in an art in which few excel.

Some of the northern brethren are discovering that the people of the South, taking a right view of their own interests, are trying to make their land support them, and successfully directing their labor into new channels.

THE BREMERHAVEH CRIME ANTI-PATED.—The Mecklenburgische Anzeiger has received the following communication: In the spring of 1645 the Swedish fleet lay in the harbor of Wismar.

THE JENNINGS' SUIT.

The Richmond Whig says: "The celebrated Jennings case which has been in the Courts of England for fifteen years, it is said, will soon be decided. Jennings died in this State about a hundred years ago, and left property in England valued then at fifteen million dollars.

NEW YORK, Jan. 22.—The Direct Cable Company offers \$2,500 for the discovery of the vessel that broke by their cable and \$2,500 more for the conviction of the offender.

Col. Wm. Johnston, the Mayor of this city, has gone to Washington to make an effort for re-opening the U. S. Branch Mint at Charlotte.

CONGRESSIONAL.

WASHINGTON, Jan. 24.—House.—Several finance bills were introduced, one funding legal tenders by forty year four per cent. bonds, not over three millions per month.

By Mr. Ward: Protecting life on steamboats. Also cheap river transportation.

By Mr. Mackey: Improvement of the Charleston harbor.

By Mr. Morrison of the Committee on Ways and Means, a resolution to have the Pacific subsidy taken from the Speaker's table and referred to the Judiciary Committee of the House, with instructions to enquire with reference to those persons, members of the House, who are charged with complicity in the corrupt use of money.

By Rainey: A resolution asking the Secretary of the Treasury for a complete report from the Commissioners of the Freedmen's Bank.

By Holman: A resolution instructing the Judiciary Committee to enquire if fraudulent means were had to affect legislation on the Texas Pacific Railroad bill of the 3d of March 1871, and whether contracts and combinations were entered into in violation of that act.

Morton: A bill for the relief of Gen. Rousseau. Also a motion for credentials of Eustis of Louisiana, to be referred to the Committee on Privileges and Elections.

Bill removing the disabilities of George G. Hawkins of Florida, passed.

HARNETT FOR COTTON.—Daniel Stewart is the famous cotton raiser of Harnett county. Mr. B. L. Bingham of this city generally sells this cotton for Mr. Stewart.

The Chicago Tribune has, within the last two weeks, become the most bitter and violent bloody-shirt organ in the country. The Tribune is a saintly and lamb-like beside it, and the only inference is that Morton is the Tribune's man, "with all that the name implies."

THE INSANE ASYLUM.

This institution is remarkably healthy and is filled up to the last nook and corner. The number of inmates is two hundred and fifty, nearly an even proportion of males and females, the division being males, 126, and 124 females.

Capt. Waddell, of the Steamship San Francisco, and the Hawaiian Government.

WASHINGTON, Jan. 22.—Much interest has been felt by a number of Southern Congressmen in the case of Capt. Waddell, of the steamship San Francisco, threatened with arrest by the Hawaiian authorities, on a charge of piracy, for acts done under authority of the Confederate government.

A Boiling Lake.

The discovery of a boiling lake in the island of Dominica has excited much scientific interest, and investigations of the phenomenon are to be made by geologists. It appears that a company exploring the steep and forest-covered mountains behind the town of Roseau came upon the boiling lake, about 2,500 feet above the sea level, and two miles in circumference.

Mysterious Fires.

We are now arrived at the season of the year when fires are abundant, and mysterious fires especially so. The mystery of a fire is one of three kinds—the mystery of fraud, the mystery of carelessness, and the mystery of ignorance.

WHAT THE PAPERS SAY.

There may be some landlords and boarding-house keepers and hucksters who fear that a reminder of Jeff. Davis's authorship of the atrocious and horrid Philadelphia next summer to see the show. But who cares for the wishes of those sordid speculators?

Gov. Kemper of Virginia does not believe in pardoning defaulters because they have held high positions and he has been on intimate or friendly terms with them. In his answer to the petition for the release of Wm. D. Coleman, formerly editor of the Richmond Enquirer, and Secretary of the Board of Public Works, who was sentenced to four years in the penitentiary for forgery, the Governor says: "I refuse it in that spirit of even-handed justice which treats all alike, the high and low, the rich and poor, the great and small, and which, tempering the law with mercy, enforces it with impartiality towards all."

More Iron for the W. N. C. Railroad.—Three car-loads more of the iron purchased by our merchants for the purpose securing the immediate completion of the Western Railroad to Malone's Store—thereby obviating the necessity for the heaviest part of the hauling through the mountains that would have had to be done in the further prosecution of that enterprise—went up last night attached to the Carolina Central Express train.

Twenty-three Years of Insanity.—Mrs. Elijah Phelps of Beaver Dams, Schuyler county, for the past twenty-three years has been a raving maniac. In 1852 she lost her mind and became violent. She was closely confined in 1854 and continued very noisy until within the last five or six years, when she became old and feeble.

The Farmers Begin Business.—The North Carolina Agricultural Society made application yesterday, which was approved by the Governor, to the International Exhibition at Philadelphia for the following space in the grand Centennial Exhibition building.

ON and OFF Slick as Grease! WM. A. EAGLE respectfully announces his continuance at his old stand in his old line, on Main street, opposite Ennis's Drug Store.

Important Sale
