TICKETS FOR ROWAN AND DAVIE The voters of Rowan and Davie Counties are notified, and it is desired they will pay particular attention to the fact, that H. H. Helper has had his tickets printed thus, for Davie county :

For Senate-30.h District : II. II. HELPER, Por the House of Representatives : CHARLES PRICE.

For Rowan he has followed the same form only putting in the names of John S. Henderson and James S. McCubbins, in the place of Charles Price.

The voters of these Counties should understand that Mr. Helper has done this on his own motion, and without any consultation with or the approval of Messra. Price, Henderson and McCub-

The Republican ticket for Commission ers in Rowan county, has on it the names of two of our candidates, Mr. D. A. Davis and Mr. D. C. Reid, and we understand that Charles Correll is the only Republican on that ticket. The Democratic should be on their guard and not vote the wrong ticket. The regular Democratic ticket for Commissioners is as follows :

THE NEGROES.

If the colored voters of North Carolina knew as much about their pretended friends of the republican party as they ought to know, they would not vote for one of them. But they have been so blinded by the professed friendship of that dishonest and dangerous party, that they seem almost hopelessly given up to them. Nevertheless, we believe that if the democrats will have a free personal conversation with the black men around them, and take the pains to explain away the difficulties, feal or imaginary, which prevent them from voting with the white people, many of them can be brought to see their error, and be induced to change their posiiou and their votes. Thousands upon thousands of them have thus been influenced in other States - in Arkansas, Mis-Tenuesse, South Carolina, Texas and Louisiana. There is no reason why North juterests of both races are the same. What said Amendments," in your several counburts the white man is sure also to hurt the black man. What benefits the white man is sure also to benefit the black man. It is impossible to pass any law to benefit or damage either white or black without its falling alike on all. All are in the same ship, and all must fare alike. If the ship shall sail prosperously, all are secure words, "Vote on Constitutional Amendand happy. There is peace, quietness ments," and prosperity in all the States named above except South Carolina, and there would be there if the radical thieves who Negroes Still Riotous in Charleston Counhave been pluudering the people were put out of office and the State government given over to the intelligent native citicrument at Washington is trying to prethem, if possible, to vote for the radical petition Gen. Ruger for troops.

party. Thousands of black men in South Carolina have joined the democrats, and will vote with them in the November election, and it is believed will revolutionize that State in defiance of all the radical endeavors to prevent it. If they succeed all trouble there will come to a speedy end, and the people will again devote themselves to the peaceful pursuits of life. The reign of terror and of robbery will close whenever they cast out the radical wolves who have for eight or ten years fattened on the spoils of the innocent people of the State. This has been the result in Arkansas, Mississippi, Alabama and Georgia-everywhere in the South-and will always be the same whenever the work of expulsion is fully carried out These facts alone ought to exert a controlling influence on the mind of the colored voter, and it would, if he understood them in all their force.

But there is another reason and it is a vital one: The colored man must cease to be a mere voting machine in the politics of this county, or they are doomed to to see much trouble. They will not be tolerated as holding the balance of power. Their queitude depen la on dividing their votes between existing parties of the white race. When they band

together in one party against the whites of any party they raise up an enemy against themselves; and just in proportion as this is done, is their happiness endangered. Their quiet rest in this country as a home, can only be preserved by learning to look at and vote on questions which divide the public mind according to their merits. A black man's party is bound to go down and out before a white man's party; and he is a deadly enemy to the black man who tries to array them in that way against the white people. The radicals have done this ever since the war, and they have raised up all the enmity they could between the two races. The have been the cause of all the trouble between races. The negroes in many of the Southern were leading them to ruin, and thousands of them have cut loose from that party. They are now dividing their votes, and identifying themselves with the white people. This is undoubtedly the wisest W. W. Holden has come forward, with- thing they have done since the war. It in the last few days, charging Gov. Vance disarms their enemies and restores conwith having failed to account for public fidence between the races, and hence we

Mr. Helper has been entirely misinformed in regard to my views upon the question. DANGEROUS MEASURES.

The Bayonet Conspiracy of Grant, Cameron, and Chandler-Hayes Responsible. From the Herald.

Gov. Hayes and the party managers ought o know that the use of troops and all this Federal interference in the South are causing a vague feeling of alarm among the thoughtful voters. The war closed eleven years ago, and here is Gen. Grant openly threatening to send the whole army into South Carolina for no other object than to re-elect a partisan of his, contrary to the will of the majority of the peomanagers using the most dangerous and unconstitutional measures, not merely to perpe-States have at last seen that the radicals trate their own power, but to support and remisused the poor negro to his own destruction ing. and their selfish advantage. When aggressive tyrauny sought to enslave our continent, the colonies became solid. With our strong blood, oppression may always be sure of resistance among us. NATICK, Mass, Jan. 1st, 1873. MR. H. R. STEVENS: Dear Sir-We have good reason for regarding your VEGETINE a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age; for his leg, caused by serofulous affection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicisms could give us but the faintest hope of his ever rallying; two of the number declaring that he was beyond the reach of human remedies, that even am-putation could not save him, as he had not vigor enougo to endure the operation. Just then we com-menced giving him VEGE: INE and from that time If has lately resumed studies, thrown away his crutches and cane, and walks about cheerfully and strong.

Though there is still some discharge from the o-
