

Carolina Watchman. LOCAL. OCTOBER 26, 1876. MULES FOR SALE. Three fine young mules and a filly for sale, J. J. STEWART. BUSINESS NOTICE. Those who are indebted to us by note or mortgage must expect to make prompt settlements when their papers fall due. This is the only notice we shall give. MERONEY & BRO. Oct. 16, 1876-51-41. All who are indebted to us by Mortgages, Notes or accounts are requested to settle promptly when the time expires. No other notice will be given. JONES, GASKILL & CO. Oct. 16, 1876-1-1 m. A Rush.—In passing by the store of Manney & Ross, at almost any hour of the day, you will find their store crowded with customers buying their shoes, boots, clothing, &c., which they are offering at unusually low prices. From the amount of customers seen daily in front of their warehouse, we think they are buying a great deal of the people, and we learn are paying fair prices. H. H. HELPER will address the citizens of Rowan county on Colonization and Reform at the following places: At Franklin Academy, Wednesday night November 1st. At Rowan Mills, Nov. 21. At Peggy McLaughlin's old place on the Lincoln road, Nov. 3. At Salisbury, Nov. 4. Fine Gold and Silver Watches, Rings, Chains, Gold and Diamond Engagement Rings, elegant Jewelry, &c., at Bell's, the popular Jeweler of Salisbury. Is your paper cross (X) marked? It means that your subscription year has expired and that a remittance is due. Please have the check, and oblige. The Telegraph line up the Western has been finished as far as Statesville. We notice some pretty additions to Floral Hall from our sister town, Lexington. Mendel & Co., of Charlotte have on exhibition several cases of fine cigars, their own manufacture. It is reported that the stolen powder has been run into Davidson Co. No further developments yet as to who committed the robbery. The John Berry case has been decided in the opinion of Berry of felony and burglary with a sentence to die at the expiration of the term. Some seven or eight actually stood on the middle of the fence at the fair grounds and watched the race. We would not have believed it believing is believing. A lady's hat made of the serapings of a ham is as pretty as it is novel and reflects credit on the fair hand that shaped it. One of our country ladies made it. Mr. Willis Wilkinson of the firm of Trotter and Wilkinson of Charlotte, has on exhibition 1 extension top Phaeton, 1 jump out buggy and 1 open buggy—all very pretty. Mr. Kelly of Raleigh has on exhibition a Burglar Window Lock, which is a good thing, also a patent umbrella holder, which can be used in a buggy, wagon or on a saddle horn. Wonderful invention, that. Madam Schloss of the National Hotel has fitted up a dining room on the fair grounds, where you can get a fine dinner for a small sum. Cake and wine, especially the latter, don't go bad after sitting around the grounds all day. The judges at the great Philadelphia Exhibition having under test various spool threads, have awarded the premium to an American manufacturer over all English and other competitors. The Willimantic Co. of Hartford Conn., bears off the prize. Mr. H. C. Summers, of Wilkes Co., passed through the city last Thursday. While in Charlotte a day or so before, he had the pocket cut from his pants on the right side and robbed of silver, amounting to something between \$3 and \$10 dollars. He was asleep in his wagon at the time. We sat by the river side, she and I. I sighed and she sighed, then she said she was getting enough to eat at home and did not care to change her boarding house. Sad and lone I now wander through this weary life. The chap that gave utterance to the above sentence is a man whose late night searching eagerly for that constellation known as Job's coffin. A Downy Calabria the darlings had a Military Sunday School Celebration. After the preliminaries had been gone through, and just before dinner was announced the boys were marched into line and commanded by several officers stationed along the line about ten feet apart, were drilled in all the movements known to said officers. Two massive drums furnished the music for this company of pilgrims—something new in the way of Sunday Schools. Giant cement. There is a young man in the fair grounds who is selling this wonderful cement. He has various tests to show its strength—carries a big bowl out of which he occasionally knocks a piece and then mends it just for the fun of the thing. He requests that all broken ware in and around the city be brought to him to be mended. If the people would just take him up, they could keep him busy for a little while.

We are to have some fine racing during the week. We notice the arrival of Mr. T. Paxton of Buffalo Springs, Va., with his two fine trotters; "Agnes Lee" and "Billy Gold." Chambers of Charlotte, with "Dusty" and "Jennie," Trotters. Chas. Walker, Charlotte, with "Liza Heart," "Jock Roulach" and "Tulula," Running stock. Messrs. Horace & Sullivan of Charleston, S. C., with "Momon" and "Ella," racers. Mr. M. L. Arcey, of this city, with "Lady Helen," running. Others, we learn, will be here to-day. There are several Trotters and racers from adjoining counties to be entered to-day. A terrible fire occurred in Lexington Tuesday morning before day. The fire originated in the office of K. M. Earnhart's store—the clerk being absent—sitting up with a corpse. It was undoubtedly the work of an incendiary. Mr. E. had put into the safe just a few days before about \$300.00. Mrs. Greenfield's millinery store and C. E. Lowe's store were also destroyed. Goods from all the stores saved except some heavy groceries at Lowe's. The buildings all belonged to C. F. Lowe—loss estimated at \$6,000—no insurance. RACES YESTERDAY. We had two amusing scrub races yesterday—remarkable for fast time and gracefulness on the track—First we had a RUNNING RACE. Sullivan & Horace of Charleston S. C. entered "Ella." M. L. Arcey of Salisbury, entered "Nelly Whitlock." "Ella" won first heat in 55 sec. "Second" "57 1/2 sec." The race was close all round, "Nelly Whitlock" coming in only a few paces behind—next we had a TROTTER RACE. P. H. Bose of Salisbury entered "Joah" Chambers of Charlotte, entered "Jennie." "Joah" won first heat in 1 m. 50 sec. "Second" "1 m. 40 sec." This race was quite amusing. Neither horse had ever been on the track before, and having had very little training they would break, first one ahead and then the other, and so on, till the other came out first. To-day the racing will be better. POWDER HOUSE ROBBED! On last Saturday night the powder house, belonging to G. A. Bingham & Co., near the car shops at this place was robbed of 33 kegs of powder. The door was picked open and the powder moved off in a wagon. The officers are fast on their track. 4 kegs of the missing powder was found Sunday, buried in a hay stack, in the direction of "Sugar Springs," a notorious spot a short distance from the city. Joe Hickman's wagon seems to have conveyed the powder from the house, of course Joe knows nothing of it. Jerry Jones, was suspected of being in some way connected with the robbery and when examined yesterday so mixed things as to render it next to impossible to unravel his different yarns, which only served to strengthen the conviction of his guilt. Further examinations will be made to-day. The cannon used on the 4th of July has been moved from its place. We do not know by whom or for what purpose it was taken away. After a years silence, we make our third annual bow. We are gratified to be able to congratulate the good people in this section on the advent of this, the sixth annual Fair of Western Carolina. Owing to many causes, too distasteful to mention, it has been predicted by some, who, we suppose have frequent attacks of hypochondria, blues, or the like, that our fair for '76 would be a failure. Now, notwithstanding these evil omens, we assert our opinion, and say that the prospects are fine, and to back our judgment, we only ask that you look at the number of entries, in all the departments. Floral Hall, the pride of our ladies, has been tastefully decorated with cedar, evergreens and flowers. In the center plays a pretty fountain, hedged in by mosses, ferns and rocks. Blooming flowers diffuse their fragrance throughout the Hall. The walls are decorated with the handi-work of many a fair hand. Wagons and carts are conveying to the grounds numerous articles for all the departments. There will be a good display in live stock, and in fact, considering the hard times, and the prevalence of the Centennial fever, our fair will be a success.—Fair Week Daily. LIST OF MARSHALS FOR THE FAIR. Frank Brown, Chief, Salisbury. ASSISTANTS. Eli Springs, Charlotte. Chas. N. Vance, Charlotte. Jos. Vaughn, Germantown. Wade H. Harris, Concord. John H. Reid, Mt. Mourne Idell Co. Chas. Griffith, Clemmonsville. Samuel Blackburn, Germantown. Thomas Carter, Madison. E. H. Eilers, Wilmington. William Frew, Rock Hill. T. S. Leslie, Elkin, Yadkin Co. Harry Kelley, Mobile Alabama. John W. Brown, Lexington, N. C. C. F. Lanier, Hickory. John A. Dickson, Morganton. Daniel Miller, Salisbury. John G. Heilig, Salisbury. W. R. Myers, Jr., Charlotte. J. Wallace, Statesville. Fred. Walker, Chester, S. C. J. T. Redwin, Albemarle. W. P. Hairston, Winston. Jas. D. Glenn, Leaksville. Dr. J. McLeod, Mooreville. Dr. Thos. L. Kelley, Mocksville. Dr. H. T. Trautman, Salisbury. Masters Earnest Shober and Sidney Heilig, Immediate Aids to Chief Marshal. It is reported that Beecher is head over ears in debt, and that the brethren are consulting whether they must not give him a long leave of absence from preaching this fall and winter, to enable him to strengthen his exchequer by lecturing.

Do you take The Sunny South? If not, send for it immediately. It is the universal favorite, and all Southerners are proud of it. Let a large club be raised without delay in this community. It is the only illustrated literary weekly in the South, and the press and people everywhere unite in pronouncing it the equal in every respect of any similar publication in America. The best literary talent of the whole country, North and South, is writing for it, and it has something each week for all classes of readers. Its stories are superior in literary merit, and equal in thrilling interest to those of any other paper, and its essays upon all subjects are from the best minds of the age. In addition to thrilling new stories, a series of brilliant articles will soon begin on the Campaign and Battles of the Army of Tennessee, by Colonel B. W. F. Frazier, a distinguished military engineer of that army in all its trying times. These papers will explain all the movements of General Johnston, Hood and Sherman. Don't miss any of the numbers. They will read like a fascinating romance. New and exciting stories are beginning every week or two. State and local agents are being appointed everywhere, but let each community form a club at once and send for the paper. Having passed successfully through two of the hardest years we shall ever see, it now challenges the admiration and unlimited support of the people. The price is \$3 a year, but clubs of four and upwards get it for \$2.50. Address Jno. H. Seal, Atlanta, Ga. HOW TO KEEP A PIG. A correspondent of the Agricultural Gazette gives some wholesome advice in regard to the proper manner of keeping pigs. He says that cleanliness and care are never wasted upon him, that the pig is just beginning to find his right position in society. A short time ago it was thought he could live anywhere, and fatten on anything; the old fallacy of considering the pig a dirty animal has almost exploded, but yet he is only a shade or two better off. How often do we see him in a square inclosure, eating and sleeping in the same place, his sty only cleaned out once or twice during the year, and the wretched pig standing belly-deep in filth. One has often heard it remarked that pigs are fond of wallowing in the mire, but this simply arises from irritation of the skin, brought on by living continually in dirt, the animal therefore wallows in the mire to allay the itching. The pig sty should be divided into two parts—the one where the pig feeds, opey, and simply wallows round; the other, where he rests, roods, and boards for him to lie upon; for it is much more conducive to the health of the pig that he should not sleep on litter. When he lies on boards the air circulates all round the body, whereas, when it is supplied to him, he is wading in and from his trough, and in again with him and of necessity lies down in it, and breathes a putrescent, unwholesome atmosphere. The sty should be brushed out every morning, and food supplied three times every day, at stated hours; and no more should be placed in the trough than the pig can eat at one time, and the food in winter should be warm; the pig should also have constant access to water perfectly fresh and clean. Butty meal, mixed to the consistency of dough, is the best food when pigs are put up for fattening; but while growing, the waste from the house and garden, with a few mangels, and now and then a feed of peas, will keep them in good order, and bring them along until put upon butty meal. To Shake, or not to Shake? Aye, that is the question. Is it better to quiver from head to foot in the paroxysms of fever and ague, or to banish the atrocious disease by a course of that standard anti-febrile remedy, Hostetter's Bitters. There cannot be much doubt as to the response of the malarial-stricken to this invigorator. From every locality on this continent whose inhabitants are tormented with the shivering plague comes an increasing demand for the only genuine preventive and eradicator of malarial fever by science. The denizens of fever and ague districts will know how utterly inadequate to do more than give a brief respite to the sufferer, remedies of the faculty. Quinine, arsenic, bisulphite—what are these but poisonous palliatives, which cease after a time to produce any beneficial effect whatever, and if persisted in wreak irreparable mischief upon the system? Everywhere they are being abandoned by intelligent persons, and that genuine specific, Hostetter's Bitters, substituted in their place. Many Years of Careful Research has produced it. Wood's Improved Hair Restorative is unlike any other, and has no equal. The Improved has new vegetable tonic properties; restores grey hair to a glossy, natural color; restores faded, dry, harsh and falling hair; restores, dresses, gives vigor to the hair; restores hair to prematurely bald heads; removes dandruff, humors, scaly eruptions; removes irritation, itching and scaly dryness. No article produces such wonderful effects. Try it, call for Wood's Improved Hair Restorative, and don't be put off with any other article. Sold by all druggists in this place and dealers, everywhere. Trade supplied at manufacturers' prices by C. A. Cook & Co., Chicago, Sole Agents for the United States and Canada, and by J. F. Henry, Curran & Co., New York. Fine Sensibilities are like Woodbines. Delightful luxuries of beauty to twine around a solid upright stem of understanding, but very brittle if mostened by strength, they are left to creep along the ground. So it is with the body, when sustained by strength and health then all is beauty and happiness. But when enfeebled by disease, there is no silvery lining to the clouds. Gloom precludes all nature and hope dwindle into despair. Invest in Wood's Improved Hair Restorative, and know that it is within your power. Thousands have been as bad off as you are. Strength to their enfeebled limbs, and joy to their desponding hearts has been imparted by the judicious use of Dr. TUTT'S VEGETABLE LIVER PILLS the boon to suffering humanity. QUESTIONS FOR EVERY ONE TO ANSWER. Are you troubled with Indigestion, Constipation of the Bowels, Dyspepsia, or any disease of the Liver? Have you suffered for years and found no relief from the use of medicines? Do you have a faint appetite, and are you troubled with feelings of languor? If you have these feelings, we know you have not tried the new discovery, MERRILL'S HEPATINE, at Theo. F. Klutz's Drug Store. It is performing wonderful cures in this and all other communities where the people use it. It is pronounced by all the best Liver Medicines in the world. Two doses will relieve the worst case of Dyspepsia or Constipation of the Bowels. Each bottle contains fifty doses and a teaspoonful of this medicine in a one-glassful of water three times a day for one day, produces a most wonderful change. Where the system is run down with loss of energy and appetite, or Dyspepsia, with all its train of evils, is effecting its deadly work, this remedy, MERRILL'S HEPATINE, never fails to bring about a speedy and permanent cure. Those who doubt the merit and virtues of this medicine and live from day to day without trying the HEPATINE, have our sympathy, but can not be cured unless they take the Medicine.

James Lick, the California millionaire, died on Sunday morning in San Francisco, from exhaustion and old age. He was born at Friedricksburg, Lebanon county, Penn., August 25, 1782, and went, when young man, to Boonesville, where he accumulated a small fortune. He went to San Francisco in 1847, and invested his money in land, which rose immensely in value on discovery of gold. Two years since he assigned \$2,000,000 from his estate to trustees for various public and philanthropic purposes. In 1875 a revised deed was made, and the trustees say the business is in such a shape that no complications can arise in carrying out Mr. Lick's charitable designs. The total value of the trust is estimated at about \$5,000,000. HOW TO KEEP A PIG. A correspondent of the Agricultural Gazette gives some wholesome advice in regard to the proper manner of keeping pigs. He says that cleanliness and care are never wasted upon him, that the pig is just beginning to find his right position in society. A short time ago it was thought he could live anywhere, and fatten on anything; the old fallacy of considering the pig a dirty animal has almost exploded, but yet he is only a shade or two better off. How often do we see him in a square inclosure, eating and sleeping in the same place, his sty only cleaned out once or twice during the year, and the wretched pig standing belly-deep in filth. One has often heard it remarked that pigs are fond of wallowing in the mire, but this simply arises from irritation of the skin, brought on by living continually in dirt, the animal therefore wallows in the mire to allay the itching. The pig sty should be divided into two parts—the one where the pig feeds, opey, and simply wallows round; the other, where he rests, roods, and boards for him to lie upon; for it is much more conducive to the health of the pig that he should not sleep on litter. When he lies on boards the air circulates all round the body, whereas, when it is supplied to him, he is wading in and from his trough, and in again with him and of necessity lies down in it, and breathes a putrescent, unwholesome atmosphere. The sty should be brushed out every morning, and food supplied three times every day, at stated hours; and no more should be placed in the trough than the pig can eat at one time, and the food in winter should be warm; the pig should also have constant access to water perfectly fresh and clean. Butty meal, mixed to the consistency of dough, is the best food when pigs are put up for fattening; but while growing, the waste from the house and garden, with a few mangels, and now and then a feed of peas, will keep them in good order, and bring them along until put upon butty meal. To Shake, or not to Shake? Aye, that is the question. August Flower. The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Painful palpitation of the Heart, Heartburn, Water-brash, gnawing and burning pains at the pit of the stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c. Go to your Druggist Theo. F. Klutz, Salisbury, and get a 75 cent Bottle of AUGUST FLOWER or a Sample Bottle for 10 cents. Try it!—Two doses will relieve you. MARRIED. In this county Oct. 19th, at the residence of the bride's father, by A. W. Klutz, Esq., Mr. James P. Ludwick and Miss Laura G. daughter of Mr G. M. Fisher. SALISBURY MARKET. [Corrected by J. M. HIGHEST HONORS AT THE UNITED STATES CENTENNIAL World's Exposition, 1876 MASON & HAMLIN CABINET ORGANS Unanimously assigned the "FIRST RANK" IN THE SEVERAL REQUISITES" Of such Instruments! The MASON & HAMLIN ORGAN CO. have the honor to announce that the organs of their manufacture have been unanimously assigned the FIRST RANK in the SEVERAL REQUISITES of instruments of the class" by the Judges at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTRUMENTS OF THIS GENERAL CLASS AWARDED THIS RANK. This is after the severest competition by the best makers, before one of the most competent juries ever assembled. They have also received the MEDAL, but, as is well known, medals of equal merit have been awarded all articles deemed worthy of recognition; so that it will be easy for many makers to advertise that they have received "first medals." The differences in competing articles, and their comparative excellence, are recognized in the Reports of the Judges, from which the following is an extract: "THE MASON & HAMLIN ORGAN CO.'s exhibit of Reed Organs and Harmoniums shows instruments of the FIRST RANK IN THE SEVERAL REQUISITES OF INSTRUMENTS OF THE CLASS; viz.: Smoothness and equal distribution of tone, scope of expression, resonance and singing quality, freedom and quickness in action, and bellows with thoroughness of workmanship, combined with simplicity of action." (Signed by all the Judges.) The Mason and Hamlin Organs are thus declared to rank first, not in one or two respects only, but in the SEVERAL REQUISITES of such instruments, and they are the ONLY ones assigned this rank. This triumph was not unexpected, for the Mason & Hamlin Cabinet Organs have uniformly been awarded the highest honors in competitions in America, there having been scarcely an exception in hundreds of competitions. They were awarded highest honors and FIRST MEDALS Paris 1867, Vienna '73 Santiago '75, PHILADELPHIA, 1876, and have thus been awarded highest honors at Every World's Exposition at which they have been exhibited; being the ONLY AMERICAN ORGANS which have ever obtained ANY AWARD at any competition with best European makers, or in any European World's Exposition. NEW STYLES, with improvements, exhibited at the CENTENNIAL; elegant new cases in great variety. Prices very lowest consistent with best material and workmanship. Organs sold for cash or instalments, or rented until rent paid. Every organ warranted to give entire satisfaction to every reasonable purchaser. THE MONEY RETURNED. ILLUSTRATED CATALOGUES SENT FREE. MASON & HAMLIN ORGAN CO.—154 Tremont Street, Boston; 210 Union Square, New York; 29 and 31 Adams Street, Chicago; 27 Great Marlborough Street, London; 27 Rucker Strasse, Vienna; 114 Colindale Avenue, Heliopolis. Sept. 21, 1876-17
