Persons whose papers are marked with a X mark in pencil, will understand from it that they are due us for the paper, and will please remit.

It snowed. We've had falling weather.

The funeral of the little son of Mr. A. Parker took place at the Presbyterian church last Sunday.

The fog was so dense on Wednesday morning that you could not see a house 50 yards from you.

The ball at the National Hotel Tuesday night was a success, though it only lasted till 3 o'clock A. M.

Mr. W. Rumble and James Harsh, students of Davidson College, are spending the holidays at home—Charlie Crawford, student at Trinity, is also in the city.

By actual count there was just 17,439 rabbits and one squirrel killed in Rowan on Xmas day. There is no guess work about this matter—its perfectly transcendent.

The inclemency of the weather caused the New York Olympic troupe to give two free shows while here—the promised to pay the printers bill in Raleigh.

The jingle of the merry sleigh-bells is kept fresh in our ear. From early dawn to 10 p. m. the sleigh with laughing bells glide merrily on.

Some one stole a rabbit from R. W. Price's stand the other day. He wishes to inform the chap that next time he will have his eyes open and be on the lookout for him.

See J. A. Clodfelter & Co's ad. He has a well selected stock of everything to be found in a first-class furniture store. A great variety of brackets, wall pockets and the like.

Death.—We learn from the Lenoir Topic that Barbara Bernhardt, wife of M. A. Bernhardt, of that place, died in Philadelphia, Pa. some days ago, of dropsy. Her remains were carried to Lenoir for burial.

The Wilmington Star says the County Commissioners had a meeting and unanimously elected Brown, County Surveyor, after which they looked across 'ah for that board—but next time they meet it will be a bad set—a returning board.

Now is the time to pick yourself up; mention a moderate descriptive adjective about your own shoes; look around to see how many say it, walk on and think that a hard tug, George Washington had about a hundred years ago, when he made that tramp to Canada in just such a snow as this.

At the earnest solicitation of several friends, we make the following statement—it is not necessary to state to what class it is applicable. At any of the hardware stores can be found shot-guns, punches and racks. Those friends of ours are the unfortunate owners of one or more of the above named articles, which they are seldom able to find in their places when wanted.

Prof. H. T. J. Ludwick has decided to remain in this city and continue his school. He intended going to South Carolina next year. His school will open on the 31st of January 1877. We hope his school will be larger next year than it was this, and we bespeak for him a liberal patronage. He has given entire satisfaction to all since he has been here.

A young man in the city, who is by no means stranger to these parts, is overly fond of "women." He went out on the street the other day in search of his much esteemed delicacy when he ran against a countryman who had an animal which our friend thought was what he wanted and straightway he purchased it. When he got home he was informed that he had bought a coon and one too that was very gray and sugar in his'n.

SCHOOL NOTICE.

A subscription school will be opened in the Town Academy on Tuesday the 2d of Jan., 1877. A. W. OWEN, Principal

Adjourned Meeting.—The Teacher's Meeting advertised for 27th inst, adjourned to Friday night and Saturday, 5th and 6th of January. Addresses expected.

One of our young bachelor-friends, of fine moral character, was accidentally caught slipping his dainty foot in a fine calf-skin boot without any stockings. Being interrogated he tried to explain by saying that a "big fat rat" had carried off his stockings and deposited them in parts unknown, and that as it was not the day for his washer-woman, he had to shuffle around as best he could under such trying circumstances. At last, after a deal of uneasiness about the feet, he gave-up, and bought another pair. If he ever finds those carried off by the rats, he will then own three pair (1)

Christmas tree last Monday night in the Presbyterian session house was a success, notwithstanding the deep snow. A few ladies and gentlemen went to work Monday morning and arranged a small tree in the session house instead of the church. It was really beautiful and far exceeded the expectation of those who saw it. A great portion of the presents and ornaments did not arrive—though they were ordered from New York in ample time.

The Christmas tree in the Lutheran church was also a success, considering the inclemency of the weather.

RABBIT HUNTING.—We learn from the Raleigh papers that the "boys" have been running rabbits in that city. We thought this was a sport belonging exclusively to the country towns and rural districts. Joe Caldwell is so recently from the country we are not surprised he should lead in a cotton tail chase through Fayetteville street. Go it while you are young.

THE BIG CENTENNIAL SNOW.—We don't wish to disgust any of our friends, male or female, with the big snow storm by annexing Centennial to it. It is certainly highly respectable either with or without that prefix. For the sake of compromise, and as a matter of record, we have to say it commenced between 12 and 1 o'clock, A. M. Sunday morning, and continued all day Sunday and part of Sunday night. It was as light as eider down, and by the measurement of various persons, ranged between 10 inches and one foot. The trains are having hard work to make time; indeed they are falling to do it. The cuts must be filled very deep in some places, and it will require time and labor to plow them out.

Patriotism, pretty girls and an earnest worker at a fire are things to be admired. We have in the first letter of his name is Lewis. He owns one of these Babcock fire extinguishers and is always on the alert when there is any fire about. One morning last week before he had gotten up, he spied through his window what he took to be a fire. Out of bed he sprang, grabbed his extinguisher and away he flew at a break neck speed, never once thinking of his appearance. You would have taken him for a mason and an odd fellow too, for he had an apron before and behind! arriving at the fire he discovered that his neighbor was only killing hogs and did not want the fire put out. He looked a little disappointed as he walked home, his teeth clattering, the gravel hurrying his tender feet and the winds flapping his aprons. We guess the next time he wants to extinguish himself he won't take the fire extinguisher.

SUPERINTENDENT OF INSANE.—A citizen of Granville, the writing in the News, of Dec. 24th, speaks in high terms of the qualifications of Dr. Grisson for the place he fills in the Insane Asylum. We believe these are generally admitted, though it is said the Doct. is a high liver, and that some of the expenditures charged to the Asylum are very extravagant and of doubtful utility. We have heard of brandy at \$10 a bottle which were not for medicinal purposes, for instance. If the people had to pay such a price for such an article, it ought to be shown that it was really necessary. We are in favor of retaining Dr. Grisson unless there is good reason for a change. But in the latter case his friends should not desire his continuance.

DIED.—In this town, Tuesday evening last, Mr. Hugh Culverhouse, aged about 70 years.

The deceased was one of the oldest inhabitants of the town. He was however only a relief of his former self, having been wracked by disease both mentally and physically, many years ago. And yet he was not totally incapacitated for the performance of little offices. He was fond of going to the Post office for his friends, of carrying messages, and of social company. Was fond of sporting with the young, all of whom ever greeted him as "uncle Hugh." He was kindly taken care of by his children, and died at last in their midst. He was an honest, harmless man, with intelligence and courage enough to make a choice and vote his sentiments at every election in a very independent manner. Peace to "uncle Hugh."

THE FREE SCHOOL.—We attended an examination of some of the pupils of Mr. A. W. Owen's free school last week—an examination appointed and held without the chance of making special preparation for a good showing, and we are pleased to say the committee of visitors decided that the school is doing much good. The pupils generally acquitted themselves well, and to the credit of their teacher.

The public are aware of hindrances to the best progress in all free schools, not the least of which is irregularity on the part of pupils in their attendance. People do not generally value anything very high for which they pay nothing, and it is so in the matter of sending children to free schools. Consequently irregularity is the great evil in such schools, so that it is almost impossible to keep classes together long enough to attain the best results. All things considered, Mr. Owen's school was decidedly good in its results, and we regret it has been suspended for lack of funds to continue it.

HANGED.—Wm. Meisemer was executed in Statesville jail, Friday last, at 11 o'clock, p. m. It is unnecessary to recount the crime for which he died, as it is doubtless well known to our readers. He made a full confession of it three hours before his death. Said he did not go to Mrs. Heilig's with the intention of killing her; but having been provoked to strike her one blow with a stick, she threatened to report his conduct to her two sons, and this made him throw her in the well while she was drawing water, or working at the well-wheel and chain. He thinks she went down head foremost. He met his fate without fear; but whether this was the result of a mind at peace with God, or a stolid indifference is not certainly known. He was a bad man from his youth up—ungovernable as a child, we learn; and made gambling the business of his later years. He was only about 25 years old.

Do you take The Sunny South?

If not, send for it immediately. It is the universal favorite, and all Southerners are proud of it. Let a large club be raised without delay in this community. It is the only illustrated literary weekly in the South, and the press and people everywhere unite in pronouncing it the equal in every respect of any similar publication in America. The best literary talent of the whole country, North and South, is writing for it, and it has something each week for all classes of readers. Its stories are superior in literary merit, and equal in thrilling interest to those of any other paper, and its essays upon all subjects are from the best minds of the age.

In addition to thrilling new stories, a series of brilliant articles will soon begin on the Campaign and Battles of the Army of Tennessee, by Colonel B. W. F. Hunter, a distinguished military engineer of that army in all its trying times. These papers will explain all the movements of Generals Johnston, Hood and Sherman. Don't miss any of the numbers. They will read like a fascinating romance. New and exciting stories are beginning every week or two. State and local agents are being appointed everywhere, but let each community form a club once and send for the paper. Having passed successfully through the hands of every man, woman and child, it now challenges the admiration and unlimited support of the people. The price is \$1 a year, but clubs of four and upwards get it for \$2.50. Address Jno. H. Seals, Atlanta, Ga.

Valuable Medical Treatise.

The edition for 1877 of the sterling Medical Annual, known as Hostetter's Almanac, is now ready, and may be obtained, free of cost, of druggists and general country dealers in all parts of the United States and British America, and indeed in every civilized portion of the Western Hemisphere. It combines, with the soundest practical advice for the preservation and restoration of health, a large amount of interesting and amusing light reading, and the calendar, astronomical calculations, chronological items, &c., are prepared with great care, and will be found entirely accurate. The issue of Hostetter's Almanac for 1877 will probably be the largest edition of a medical work ever published in any country. The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp will forward a copy by mail to any person who cannot procure one in his neighborhood.

Read and Learn for Yourself.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with BOSCHER'S GERMAN SYRUP, although it has a few years introduced into this country its sale now reaches in every town and village in the U. S. Its wonderful success in curing Consumption, severe Coughs, Asthma, and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, free of charge, by Druggists. So such a test of merit was ever given before to any other preparation. Could you ask more? Go to your Druggist, Theo. F. Klutzz, and get a bottle for 75 cents and try it. Sample bottles 10 cents.

Theo. F. Klutzz is giving away a handsome book entitled "Pearls for the People," containing much valuable information and many interesting articles. It also contains a history of the discovery of the "Hepatic" for diseases of the liver, dyspepsia, constipation and indigestion, &c., and gives positive assurance that when the Hepatic is used it effects a permanent and lasting cure of these diseases, which are so common and alarming extent in our country. Take the Hepatic for all diseases of the liver.

The Oldest and Best Restorer is Found in Using it.

Wood's Improved Hair Restorative is unlike any other, and has no equal. ADVICE GRATIS.

The Hon. Alexander H. Stephens says:—"The Globe Flower Cough Syrup has proven a most valuable remedy for coughs." Gov. James M. Smith, of Georgia, says:—"I shall always use it with perfect confidence, and recommend it to the public as a remedy which will afford that satisfaction experienced by me and mine. It exceeds every other for coughs, colds and obstructive lung affections." Ex-Gov. Brown, of Ga., says:—"He finds the Globe Flower Cough Syrup a most excellent remedy." Such endorsement by our great and good men deserves the attention of the afflicted. Those suffering from cough, colds and lung affections should use the Globe Flower Cough Syrup. It will positively cure consumption. For sale by Theo. F. Klutzz.

DIED.

In Stanley county, recently, NANNIE PARKER, daughter of the late Isaac Parker, aged about 12 years.

Fannie L., wife of D. B. GHEEN, departed this life Dec. the 6th, 1876. Aged 40 years, 6 months and 22 days. Leaving a husband and four children to mourn her loss.

It is with sadness and deep sympathy for the bereaved family that we record the death of little Jimmie Sloan, son of Saml. A. & Sarah J. Sloan, who died Nov. 24th, of membranous croup, aged 7 years 9 mo's. and 10 days. His mission on earth was, indeed, a short one—like a shadow, no sooner come than gone.

Yet, he performed faithfully the little part allotted to him by God. He lived in strict obedience to his parents—Honoring his father and his mother. He was always gentle and kind to his little sisters, brothers and friends.

At school he was never known to utter an unkind word, but was loved by his instructor and play-mates. He had a brilliant mind and had fair to perform a useful part in the world—but God in his infinite wisdom saw best to remove him hence. Just before he died he sang that sweet song, "O, how I love Jesus."

He has left behind him his dear ones to mourn for him; but he has gone to that living Savior to join the Angelic Choir to sing the songs of the Redeemed.

His TEACHER.

Dear is the spot where I'm laid to rest, And sweet the strains which angels sing, Say why should I be in angelic weep, He is not out but gone before.

HIGHEST HONORS

AT THE UNITED STATES CENTENNIAL World's Exposition, 1876

MASON & HAMLIN CABINET ORGANS

Unanimously assigned the "FIRST RANK" IN THE SEVERAL REQUISITES OF such Instruments!

The MASON & HAMLIN ORGAN CO. have the honor to announce that the organs of their manufacture have been unanimously assigned the "FIRST RANK" in the SEVERAL REQUISITES of instruments of the class by the Judges at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTRUMENTS OF THIS GENERAL CLASS AWARDED THIS HONOR. This is after the most complete competition by the best makers, in four out of the most competent juries ever assembled.

They have also received the MEDAL, but, as is well known, medals of equal merit have been awarded all articles deemed worthy of recognition; so that it will be easy for many makers to advertise that they have received "first medals."

The differences in competing articles, and their comparative excellence, are recognized in the Reports of the Judges, from which the following is an extract: "THE MASON & HAMLIN ORGAN CO.'s exhibit of Reed Organs and Harmoniums shows instruments of the FIRST RANK IN THE SEVERAL REQUISITES OF INSTRUMENTS OF THE CLASS; viz.: Smoothness and equal distribution of tone, scope of expression, resonance and singing quality, freedom and quickness in action of keys and bellows, with thoroughness of workmanship, combined with simplicity of action."

(Signed by all the Judges.) The Mason and Hamlin Organs are thus declared to rank first, not in one or two respects only, but in the important qualities of an organ. A Medal and diploma has also been awarded them, but medals of equal value were awarded all articles deemed worthy of recognition, so that many makers can advertise "first medals" or "highest awards."

Comparative rank in excellence, has been determined by the Judges' Reports alone, in which the MASON & HAMLIN ORGANS are Unanimously assigned "The FIRST RANK in the several requisites" of such instruments, and are the only ones assigned this rank in Philadelphia, 1876; having thus been awarded highest honors at Every World's Exposition in which they have competed, and being the only American organs which have ever obtained
