

LOCAL.

NEW SCHOOL.

Mrs. Wm. M. Barker will open a school for the instruction of boys and girls, at her residence on Monday the 5th of March.

TO OUR FARMERS AND PLANTERS.

Don't forget that J. Allen Brown has moved to his new office, front room over Crawford's New Hardware Store, and will still continue to keep the "old reliable," Standard Navassa Guanoes, ranging in prices from \$37 to \$60 currency, or in exchange for cotton, 200 to 450 lbs. baled.

DISSOLUTION OF COPARTNERSHIP.

The firm of E. Frank Graham & Co. is this day dissolved by mutual consent. The business will be continued by R. Frank & J. C. Graham under the same firm name at No. 1 Murphy's Granite Row, where they will be pleased to see all their old customers and friends.

DISSOLUTION NOTICE.

The firm of Crawford & Heilig was dissolved by mutual consent on the 24th inst. The notes and accounts will remain at the old stand for a short time—all persons indebted, are earnestly requested to come forward and settle, as the business of the old firm must be closed at once.

SEED & EATING POTATOES.

Read A. S. Murphy's ad.

Read Wharton's 10th of April in this paper.

The Landmark urges the re-organization of the Fredell Blues, a once gallant corps of citizen soldiery.

Brown and Verble have consolidated in the lively stable business. Both stables were well stocked, the two in one, as they now stand can't be excelled in the State.

Messrs. J. D. McNeely, Capt. T. B. Beal, Theo. F. Klutz, and Prof. H. T. J. Landwick will go to Charlotte on the 8th inst., to institute an Odd Fellow's Encampment.

Mr. Howard's or some one else's influence, secured the position of Guard over the convicts at work on the Western Rail Road, for several men of this place. They have gone.

We notice the colored fire company on parade Saturday evening. Their engine has recently been repaired and painted and throws water better now than it ever did.

We had a slight fall of snow on Monday. The day of Hayes' inauguration. Some people may remember that it snowed on the day of Vance's inauguration. How is this thing? We think it evidently shows that Tilden was the man.

The measles are still raging in this section. She who taunted us with, "my friend in cardinal red" while we were passing through the silent vigils of that febrile disease, now blooms like a mid-summer's rose.

Our young friend, Mr. A. S. Murphy has commenced the practice of his profession. He has an office in the Lawyer's Brick Row, opposite the Court House. Help him, and all other worthy young men struggling for a livelihood.

Mr. A. H. Boyden will attend the meeting of Stockholders of the Western Road, in Hickory next Saturday. It is important that all the stock in this county should be represented, for there is enough to entitle Salisbury to a director. Have your stock represented if possible.

The other day as an old lady passed up the street she saw on the other side what she took to be, "Rat bones and acorns cooked," when she exclaimed, "what in the name of common sense does any body want with that mess? Who would eat it?" It was Lewis Brown's advertisement of Bathones Acorn Cook Stove, she saw.

The robin and blue bird now sing their sweetest lays. No organ grinder infests the land. The tramp, lonely and forlorn, passes our city with saddened countenance. We have only the hog and cow to fear, and they not much; for some like the mellow music of the former, while ladies display their athletic powers in dodging off the pavement to allow one of the latter to pass.

LIBRARY ASSOCIATION.

We are requested to state that a meeting of the subscribers to the proposed Library Association, and all others interested in the project, will be held in McNeely's Hall on Monday night next, 12th inst. Brief addresses will be made by some of our professional men, and the benefits and workings of the Association fully canvassed, after which it is hoped to effect an organization. Ladies especially invited.

WASHINGTON!

We welcome in our midst Mr. W. M. Nelson, of Pitt county. Mr. Nelson has purchased the City Flouring and Saw Mills of Mr. A. W. Klutz, and is going right on with the work. He is an energetic, live man, with considerable experience in his business, and will not fail to please all who entrust their milling or sawing to his care. Read his advertisement in this paper.

Harris of the Concord Sun.

His week an elegant wood engraving of "the old man who died for Joe," together with a few original lines which are affectionately dedicated to the old man. These lines are neither Shakespearian, Miltonic or Tennysonian, but are purely Harrisonic. The likeness of the old man is true to life—his long, well-cut nose, small squint eyes, drooping mouth, prominent chin, hairless cranium, with benevolence and destructiveness well developed; rear of head unusually large, droop shoulders and humped back, are all natural—in fact, if the old man could see the picture, he would behold himself as in a glass. Success to Harris—another poet-artist.

On last Friday night, a negro entered the corn crib of Capt. J. A. Ramsay, and proceeded to fill the two bags which he had brought along for convenience in carrying, with corn. The rolling corn made a little too much fuss and attracted the attention of a passerby who kindly informed the family. They immediately sent an ambassador down to interview his thiefship, he hearing the near approach of a belligerent step concluded to do as John Gilpin did; except he tried it on foot, leaving the bags. On examination, the bags told the sad tale, there was the name. The negro laid low until Sunday when he came up and confessed to Capt. Ramsay his crime and begged for mercy. We won't tell on the negro this time, but warn him that if we ever have to write another such a piece of news about him, that the same paper will contain an obituary.

The Hon. PHILLO WHITE and LADY.

passed here on the evening of the 21st inst., from their home in Whitestown, N. Y. They were in good health and spirits and seemed very little fatigued by the journey, which, for persons of their advanced age, may be considered a long one. They are stopping with Mrs. McKenzie, 7 miles south, Mrs. White's only surviving sister. They will spend two or three months in this section of country, which to them possesses peculiar interest. Rowan is Mrs. White's native county, and here is garnered the slumbering dust of many a loved one of her earlier life.

Mr. White settled here fifty-seven years ago and adventured his life's fortune as an editor and publisher. He possessed the personal attributes of success at any business and good fortune attended him along the journey of life.

Mr. White was intimately acquainted with the leading men of Western N. C. during his editorial career at this place, extending through a period of about two years, and shared with them in all the public affairs of that time. He has out-lived nearly all his co-temporaries of that day, but has not ceased an active and zealous concern in the great subjects which divide the men of the present. He bore his part in the late canvass for President in his native State of New York, and rejoiced with those who elected Mr. Tilden. His patriotism takes in the whole country, north and south. His sympathy for the latter is governed by an accurate personal acquaintance with the habits and interests of the people as of the section in which he resides; and his well balanced mind rejects political absurdities and tolerates no injustice.

We have spoken thus freely of this venerable gentleman because we know his acquaintances here entertain a very high regard for him and would scarcely expect less at our hands. He will meet with cordial greeting, especially from those who had the pleasure of his acquaintance in the latter days of the Republic.

FIRE AND LOSS OF LIFE.

PITTSBURG, Pa., March 5.—The Bateman house at Kansas City, Butler co., Pa., was destroyed by fire this evening. The fire originated in the office and cut off all escape by the stairway from the rooms above, and Mr. Bateman rushed through the flames with his son. He was badly and his son fatally burned. In searching the debris for the bodies of Mrs. Bateman, her daughter Minnie, Lou, Belle and Minnie, were found burned beyond recognition. H. Brown, of the firm of Sprague & Co., of New York, was found almost consumed. Thirty girls were in the hotel at the time, six of whom were injured by jumping from windows.

The Washington correspondent of the Baltimore Sun says it can be stated as very nearly positively determined upon that Judge Settle will go into Hayes' Cabinet. It is equally certain, this writer says, that ex-Senator John Pool will not receive a Cabinet appointment, although he would take it if he could get it.

Breathing Miasma Without Injury.

There is no exaggeration in the statement that thousands of persons residing from one year end to another in fever and ague regions on this Continent and elsewhere, breathe air more or less impregnated with miasma, without incurring the disease, simply and only because they are in the habit of using Hostetter's Stomach Bitters as a preventive. It has frequently happened, and the fact has been amply attested by the parties themselves that persons surrounded on all sides by neighbors suffering the tortures of this shivering and burning plague, have enjoyed absolute immunity from it, thanks to the protection afforded by the Bitters. Nor is that standard anti-febrile cordial less efficacious in remedying than preventing chills and fevers, biliousness, rheumatism and disorders of a kindred type. Taken between the proximals, it speedily mitigates their violence, and eventually prevents their recurrence. These facts, convincingly established by evidence, appeal with peculiar force to travelers and sojourners in malarious districts.

WASHINGTON!

Mr. Wheeler Takes the Oath as Vice President.

WASHINGTON, March 5.

The day is raw, with snow flakes. Joseph E. Johnston and Ex-Senator Key, of Tennessee, are most prominently mentioned for the Cabinet from the South. Carl Schurz will have a place. The new government will be emotional.

WASHINGTON, March 5.—The Senate was called to order by Secretary George Hane as Hayes entered.

The proclamation convening the Senate in extra session was read.

Ferry was elected President pro tem. The oath of office was administered to Mr. Ferry, and upon taking the chair he said:

"Senators accept my sincere acknowledgments for this renewal of your courtesy and confidence. I will at once enter upon the duties of the chair."

He then directed the Secretary to call the roll of Senators newly elected, and requested them to present themselves in four to be sworn in.

When the name of Mr. Kellogg, of Louisiana, was called, he was escorted to the desk by Mr. Ingalls, of Kansas, but Mr. Bogey, of Missouri, objected to him being sworn in.

Mr. Anthony submitted a resolution that the credentials of the Senators elect in all disputed or contested cases, lie upon the table till to-morrow. Agreed to after some discussion.

Mr. Spencer, of Alabama, objected to the oath being administered to John T. Morgan, Senator elect from Alabama, and L. Q. C. Lamar, Senator elect from Mississippi, and their credentials were laid on the table until to-morrow.

The following Senators were sworn in: Anthony, Beck, Blaine, Hoar, Davis of Illinois, Davis of West Virginia, Kirkwood, McPherson, Plumb, Rollins, Sausbury, Saunders, Tiller, Windom, Coke, Garland, Harris, Ben Hill, Johnston and Ransom.

The President pro tem, announced that there were two sets of credentials from the State of South Carolina, and there was but one vacancy.

Mr. Gordon, of Georgia, objected to the oath being administered to any one claiming a seat from that State, and the credentials of Corbin and Butler were laid on the table until to-morrow.

Mr. Ferry asked if the Vice-President of the United States elect, was ready to take the oath of office. After a few minutes Mr. Wheeler entered the Senate Chamber, leaning on the arm of Mr. McCreery, of the committee of arrangements, and was escorted to the desk of the Presiding officer, when Mr. Ferry said: I have great pleasure in presenting the Vice-President of the United States.

Mr. Wheeler made a brief address.

At the conclusion of Mr. Wheeler's remarks, Mr. Ferry retired from the chair saying: With great pleasure, Mr. Vice-President, I surrender the chair to you.

The Vice-President then announced that the Senate would proceed to the portion of the Capitol to witness the inauguration of the President, and the procession was formed by Deputy Sergeant-at-Arms Christie, according to the programme already published, and left the Chamber at 1:25 p. m.

The Senate returned, and the Vice-President resumed the chair.

Mr. Hamlin, of Maine, submitted a resolution that a committee of three Senators be appointed by the Vice-President, to wait upon the President of the United States, and inform him that a quorum of the Senate had assembled, and that the Senate will be pleased to receive any communication he may be pleased to make; agreed to, and Messrs Hamlin, Morton and Ransom were appointed as such committee.

Mr. Morton moved that when the Senate adjourn to-day it be to meet on Wednesday at 12 o'clock.

Mr. Hamlin opposed the motion, and said when the committee should wait upon the President, he would no doubt reply that he was ready to communicate with the Senate immediately; therefore the Senate should be in session to receive such communications. Mr. Morton withdrew his motion, and the Senate at 1:30 adjourned until 12 o'clock to-morrow.

Nothing unusual characterized the inaugural ceremonies. The procession was small but handsome. Well handled and orderly. The programme was followed in all its details and nothing omitted. The display to-night is wonderful. Gov. Sheppard has disregarded expense and taste in decorating the Avenue. No attention has been paid to the Cabinet or other serious matters.

Col. Bristow, of Kentucky, will almost certainly succeed Judge Davis on the Supreme Bench.

Ex-Senator Key, of Tennessee, will be Postmaster General.

Evarts, probably, for Secretary of State. Morrill, of Vermont, Secretary of Navy. The indications are that the old affiliations in the Republican party will be disregarded, and it will be sought to make oil and water mix.

"10th of April."

The undersigned desires to inform the public that he intends to leave Salisbury on the 10th of April. All those wishing good pictures, either Photographs or Ferrotypes are advised to call before that time.

"IT IS SO."

That my prices have been greatly reduced. They range from 25 cents up. Come before it is

TOO LATE.

C. P. WHARTON, Artial.

HEED THE

Words of Advice,

REVERENDLY OFFERED BY THE AUTHOR, DR. T. F. KLUTZ, of Salisbury, N. C. This medicine is the result of twenty years' experience in the treatment of all the diseases of the human system. It is a simple, natural, and powerful remedy, and is the only one that will cure all the diseases of the human system.
