22d. We find that no attention is paid neither to making of butter and cheese signatures hereto. and, that vast portions of the South are in every element eminently adapted to these industries, any of which would return large profits. In a small way some be extensively distributed. thrifty persons have turned their attention to some one or other of these things, and their resultant profit from stock and sheep, are exciting attention to this subject. Cattle are generally of interor kind and recive little feed in winter; rely on grass in summer and are in but few instances housed. The same remarks apply in a general way to horses and mules and though more care is exercised with them, yet no particular attempt is made a consequence horses are cheap in a country where fine horses are admired. Good horses sell for good prices in the thickly populated districts, and are brought from many other things the South is the mar ket for the North.

23d. We find that much, if not all, o this apparent waste and inattention to war closed, the labor system of the South was destroyed; the white people were penniless and came back to devastated tools lost or destroyed. In many, if not ranging most cases, large families were dependent upon the returned soldier who never before had done a day's labor in the field, and had no experience in theory, much less practice, in labor of any kind. They must then not only learn the business of agriculture but make a support. Cotton at that time, ruled high in price its culture to the neglect of grains, fruit, more than all, that they will not turn cattle, &c.; and to raise as large a cotton crop as possible with the least outlay was that he must no longer pay money for bread and meat, when it could be more and a direction toward other important schools, or anything else. It is not nec-

24th. We find that crops may be grown port of this proposition. Every honest as follows: Wheat, oats, &c., sown in man in the country detests the man who in September or October or as late as will not pay his debts and who yet finds that on this ground may be planted corn, together with peas, and potatoes may be for himself and family. Why should not date October, and in some portions tur- Carolina while she neglects to pay her rips may be planted after the late potato crop, thus making two and three crops debts and yet spends large sums in liberper year. The farm year begins in Sep- al enterprises! They do denounce her, tember, then fall crops are sown, and rent and her bonds in the market rate accordcontracts, are made. Seeding of small ingly. This is a reproach, a shame, which Fedruary spring work begins upon the should be speedily wiped out, and the

May each and every will be where they receive the most oue of them prosper and be happy in the encouragement. The committee will first land of their adoption.

Assessments .- It is well known that there is no regular system in this State for equalizing taxes. The Governor notes this in his message, and lays to this cause, more than any other, the deficiency in the revenue for the last two years. Assessments should be made on some general rule approximating equality. The present system leaves it discretionary with the assessors in the several counties and townships which often vary widely without a reason for it.

It is said that Gov. VANCE will resign is present office next week, and Lt. Gov. JARVIS will enter upon the duties of Governor. No one doubts Mr. JARVIS' abilities to administer the affairs of the State in a satifactory manner. He is deserved years they have shown attention to agri- on this Legislature of higher dignity than ly popular with the people of the State cultural chemistry, the treatment of soils any scheme of internal improvement, and will enter upon his new duties sustained and encouraged by unqualified public confidence in his ability and in-

Gov. Vance.-The newspapers in all directions and from New York City to the planted as late as July and harvested in every honest community denounce North of Gov, Vanco to the U. S. Senate. We far South, are rejoicing over the election have never known, in a long experience such general interest in the election of a Senator. It seems likely to verify what we have often said, that Gov. Vance would carry more influence into the U. S. Senate than any other man in the State
