I call the attention of the General As sembly to the importance and necessity of changing the system of assessing property for taxation. The present mode has been unequally

and unjustly practiced in many counties of the State. An extensive correspondence with the authorities of several counties, as well as tax payers, gives evidence of a general want of uniformity in listing property for taxation. The Commissioners of many counties have construed the law according to their own convictions without regard to the uniform rule required by the Constitution Statement 1 exhibits the bonded debt as well as the Statute whose intent it is in detail, giving date of issue and matu- to give effect to the constitutional rity, and authority under which the bonds provisions. As the effect of this, much property has been unlisted and the State deprived of just revenues. A thorough revision of the rules of assessment and war known as 'old' bonds, \$8,372,400.00 listing of property is demanded, so as to Interest due on same, 5,007,580.50 equalize and justly distribute the ratio of taxation among our people.

Very Respectfully, Your Obt. Serv't J. M. WORTH. State Treasurer.

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Bilousness, Jaundice, Chills, Malarial Fevers, Pfles, Sick and Sour Stomach, and general debility follow. Merrell's Hepatine, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all billious diseases and Liver complaint is made certain by taking Hepatine in accordance with directions. Headache is generally cured in twenty minutes, and no disease that anses from the Liver can exist if a fair trial is given.
