At a cancus of the Democratic members of the Honse at Washington, it has been determined to put au amendment on one of the appropriation bills repealing the test eath now required for jarors; and also the law providing for the appointment of supervisors of elections.

The Senate amendment to the House bill abolishing the office of State Geolegist, which allows the Governor to appoint a State geologists, was so amended in the House on Monday as to suspend the operation both of that and the agricultural department for two years, and in that form was likle to pass. But Mr. Atkinson, the mover of the amendment withdrew it, saying that having ascertained that 'the House would sustain a bill for the abolishment of these departments, he goodd in a few days, offer a bill for that purpose,

The farmers of Mecklenburg and elsewhere are complaining at the price of fertilizers. Cotton has gone down, but there is no corresponding decline in fertilizers, and hence the trouble. Now is a good time for farmers to manufacture their own fertilizers. The necessary ingredients and the formulas for making them can be easily obtained. Mr. John Emiss, Druggist, of this place, is prepared to furnish facilities of this kind.

RETRENCHMENT AND REFORM. -We publish in this paper two highly interesting articles on this subject. We call the especial attention of our delegates in the Legislature to the article copied from the Charlotte Democrat, signed "Tax Payer," if they have not seen it before; because the writer is evidently a practical, coolheaded man, and takes the people's view. of the Reform question. The other article referred to is copied from the Raleigh Observer, and is one of a series designed to show what the Democratic party has already done in reducing State expenses. This latter presents some gratifying facts which should strengthen the confidence of the people in the sincerity and honesty of the men whom they have sent to the Legislature from time to time, and assure them of other improvement as occasion and opportunity shall require,

THE INSANE ASYLUM. - Superintendent Grissom, has prepared quite a comprehensivo-report to the Committee on the Asylum, from which it would appear that there is little or no room for retrenchment in that department. He shows that the expenses per capita of the inmates is less, by a small amount, than any similar institution of the same grade in the cotton crop. country. Also, that every expenditure was necessary in order to keep up the curative efficiency of the institution.

and judgment on all the subjects treated convulsive whooping cough. of in his report. So far as the Asylum is concerned it would seem there is no consustained by the Legislature remains to ter.

P. S. NEY.—The Danville (Va.) Weekly News copies from the New York Herald an account of this notable man, and expresses the hope that the Herald, with its push its inquiries in respect to the popuwas the veritable French Marshal, to a satisfactory conclusion. The account from the Herald is only a reiteration of facts and opinions heretofore published in North Carolina newspapers, It contains nothing new. The Herald will now probably send his reporter to France and country. It is an interesting question, and we join in the hope that the Herald may at least get at the bottom facts in the case, and settle this question definitely.

Retrenchment at Raleigh.

RALLIGH, N. C., Ped. 19.- The Senate to day reduced the salaries of State officials as follows; Governor, \$3,000; Secretary of State, \$2,000; Anditor, \$1,750; Treasurer, \$3,000; Attorney-General, and no additional pay for extra courts.

[From the Charlotte Democrat.] RETRENCHMENT AND REFORM Elitar Democrat:—As the Senatorial election is over I hope it will not tread on the coat tail of any one for you to print a few remarks from a plain man or the Democratic platform two years since—"the trenchment and Reform." These tailsmanic words which rounded the periods of our orators, and which yere emblazoned on all our banners did more to arouse our people and to accomplish the belief

piece of wire, which is pronounced cheap and good. PATENTED.

Maj. Joseff A. Englehard, Secretary of State of North Carolina, died at the Yarboro House, in Raleigh, on Friday last. We copy a short eketch of his life from the Wilmington Sun.

The best new thing out is a tea just becoming popularin France, the use of which they were speaking out and will not be down at any one's bidding.

Were emblazened on all our banners did more to around the banners did more to around the party went into power and have had control of the State, what is the result? Those fine promises made to the people nave been as "asnes upon the lips." There has been neither retrenchment nor reform. The Democratic of the same shartes as the Radical of the same shartes as the Radical of the same shartes as the they were seeking the offices from the people. The people pay the same taxes paid under kaffeal rule, and there is a large deficiency in the Treasury. The expenses in nearly all the branches of the State government have been increased instead of decreased as promised. These are stern facts that cannot be longer concealed from the people. The people are speaking out and will not be down at any one's bidding.

What then is the remedy? Some will say stlenge

bidding.

What then is the remedy? Some will say silence, for fear it will burt the purty—jet us not expose our party triends. This will not do. The nakedness of our party office, holders has been concealed as long as it can be. The Democratic party is largely in the majority in the Legislature; levine Democratic party in this Legislature redeem the Democratic promises, so that the people may hot arise in their might and overthrow the party. It will not do to trille in this matter to cut off here and there a dead, limb. The axe must be leveled at the root of the trifle in this matter to cut off here and there a dead, limb. The axe must be leveled at the root of the tree—the big tree as well as the little one. Commence at the head—at the Governor's salary, his attachees, and the incidental expenses of the Executive office, and follow it up through all the departments. Let a searching enquiry be made, into all fees received in any office by officers, clerks, &c., that the people may know "on what meat their servants have fed that they have grown so great" as to forget all their promises made to the dear people. We are met here with the objection that the Constitution provides "that salaries shall not be reduced. stit tion provides "that salaries shall not be reduced during the term of office." This was placed in the

Constitution by the Radicals. Surely Democrats will not shelter themselves behind the Radical device. It has been well said "That this is a government o the people, for the people, and by people." Let the Logislature, speaking for the people, reduce the salaries and then let the people see what office-holder will dare to wrench from the pockets of the people see what office holder will dare to wrench from the pockets of the people. ple an enormous salary by reason of a Radical provision in the Constitution. There is no provision in the Constitution forcing the office-holder to take more salary than the people say is just and right. Our office-holders are all good Democrats, they beheve in the people, they are all patriotic, they must know and feel that their salaries are too high; that they can live on one-half what it cost to live when the salaries were fixed. They must know that when all farm products are so low that it is much harder to pay favor then when their creditors are more distressed than they. Jersey City has a debt of \$16,000,000 and a population of 100,000; Elizabeth has a debt of \$5,000,000 and a population of 28,000. reduced. There is the same reason for this reduc-tion as for the other. Let the Legislative expenses be reduced to what they were before the war. We had no attaches and pages then; why have them now? While the Constitution forbids the per diem

being more than \$4, there is no provision forcing the

members to take \$4. Nothing in this country is

more needed than economy in every rulers in high places should set example to our peo-rulers in high places should set example to our peomore needed than economy in every thing, and our

ple in order to encourage the people in thrift

Don't let the fear that if you reduce all salaries you will lose all of your good officers scare you. For while all of our officers are good, we had just as good when salaries were low. We had such men as Morehead, Graham, Bragg, Ried, Ellis and others for Governors. We had such men as Ruffin, Nash. patriotic services. The office-holder who complains old times of Militia muster, used to sell whiskey to the boys by the drain, and once when the The ice crop of the Hudson, this year, whiskey was short he tailed to put as much in the dram as he usually did. The boys com-The negro replied: "Well, if you don't like it, and can't stand it, jest pour the dram back in the Jug. Now, if any of our office-holders don't like low salaries, just let them pour it back in the jug. There is our very excellent Govenor, if ne don't like what the people feel able to pay him just let him pour it back in the jug. Then there are the worthy and able Secretary of State, Attorney General, Treasure, Auditor, and all the balance of officers, if they don like it just let them pour it back in the jug. You members of the Legislature should feed yourselves out of the same jug, and if you don't like it, you can just pour it back in the jug. If any of our office-holders should resign because their salaries have tor, and a fertilizer distributor, which take their places. We will not have to send out an impressing officer to get the offices filled. There into office. Don't be alarmed for fear the offices will go unfilled. No one will pour it back in the jug

but only ourse it a little and then drink it.

Independent of the large salaries and unnecssary expenses attached to these offices, the Audtor's report shows that large amounts of Money is paid to Attorneys, &c. Why this expense? Where is the attorney General? The only way to keep a lawyer from getting these fees is to repeal all laws allowing the Governor to employ Attorneys. There will al-ways be lawsuits when a way is provided to pay Attorneys. It costs one-half less now for a farmer to feed nimself or his hands than it cost two years since. Is there any reason then that our charitable and pennal institutions should cost as much as they did two years since? I have in a plain way thrown out these suggestions to our lawmakers, he ping it would arrest extray siderable saving possible. The Legisla- structed a skating rink of artificial ice structed a skating rink of artif

> [From the Raleigh Observer.] DEMOCRATIC REFORM RECORD,

Exchanges, and specially North Carolina exchanges, are very carefully looked Recent experiments with langhing gas, after by the Observer. But in the extraby another worthy co-laborer in the Demcratic cause. And this is what is said by

"The Democratic party went into power and have had control of the State, &c. There has been neither retrenchment nor reform. questions of detail should go. A Statesman refers to a defict in the made appropriations, based on the collection of public taxes as fixed by the former law, changed the time for settling so that the taxes were not paid into the Treasury within its fiscal year. There was no deficiency, except as to time. There is nothing to be reprehended. Fair criticism of party purposes and of party action, and of the conduct official and private of public officials should be regarded with favor, but querrulous, captions criticism and erropeous statements of public maffers ought not to receive approbation. They

mislead the people.

public utterances, no matter how these

We have said that without doubt the expenses of administering the government might be still further reduced. The \$52, State Government have been increased in | 000 paid to the Judiciary and Solicitors has already been reduced to about \$40.0 0 And the remaining \$62,000 may also be diminished. It is the duty of the Legislature to make all proper reductions. But it must be apparent that no very large reduction is practicable when the whole expenditure is only \$62,000. It being imedly than by reprinting and adopting the possible, the popular mind ought not to be educated to expect it. However severe ent Chairman of the Democratic State Ex- ly we may prune in these items, the reduction will not, cannot in the nature of things, be appreciable. At the very utmost the saving in these matters can hardly be more than one cent on the \$100, or 1.60 of the present rate of taxation. It creditable point, But let the good work would seem, then, that the Democratic press might well be careful not to raise m is pressed on the memory of every official public expectation for the mere purpose
