

LOCAL.

Tramps—by the dozen, moving northward.

We have splendid weather for gardening and breaking lands, and everyone who can is at it.

Clang, clang, clang—from early dawn till late at night, by the week and month, some strong arm in the vicinity of our office makes the hammer ring.

WHAT'S THE SIGN.—Mr. H. C. Corlier reports cutting a pumpkin of last year's growth about the 1st of January, and found it in a growing pumpkin vine six inches long, having on it one bloom and four buttons for other blooms.

ENTERTAINMENT.—Prof. J. W. Hartley will give a Literary Entertainment at Meadway's Hall, Friday evening, under the auspices of the Salisbury Reading Club.

TAKE PESSY HOME.—There is a pet rabbit frequenting the editor's garden—a medium sized black pussy with a star in its face.

SPRING, with its enlivening influence, softly and silently comes to us again. We see the first marks of its approach in the swelling, bursting buds, reminding the poor and suffering who have just passed through the hardships of another winter.

REMARKABLE FIDELITY IN A DOG.—Some parties camped in the rear of J. & H. Horah's jewelry store last Friday night, and left Saturday morning.

HOME FERTILIZER.—It will be seen by reference to the advertising columns that Mr. Theo. F. Klutz, Druggist of this place, offers "a home fertilizer," which is strongly recommended.

SCHOOL HOUSE BURNED.—From a reliable source, we learn that the building known as Pool's School House, in district No. 33, Providence township, was destroyed by fire on the night of the 25th Feb'y.

WE learn that the amendments proposed to be made in the charter of Salisbury.

RESTRICTS THE LIMITS OF THE TOWN TO SIX SQUARES from the public square, each way.

It is but justice to supply the omission of the Secretary of the farmers' meeting held at the Court House in this place, to state that James M. Gray, Esq., was called on by the Chairman to explain the object of the meeting.

WOOD LEAVES.—Mr. A. A. File had one of his fingers right badly cut by a circular saw a few days since.

WOOD LAND LITERARY Circle is progressing; several accessions lately, both ladies and gentlemen.

THE MOST IMPORTANT ORGANS OF THE BODY.—This important organ weighs but about three pounds, and all the blood in a living person (about 100 lbs.) passes through it at least once every half hour, to have the life and other impurities strained or filtered from it. Bile is the natural perspiration of the bowels, and the liver becomes torpid if it is not separated from the blood, but carries it to the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown. The stomach becomes torpid, and the liver flows out of one to two ounces of bile each time the blood passes through it, as long as there is an action of bile; and the effect of even a few drops upon yellow complexion or a brown dirty looking face, will astonish all who try it—by being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HERRICK'S GREAT VEGETABLE PURGATIVE for torpidity, causes the Liver to throw out of one to two ounces of bile each time the blood passes through it, as long as there is an action of bile; and the effect of even a few drops upon yellow complexion or a brown dirty looking face, will astonish all who try it—by being the first symptoms to disappear.

THE MOST IMPORTANT ORGANS OF THE BODY.—This important organ weighs but about three pounds, and all the blood in a living person (about 100 lbs.) passes through it at least once every half hour, to have the life and other impurities strained or filtered from it. Bile is the natural perspiration of the bowels, and the liver becomes torpid if it is not separated from the blood, but carries it to the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown. The stomach becomes torpid, and the liver flows out of one to two ounces of bile each time the blood passes through it, as long as there is an action of bile; and the effect of even a few drops upon yellow complexion or a brown dirty looking face, will astonish all who try it—by being the first symptoms to disappear.
