

DOGS AND SHEEP.—Here is something for our North Carolina farmers to think about: In the county of Augusta, Va., they have assessed and levied a tax on dogs out of which tax when collected, the county remunerates parties who have sheep throughout the county during the year for which the tax is collected. There were 230 sheep killed by dogs in the county during the year ending the 1st of May, for which sum of \$622.98 has been paid.—*Observer.*

Plant Food.
The French government, some years ago, established an experimental farm at Vincennes, France, under the superintendence of the eminent chemist, M. George Ville. Among the many experiments made by him was that of causing wheat to grow in pure sand, and in order to destroy any substance that would act as a fertilizer in the sand or water used in the experiment, the sand was burned and the water distilled. Four large flower pots filled with the burned sand were used in making the experiment. In the first he put twenty-two grains of good wheat, and watered them with the distilled water; the seed grew, looking yellow and sickly, but came to maturity and produced 109 grains of poor, shriveled wheat. In the second pot the ten minerals that all the plants require for food were mixed with the burned sand and 22 grains of good wheat planted, as in the first case. The result still showed sickly plants, but better developed than the first, and at maturity yielded 144 grains. In the third pot ammonia was mixed with the burnt sand instead of the ten minerals as in the second experiment. In this case the plants came up beautiful dark green, giving every indication that a large crop of seed would be produced. But not so; the result, although better than the other two pots, only a yield of 162 grains. Ammonia—it may be explained—is composed of three atoms of hydrogen and one of nitrogen, and it is the nitrogen in ammonia that stimulates the plant and enables it to appropriate the minerals in the soil as food. In the fourth experiment the ten minerals repared as food for all plants, united with ammonia, were mixed with the sand and 22 grains of wheat planted as before, this experiment being a union as it were of the second and third experiments. The result of this union was almost magical; the plants sprung up with great vigor, strong and healthy, producing from 22 seeds 423 grains of full good wheat. As the sand in which the seeds were planted and the water in which they were watered contained no fertilizing property, this grand result must have been caused by the minerals and ammonia alone. Yet great as this result was, 5 per cent only of the plants was produced by the ammonia; thereby showing that 98.40 per cent of the plants was produced by the air.

SOMETHING IN THE WIND.—We published two weeks ago something in relation to an organized plan to burn and pillage by the negroes. It appears from what we then published that letters had been written by negro men from Hampton, Russell Place, S. C., and Liberty Hill, S. C., signing themselves as President and Secretary, to a brother of the organization at Matthew's Station in Mecklenburg county, N. C. We gave not the least credit to these rumors, believing them to be false, and merely published them that our readers in those sections mentioned above might read them. But, if what we now hear is true, there is more truth than poetry in what was then published. We have been informed from a very respectable source, that the negroes are holding secret meetings, nightly, in several sections of the country, and it is the general impression in those neighborhoods where the meetings are held that evil is intended. We do not give this publicity to alarm our citizens, but merely to place them on their guard.—*Lancaster (S. C.) Ledger, July 2d.*

NO MORE PUBLIC EXECUTIONS.—From good men everywhere we hear condemnation of public executions in this State, where criminals are permitted to harangue a crowd of superstitious people and make them believe that the best and nearest road to heaven is by the gallows. We hope Gov. Jarvis will issue a circular letter to Sheriffs and County Commissioners requesting them to make executions private. The present law leaves it optional with those officers.—*Char. Democrat.*

It is right to be contented with what we have, never with what we are.

Those beings only are fit for solitude who like nobody, and are liked by nobody.

If you propose to serve God at all have the manliness to begin His service now.

Nothing is more amiable than true modesty, and nothing is more contemptible than the false. The one guards virtue, the other betrays it.

The Yellow Fever.
BREAKS OUT AGAIN IN MEMPHIS.
The People Urged by the Health Authorities to Leave—A Stampede Among the Citizens.

Memphis, July 10.—The board of health this morning issued the following order: "To the People of the City of Memphis: 'We would say quietly, remove your families to a place of safety until we can at least see whether a few cases of yellow fever will assume an epidemic form. To the people along the lines of the different routes of travel we say, there can be no possible danger of the infection for many days to come.'

Five new cases are reported this morning and one death—an infant of Judge J. E. R. Ray, of the Criminal Court, who, together with another son, is prostrate with the disease. A perfect stampede of citizens is in progress, the trains being unable to carry away hundreds who are ready to leave.

LATER.—At this hour, 2 p. m., there has been no change in the situation. The great desire of every one is to leave the city before the fever spreads. The physicians are hopeful as to the future but the stampede of citizens has almost assumed the panic form. There will not be cars enough to-night to carry the people away. Business is progressing as usual but to a limited extent.

CLARK'S
TRADE
MARK
SPPOOL COTTON.
ESTABLISHED 1812.
GEORGE A. CLARK,
SOLE AGENT,
400 BROADWAY NEW YORK.
The distinctive features of this spool cotton are that it is made from the very finest
SEA ISLAND COTTON.
It is finished soft as the cotton from which it is made; it has no waxing or artificial finish to deceive the eye; it is the strongest, smoothest and most elastic sewing thread in the market; it is wound on a spool so that it is equal to any other.
WHITE SPOOLS.
The Black is the most perfect
JET BLACK
ever produced in spoolcotton, being dyed by a system patented by ourselves. The colors are dyed by the
NEW ANILINE PROCESS
rendering them so perfect and brilliant that dress-makers everywhere use them instead of sewing silks. We invite comparison and respectfully ask ladies to give it a fair trial and convince themselves of its superiority over all others.
To be had at wholesale and retail from

YELLOW FEVER—BLACK VOMIT.
It is too soon to forget the ravages of this terrible disease, which will no doubt return in a more malignant and virulent form in the fall months of 1878. **MERRELL'S HEPATINE**, a remedy discovered in Southern India and used with such wonderful results throughout the world, is the most approved cause of fever are found, causes from one to two ounces of bile to be filtered or strained from the blood each time it passes through the Liver, as long as an excess of bile exists. By its wonderful action on the liver and stomach the HEPATINE not only prevents to a certain extent any kind of Fever and Black Vomits, Dyspepsia and all Malarial diseases. No one need fear Yellow Fever who will expect the HEPATINE and extract from the use of MERRELL'S HEPATINE, which is sold by all druggists in 25 cent and \$1.00 bottles, or will be sent by express by the Proprietor, **A. F. MERRELL & CO., PHILA. PA.**
Dr. Pemberton's Stillingia or Queen's Palm.
The reports of wonderful cures of Rheumatism, Sciatica, Salt Rheum, Spasms, Catarrhs of the Uterus and Sore, that come from all parts of the country, are not only remarkable but so numerous that it is doubted was it not for the abundance of proof.
Remarkable Cure of Scrofula, &c.
CASE OF COL. J. C. BRANSON.
KINGSTON, GA., September 15, 1871.
GENTS:—For sixteen years I have been a great sufferer from Scrofula in its most distressing forms. I have been confined to my bed and bed for fifteen years with scrofula. I have used every medical remedy for such cases had been used, and the most eminent physicians consulted, without any decided benefit. Thus prostrated, distressed, despairing, I was advised by Dr. Ayer, of Floyds County, Ga., to commence the use of your Compound Extract Stillingia. Language is an insufficient to describe the relief obtained from the use of the Stillingia as it is to convey an adequate idea of the intensity of my suffering before using your medicine; sufficient to say, I obtained relief, and continued the use of your Extract of Stillingia, until I can say truly, "I am cured of all pain," of all diseases, with nothing to obstruct the active pursuit of my profession. More than eight months have elapsed since this remarkable cure, without any return of the disease.
For the truth of the above statement, I refer to any gentleman in Barrow County, Ga., and to the members of the bar of Cherokee Circuit, who are acquainted with me. I shall ever remain, with the deepest gratitude,
Your obedient servant,
J. C. BRANSON, ATT'Y AT LAW.
A MIRACLE.
WEST POINT, GA., Sept. 16, 1870.
GENTS:—My daughter was taken on the 25th day of June, 1873, with what was supposed to be Acute Rheumatism, and was treated for the same with no success. In March, following, pieces of bone began to protrude from the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right arm, and she was confined to her bed for a long time. After having been confined about six years to her bed, and the case considered hopeless, I was induced to try Dr. Pemberton's Compound Extract of Stillingia, and was so well satisfied with its effects that I have continued the use of it until this time.
My daughter was confined to her bed about six years before she sat up or even turned over without help. She now sits up all day, and eats most of her time—has walked around the room. Her general health is now good, and I believe she will, as her limbs gain strength, walk well. I attribute her recovery, with the blessing of God, to the use of your valuable medicine.
With gratitude, I am, yours truly,
W. B. BLANSON.
WEST POINT, GA., Sept. 16, 1870.
GENTS:—The above certificate of Mr. W. B. Blanson we know and certify to as being true. The thing is so; hundreds of the most respected citizens will certify to it. As much reference can be given as may be required.

MEXICAN Mustang Liniment,
FOR MAN AND BEAST.
This Liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her child-dren. Its fame has been spreading for 35 years, until now it encircles the habitable globe. The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. A single bottle often saves a human life, or restores the usefulness of an excellent horse, or cures, or cures, or cures.
It cures foot-rot, hoof-rot, hollow horns, grub, screw-worms, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life. It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, &c., &c.
The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, &c., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to Miners.
It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure. Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionally much the cheapest. Sold everywhere.
