mind is staggered by the contemplation of the magnitude of this comparatively new industry. So lavish is Mother Earth of her hidden stores of oil that it is sent to the surface much faster than it can be taken care of, or stored, and at the present time 100,000 gallons, at the lowest estimate, run to waste every day. The great United Pipe Line, and other methods of conveyowned by companies which hold 5,000,090 barrels of oil, and all of them are full. The wooden tanks owned by individuals and Thus it will be understood that there are

great lakes of oil above ground, as well as greater propriety be called oceans rather than lakes. The oil workers are evidently An interesting inquiry arises as regards what becomes of the oil that cannot be senature of the country, and readily understand that much of the oil flows into brooks into the large rivers, and in time finds its way in the Gulf of Mexico or the Atlantic Ocean Still larger quantities are absorbed by the parth in ravines and marshy places, and thus it is lost to view. In the famous district one is led to exclaim, "Oil, oil every-where, and no untainted water to drink." There is oil in the soil; oil in the springs; spturated with it.

How wonderful is all this! Well do we

parts of the world. It goes along with rum, powder, and muske's to the savage tribes of Africa, and the mud houses on the banks of the rivers of the interior are illuminated by its combustion; it is found in the interior of the Turkish Empire, in Per-sis, in Egypt, in Palestine, in China, in Japan, and in the remote islands of the sea. For the paltry sum of fifteen cents we can purchase a gallon of the clear refined oil, and the cost of the light afforded, in comtagonist of gas, and we can scarcely hope in the utilization of electrical force in the future, to secure light at a lower expense.—

Bastan Journal of Commerce. n Journal of Commerce.

#### An Invention Called For,

Correspondence Scientific American. There is one invention which is very much needed by the farmers of America, one which would add millions to their income, millions to the commerce of our ecountry, and one which, if it can be invented and successfully operated, will make the inventor a millionaire. It is some kind of a machine by which the loss one fifth of the crop.

the crop by stating an experiment which I have tried this summer to test the loss.

A neighbor had a field of 85 acres near my house, which was judged to make 10 sey Battle, of Tarboro, was made President. to 20 bushels per acre. When fully ripe Asheville, N. C., was selected the next place of meeting. At night the annual address was delivered by Col Camerron of Durham, after which the association adsaved as clean as usual, and was as clean-ly thrashed as any I ever saw; and yet

three-lifths of the crop.

There never known more than onehalf the crop saved even by the most careful management. It seems to me would be a heavy loss, but when it is la and Carthagena. The ship was struck by lightning, by which her mast was shivthrough the Scientific American, to the inventive geniuses of our country, that

will be at least greatly reduced. It may would like to live longer, but no man would care to live better than did John D. is field thoroughly raked, and it was thrashed by a No. 1 steam thrasher. Will the farmers who see this try similar experiments next harvest and note their losses ? M. R. CHAFFIN, Adm'r of wall tol lung & sVery respectfully,

F. W. CONNOR. . T King George Co., Va., July 29, 1879.

The foregoing is suggestive, to say the least; and we should be glad to hear Laura Clement, and C. A .of further experiments to determine the Clement, amount and the occasion of the discreptionably considerable. There is a further ant to appear at the office of the Clerk of the ing, especially when any portion of the of August next, and answer the complaint or irregular ripening. But the assertion manded in the complaint. that three-lifths of an entire crop—the netual returns of which exceeded the farmer's expectation-should be lost in harvesting, or that more than half our annual wheat crops are regularly lost that way, is simply incredible. We fear-no, not that; we are glad to believe-that our correspondent has but added another

ing sweeping conclusions from slender observation, One square yard is too When we are told that at the present time over 1,800,000 gallous of petroleum or earth oil are brought to the surface every day in the oil regions of Pennsylvania alone, the yards; as a test for the probable loss on

THE SUN NEVER SETS ON THE UNITED STATE'S DOMAIN .- Few people are aware that the broad boast of Englishmen that the sun never sets on the Brittish empire is equally applicable to the United States. ance, utterly fail to convey the oil to mar-kets, and the enormous tanks for storage are full to overflowing. There are tanks Union, San Francisco is only midway between the further Alcutian Isle, acquired by our purchase of Alaska, and East private concerns amount in their aggregate apacity to as large a number of barrels. 187 degrees of longitude or 17 degrees more than half way round the globe. The Rocky Mountain Presbyterian in commenting on this fact, says: "When the below; but there is good reason to believe menting on this fact, says: "When the that the subterranean deposits may with sun is giving its good night kiss to our westernmost isle, on the confines of Behring's Sea, it is already flooding the fields pumping from inexhaustible supplies in the and forests of Maine with its morning the "spouting wells" deliver their vast cur- light, and in the eastern part of that ents with the same impetuosity as when State is more than an hour high. At the very moment when the Aleutian fisherman, warned by the approaching shades cured; into what does it flow, and where is its finat resting place? Any one who has visited the oil regions will know of the ginning to make the forest echo with the strring music of his axe .- Philadelphia Times. The Scientiffic American refutes this article and shows that there are four hours darkness on the Territory of the U. S. every 24 hours.

FATAL BOILER EXPLOSION .- Wilson, N. C., August 25 .- A terrible explosion occurred at Ellis Levy's saw mill, near oil on the bushes and trees; oil in the at-mosphere, apparently; oil on the clothing, and in the mouth, eyes, and hair of the workmen; the bread and coffee of the re-about to go to work. There was some gion have the odor of oil, and the beds are deficiency in the boiler, which was filled with water the previous night. Mr. Robert Parton, the engineer, put his emember when the first vial of "rock oil" hand on the throttle to start the engine. fell into our hands. It was called "Seneca Just as he did so the boiler exploded, and oil," and it was claimed to be the most effithe human body is subject. The statement and every bone in his body was broken. that it flowed spontaneously from a spring Robert Johnson, the negro fireman, was in Pennsylvania was received at first with struck by a piece of the boiler weighing much incredulity, as that was regarded as 1,500 pounds, and carried by it a distance impossible; but in a short space of time the truth was known, and the oil was no longer regarded as a mixture devised by John Austin, another employe, was scalded with boiling water, and lived only an hour. His flesh was peeled from his American petroleum oil is now used as a hour. His flesh was peeled from his source of artificial illumination in nearly all body, and his nose and ears burned off. He died begging the people to kill him.

OUR NEW SCHOOL HISTORY .- Moore's School History of North Carolina is still a subject of discussion. We have never seen a copy of it. The State board of education and the superintendent of public instruction have passed on it, and pronounced it a perfect daisy; numbers of school teachers and college professors parison with gas as furnished at the lowest cost in cities, is as one to twenty in its favorable and general worth. The Wilmington Star, the editor of which has examined it critically, has pointed out scores of errors in it-errors of fact and violations of all rules of grammar. Doubtless many of those who have endorsed the book so highly have done so on the principle that if it is not all right it ought to be, but in the face of these exposures this explanation would hardly relieve them of their embarrassment. We all desire to witness the general introduc-tion of a first-class school history of our State, but as between none at all and one which abounds in errors of fact and of syntax, it will not require much time for the public to decide which it will take .-Char. Observer.

PRESS ASSOCIATION.—The State Press Association of North Carolina met in in the wheat crop will be reduced to, say, seventh anual session Wednesday 20 at the Gregory House in the city of Goldsboro N. I will give you an idea of the loss in The meeting was presided over by Col. Wm Carolina with a full attendance of members. cut, dried and rubbed it out very care- journed sine die. The association accepted fully. It weighed 6 oz. Calculating an invitation to visit Glen Alpine Springs. from that datum, the field made 2,571 some thirty or thirty-five members passed bushels. When the crop was cut it was Hickory Thursday night to Glen Alpine and other points among the mountains .-

he only got 1,050 bushels, which shows a clear less of 1,521 bushels; in other in November 1878, has at last ended with words be saved about two-fifths and lost the submission of the workmen in the joiners and carpenters' departments, to the masters' terms.

The West India Pacific Steamship company's steamer, America, which sailed from that one-fifth, or 500 bushels, in 2,500 Aspinwall on the 9th, for Liverpool, en-I think if you will present this subject, ered, but was no loss of life nor serious

45 Years Before the Public. THE CENUINE

DR. C. McLANE'S CELEBRATED

# LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

Symptoms of a Diseased Liver, PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

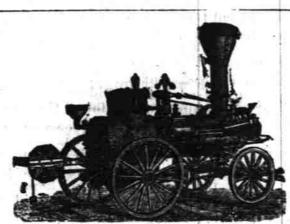

DR. C. McLane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as

a simple purgative, they are unequaled. BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid. with the impression Dr. McLANE'S LIVER

The genuine MCLANE'S LIVER PILLS bear the signatures of C. McLane and Fleming Bros. on the wrappers.

Insist upon having the genuine DR. C. McLane's Liver Pills, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

Dr. Pemberton's Stillingia or Queen's Delight The reports of wonderful cures of Rheumatism, Scrofula, Salt Rheum, Syphilis, Cancer, Ulcers and Sores, that come from all parts of the country, are not only remarkable but so miraculous as to be doubted was it not for the abundance of proof.

CASE OF COL. J. C. BRANSON.

GENTS :- For sixteen years I have been a great suferer from Scrofula in its most distressing forms. I years with scrofulous ulcerations. The most ap-proved remedies for such cases had been used, and the most eminent physicians consulted, without any decided benefit. Thus prostrated, distressed, de-sponding, I was advised by Dr. Ayer, of Floyd County, Ga, to commence the use of your Compound Ex-tract Stillingta. Language is as insufficient to de-scribe the relief I obtained from the use of the Stillingia as it is to convey an adaquate idea of the in-tensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillingia, until I can say truly, "I am cured of all pain," of all dis-eases, with nothing to obstruct the active pursuit of lapsed since this remarkable cure, without any return of the disease.

For the truth of the above statement, I refer to

A MIRACLE.

eepest gratitude, Your obedient servant, J. C. BRANSON, Att'y at Law.

WEST POINT, GA., Sept. 16, 1870. GENTS:-My daughter was taken on the 25th day of June, 1873, with what was supposed to be Acute Rheumatism, and was treated for the same with no Rheumatism, and was treated for the same with no success. In March, following, pieces of bone began to work out of the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right foot and leg. The case was then pronounced one of White Swelling. After having been confined about six years to her bed, and the case considered hopeless' I was induced to try Dr. Pemberton's Compound Extract of Stillingia, and was so well satisfied with its effects that I have continued well satisfied with its effects that I have continued the use of it until the present.

My daughter was confined to her bed about six years before she sat up or even turned over without years before she sat up or even turned over without help. She now sits up all day, and sews most of her time—has walked across the room. Her general health is now good, and I believe she will, as her limbs gain strength, walk well. I attribute her recovery, with the blessing of God, to the use of your invaluable medicine.

With gratitude, I am, yours truly,

W. B. BLANTON.
