The Florida Railroad Cases.

Senator Vance, of North Carolina as attorney for the Western North Carolina Railroad Co., yesterday in the Supreme court of the United States made a motion to vacate and set aside the order made by Mr. Justice Bradley on the 2d day of February last, approving the bond executed by the western division of the Western North Carolina Railroad Co., W. The bond under the order of the court \$80 per ton; from another, at the rate of was required to be in the sum of \$100,000 and to operate as a supersedeas in the Florida Railroad cases The grounds of the motion are substantially that the approval of the bond was based by Mr. Justice Bradley on the consent given by Senator Vance as counsel for the Western North Carolina Railroad Co., and without any judicial examination as to the sufficiency of the security required to be given, and that the parties who signed the bond as securities were not worth the sums of money that they made affidavit they were worth, and that the approval the bond was procured by the false and fraudulent representations made by C. M. McLoud, J. H. Rum-bough and others of said sureties, to Senator Vance, and that the parties who signed the bond were responsible for the amounts of money stated in their respective affidavits to the bond, and also that the said J. H. Rumbough, C. M. McLoud and others, at the time they made the representions, knew the same to be false.—Wash. Fost March 20th.
