

Carolina Watchman.

THURSDAY, APRIL 22, 1880.

The irrepressible Josiah Turner, it is said, will revive the Raleigh Weekly Sentinel.

A colored candidate for Mayor of Charlotte, bearing the name of J. W. Gordon, has been announced.

It is getting to be dangerous, we are glad to see, for a man to draw a pistol or other deadly weapon.

The most heart rending details are published of the famine in northern China.

The new Hotel at Morehead City, which is to be a grand affair, will be completed in time for the next season.

ASSAY OF THE ROASTED ORE.—Prof. Hanna, at the mint, has assayed a sample of the ore which has just been roasted at the Reduct- on Works and he reports one half of one per cent of sulphur.

BRECH LOADERS.—Scribner's Monthly, for April, brings out the fact that Major Patrick Ferguson, who commanded the Tories and British at the battle of King's Mountain, was not only a brave and talented military leader, but also a mechanical genius.

THE STOCKHOLDERS SELL OUT.—At a meeting of the stockholders of the W. N. C. R. R. Co., held at Newton, on the 15th inst., a vote was taken on an offer of \$50,000, made to them by Mr. W. J. Best, for their interest in the Road.

ANOTHER N. C. SUMMER RESORT.—The good people of Smithville, (below Wilmington), held a public meeting Friday night for the purpose of forming a joint stock company for erecting a fine Hotel to accommodate summer visitors to the sea shore.

A MURDEROUS ARM.—Dr. Gatling, inventor of the famous gun, has just perfected another instrument of war that is said to be the most complete in its deadly properties.

NEXT GOVERNOR.—This paper has no personal prejudices in regard to the candidate for Governor. We believe the masses of this section are willing to give cordial support to any one of the many worthy gentlemen in the Democratic party.

ARSENIC.—Seven persons narrowly escaped death near Cumberland, Md., a few days ago from arsenic. Mr. Keller, a farmer, who had formerly been a merchant, brought from the old store a quantity of arsenic.

TERRIFIC STORM IN MISSOURI.—One of the most destructive storms on record struck Mansfield, on the St. Louis and San Francisco Railroad, at 8.30 o'clock, p. m., on the 18th instant.

Echoes from Marshfield. SAINT LOUIS, April 21.—A special from Marshfield says 71 victims of the Sunday's storm have been buried, and twenty-five or more are in a dying condition.

It is reported that from thirty to forty horses have been killed by a species of tornado in the country, and that the town of Corsicana, in Barry county, is as badly wrecked as Marshfield.

ROTATION IN OFFICE.

It is well known to the readers of this paper that we are opposed to rapid rotation in office. When once we get the right man in the right place and become well assured of the fact, we think it is far better to keep him in it than to turn him out and put in one who has everything to learn.

Why should voters treat men they have elected to fill vitally important State and national offices as children do toys? Or follow the example set by the compulsory labor of Sisypheus, who was kept continually rolling a huge rock to the top of a hill merely to let it roll down again?

There is a small inducement for a public officer to give exclusive and absorbed attention to the duties of office, and sedulous self-improvement therein, for present and future public good, with the certainty ever before him of being cast aside at the close of one short term, as if effete, to make room for a successor who feels himself a Solon, but whom the retiring man knows will be at best a tryer for some time.

OUR SENATOR.

It is with pride and pleasure that we give place to the following articles reflecting so complimentary on the Senator of Rowan and Davie. Those of our fellow citizens of the county who have thought Mr. Henderson had failed in duty to them cannot refuse to do him the justice of giving credit for the good he has done.

JOHN S. HENDERSON, Esq.—We were pleased to meet with gentlemen in our city on Saturday. Mr. H. is a very prominent member of the State Senate, and was conspicuous in his efforts to bring about the sale of our road, and its completion to Ducktown and Paint Rock.

"Honor to Whom Honor is Due."

To the Editor of the Charlotte Observer. I trust you will allow me the space in your paper to correct an error that has been made by the Asheville Citizen to the effect that Mr. Carter, a member from that county in the Legislature, had been the means of putting in the Best bill a provision which subjects the Western North Carolina Railroad to taxation.

introduced in the Senate. In the different overhauls through which the bill passed, before the committee, &c., this provision by some means or other was, when the bill was about to pass its final reading, found not to be in the bill.

These are the facts as they are well known by many members of both houses. This wise provision accomplished by the foresight of Senator Henderson adds four millions of dollars to the taxable property of the State and in this proportion relieves the burden of taxation.

The Senator from Rowan is acknowledged to be one of the most useful and efficient members in the General Assembly. He is wide awake on every matter affecting the interests of the people and no one more closely investigates every important matter.

With Fowle for Governor and Henderson for Lieutenant-Governor, the Rads would come into the field already beaten. A MEMBER.

RICH SCENE.—The New York correspondent of Hale's Weekly, puts on record the following amusing Congressional incident, of interest to the constituents of Col. Steele, of the 6th District:

In the House a few days since Colonel Steele, of your State set a nice little trap for that Conger, of Michigan, into which the usually wary (and of course always liberal, charitable and benevolent) gentleman walked. It was in the shape of a reviving and re-suscitating resolution or bill in behalf of a bill passed many, many years ago by Congress for the erection of a monument near Beattie's Ford, North Carolina, to the memory of Gen. Davidson, who fell there in a battle with Lord Cornwallis in 1781; and which monument has never been built.

There is a new departure in school teaching just now on experimental test in Boston, resembling the kindergarten system in which, for the young pupils, books are discarded, and children are learned to read and spell by exercises on the black board.

STATE OF NORTH CAROLINA, Davie County.—In Superior Court.

M. R. (Haffin, adm'r of J. R. Jordan, dec'd, Pfg. Plaintiff, vs. John Jordan, Pleasant Kennedy, et al. Heirs at Law, Debtors.

It appearing to the satisfaction of the Court on affidavit of Plaintiff, that Pleasant Kennedy and wife, Sarah Kennedy, two of the defendants above named, are non-residents of this State, it is ordered that publication be made for six successive weeks in the "Carolina Watchman," a newspaper published in Salisbury, N. C., notifying said defendants to appear at the Office of the Clerk of the Superior Court of said county, on the 4th day of June, 1880, and answer the petition which is filed in said office, or the plaintiff will apply to the Court for the relief demanded in the petition.

Another Bankrupt Bill in Congress.

WASHINGTON, April 17.—A short while ago Mr. Conkling introduced into the Senate a voluminous bankrupt bill, and now Mr. Hutchins, a Democratic member from the same State, has introduced a bankrupt bill making one hundred pages. It provides that the District Courts of the United States shall be constituted courts of bankruptcies, and shall have original jurisdiction in their own district in all matters and proceedings in bankruptcy.

Associate Justice Field's letter on the Chinese question gives his Presidential boom an upward tendency. He believes in putting the Chinese in America on the same footing as Americans in China—thereby restricting them to the business of foreign commerce.—Raleigh News.

A NEW INDUSTRY.—A factory for the manufacture of Parlor and Church Organs has been opened at Mt. Airy, N. C., under the business name of the "Lowry Organ Co."

If Bismarck insists on his resignation, the Emperor William knows our address, Up two flights of stairs, and knock at the right hand door. Don't kick on the panels.—Burlington Hawkeye.

HOOP POLES.—Under the head of "A New Industry," the Moore county Index mentions that large quantities of Hoop Poles are sold in the Carthage market mostly for shipment, we suppose.

HORSE THIEF.—Stolen from the stable of Rev. E. F. Rockwell, on the night of the 7th inst., his horse, of a bay color, blind of the eye on the right side, white above the hoof of one hind foot, a small white spot in center of forehead, about 14 years old. Give information to owner at Cool Springs.—Statesville American.

STRIKE AT THE FOUNTAIN HEAD the cause of all evil. It is worms that have destroyed the health of your child. Give Shiner's Indian Vermifuge before it is too late. Only 25 cts a bottle.

FROM THE QUAKER CITY.

E. J. Campbell, of Philadelphia, under date of Oct. 4, 1879, certified to the wonderful efficacy of Warner's Safe Kidney and Liver Cure, in removing a liver disease accompanied by chronic constipation and yellow skin.

HOW WATCHES ARE MADE.

It will be apparent to any one, who will examine a SOLID GOLD WATCH, that aside from the necessary thickness for engraving and polishing, a large proportion of the precious metal used, is needed only to stiffen and hold the engraved portions in place, and supply the necessary solidity and strength. The surplus gold is actually needless so far as UTILITY, and beauty are concerned. In James Ross' PATENT GOLD WATCH CASES, this waste of precious metal is overcome, and the same solidity and strength produced at from one third to one half of the usual cost of solid cases. This process is of the most simple nature, as follows: A plate of nickle composition metal, especially adapted to the purpose, has two plates of solid gold soldered one on each side. The three are then passed between polished steel rollers, and the result is a strip of heavy plated composition, from which the cases, backs, centers, bezels, &c., are cut and shaped by suitable dies and formers. The gold in these cases is sufficiently thick to admit of all kinds of chasing, engraving and enamelling; the engraved cases have been carried again, and perfectly smooth by time and use without removing the gold.

This is the only Case Made with Two Plates of Solid Gold & Warranted by Special Certificate. For sale by J. & H. HORAH, and all other Jewelers. 22:1y
