Yes, the ring! The Examiner's editor is a bold writer-fearing nothing when in the right. He is right about the ring. We have heard it wispered on several occasions that a ring existed and existed mighty close to the store with a red front. Pity, but the people must submit; notwithstanding their expressed wishes; for if they do not submit they are affectionately spoken of in such endearing language as this : "Selfishness pleading in offy words, dissimulation masked in pretentious methods, sucaks, floundering from the slough of self-abasement, and time-servers struggling to assume the garb of principle." That kind of pursuasive language is calculated to change the Waggoner men and make them vote for Bing-

The Statesville American quotes Judge Black's endorsement of Garfield with infinite zest. What Judge Black said of Lindsey's majority in the third congress- the American's candidate for the presidency was this:

"He is a man of the gentlest pature : would not harm a hair of your head ; yet, at his party's command, he would help on the oppressive and brutal policy against year's vote. The vote on the constitu- the South. Personally, he believes in the tional amendments is very close, requiring constitution; knows that the President the official count to determine. At last reports the Legislature on the Constitution without having perstands, 19 Republicans and 12 Fusionists pary on his soul; and yet he went into the House at the direction of his party, struck down the Constitution, and institted the corpse by kicking it."

> To such Democratic endorsements the American is welcome. Will it have the fairness to print it.

The evidence of Republican fraud in the Vermont election is overwhelming,

Vermont has gained only 4,000 in poplation since 1870 and has now only 334,-455 people. Yet the vote of the State, which in 1870 was only 64,458 in an election fully as exciting as the present one, has now been brought up to 71,070 as the New York World figures it up, or 70,400, as the New York Times gives it, equal to one vote in 4.75 of the population. The Times admits an increase of 4,007 in the vote; the World's figures will give au increase of at least 6,500. The Democratic vote is a little larger than it was in 1876, and the greenback vote has increased from 73, in 1876, to about 1,530.

Now, will some "arithmetic man" explain the Republican majority upon any other theory than ballot box stuffing.

Availuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the appeady and permanent Cure of Seminal Emissions and Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles, Ejaculatory Ducts, Prostate Gland, and Urethra. The use of the Remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life; it is quickly dissolved and soon absorbed, producing an immediate southing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Bociety, etc., etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for fears. This mode of treatment has stood the test in very severe cases, and is now a prenounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation. Practical observation enables us to positively guarantee that it will give satisfaction.
