James M. Leach, of Davidson,
Fabius H. Busbee, of Wake.

DISTRICT ELECTORS:
7th District, Theodore F. Klutz,
FOR CONGRESS;
R. FRANK ARMFIELD,
OF IDELL.

[Election, Tuesday, Nov. 2.]

DEMOCRATIC STATE TICKET.
For Governor—Thomas J. Jarvis.
" Lt. Gov.—James L. Robinson.
" Sec'y of State—Wm. M. Saunders.
" Treasurer, Geo. M. Worth.
" Attorney General, Thos. S. Kenan.
" Auditor, W. P. Roberts.

Supt of Public Instructions, J. C. Scarborough.

FOR JUDGE OF 4TH JUDICIAL DISTRICT:
R. TYLER BENNETT.
FOR JUDGE OF 5TH JUDICIAL DISTRICT:

J. A. WILLIAMSON.
FOR THE LOWER HOUSE:
ERANK BROWN,
J. L. GREIBER.

It is calculated that 200,000,000 barrels of apples will be gathered this year in the United States. The crop is the finest ever known.

Mr. Moutford McGee has been elected Commissioner of Agriculture. He is a person of county man of excellent acquirements and fine abilities, and is said to be well qualified for the place.

The English cotton masters have persuaded their operatives that there has been no improvement in business such as would justify an advance of 10 or even 20 per cent. in wages. The operatives have at last decided to wait a little longer before striking.

Hancock is bound to be elected, but it cannot be done unless Democrats go to the polls on next Tuesday and vote for him. Let every one of us go, and do our whole duty, so that it may not be said that old Rowan was behind in her help to the great cause of Democratic reform and honest government.

It is predicted by a gentleman at Raleigh, who has carefully studied the indications of the approaching election, that the Democrats will carry the State by a heavy majority this year than ever before. We have had fears to the contrary, based on the apparent apathy of the party. We shall be glad if our Raleigh friend is right and we are wrong.

Rev. Dr. W. S. Plummer is dead. He died in Baltimore. His remains were brought to Richmond, Va., Friday, for interment on Saturday. He was 78 years, two months and 26 days old. A venerable man of God, who has finished his work on earth has thus passed away. The Doctor preached several times in the Presbyterian church here, two or three years ago; his venerable personal appearance added weight and pathos to the solemn truths he sought to impress on his hearers.

WHAT RADICALS WILL DO.

We copy the following so that white men may not forget what the Republican party has done when they had the power, and what they will not scruple to do again if they succeed in gaining control of the county or State governments.

These are facts which they have never attempted to refute:

White Slavery.

Degradation Worse than Death—White Men of North Carolina, Read the Following:

TRENTON, Jones Co., N. C., July 26, 1876.

Editor Newbern Democrat:

Sir: I find on examination of the records and other sources, that at January term, 1874, of Commissioners' court of this county, a Mrs. Nancy King (white, and three children) were let out at auction to the lowest bidder, and was bid off by a negro who can neither read nor write, at the price of \$5.50 per month.

At the same time a Mrs. Lucy Lockley, (white) aged and blind, was bid off by a negro who can neither read nor write.

At April term, 1875, Samuel Metts, white and blind, having a wife and several children, was bid off by a negro Commissioner, at \$5.00 per month.

At the same time a white man, named Alfred Davis, was bid off to another Commissioner at \$4.00 per month.

At April term, 1876, Samuel Metts, the blind man named above was bid off by an ignorant negro at \$4.50 per month.

At the same time, Alfred Davis, named above, who is afflicted with cancer, was bid off by a negro at \$5.75 per month.

There were many others bid for by negroes but not bid off by them.

The Board of County Commissioners consists of two radicals and three negroes. If you need any more testimony to corroborate the facts above stated it can be procured by scores of witnesses.

Very Respectfully,
BENJ. ASKEW.

It has been charged, and as far as we know has never been authoritatively denied, that Judge Buxton was applied to for a writ of *habeas corpus*, and he declined to issue it. Such a charge made at Judge Buxton's own home by a responsible gentleman ought to have drawn from him an explanation, if a satisfactory explanation could be given. In its absence we must assume that the allegation is well founded, for the Judge would doubtless have denied the charge had it not been sustained by the record. No Judge who shall wantonly withhold the privilege of the sacred writ of *habeas corpus* from even the meanest offender, ought ever to receive any mark of popular favor. This is the basis of our English liberties. Take it away and the American people are in no better condition than the subjects of some foreign potentate. The strong could then imprison the weak; a person falsely accused might be arrested and incarcerated in a felon's cell and held as long as his persecutors should please. Our freedom of person, our liberty to go where we will without question and to be exempt from arrest so long as we attend to our own business, is a matter of such every day life that we seldom think on what it depends on the fact that under the law, if any one is detained, upon application any Judge is required to examine into the case immediately and is bound to release the prisoner if the detention be improper. This duty, it is alleged, Judge Buxton declined to perform. It is a high and solemn duty, and the people should now rebuke him for that failure to discharge it. If he were untrue to the people and to popular right in that case he may certainly be in some other hour of their great necessity.—*News & Observer.*

"Rush!" "Rush!"
Jewell Sends a Colony to Florida, And is Caught at His Tricks by Telegrams That Accidentally Fell into Barium's Hands.

NEW YORK, October 22.—The Democratic national committee has issued the following:

TO THE PUBLIC: When this campaign opened the national Democratic committee contracted with the American Union and the Western Union Telegraph Companies for special rates for their business and arranged with said companies that all telegrams sent or received by the committee should be returned at the end of each week to the cashier of the committee as vouchers for the bills rendered. Telegrams so sent or received by our committee have been returned under this agreement weekly and paid for according to the contract. On Wednesday morning, October 20, the Western Union Telegraph Company returned the vouchers as usual for the second week in October. Upon their being examined by our cashier to verify the amount, the following telegrams were found in the packages so sent us as vouchers, evidently being a mistake on the part of the office having the same in charge at the office of the Western Union Telegraph Company. The telegrams are written upon the Western Union blanks and are as follows:

RUSH, Oct. 12, 1880.
To HON. CHARLES J. NOYES, care J. Jenkins, Jr., Jacksonville, Fla.: I telegraphed yesterday. I will provide, as requested two hundred each for Callender and yourself as compensation. (17 paid.)

(SIGNATURE.) MARSHALL JEWELL.

F. W. WICKER, Collector, Key West, Fla.

"City of Dallas" took 150; "City of Texas," 100; "Colorado," 100 for Key West. Men on deck instructed to say nothing about it. (26 paid.)

(SIGNATURE.) MARSHALL JEWELL.

The numerals "150" and "100" in this last telegram mean so many men. These telegrams, or rather the one addressed to E. W. Wicker, United States Collector at the Port of Key West, Fla., tells its own story. The sun had not gone down in the State of Indiana, where one of the greatest frauds ever perpetrated on a free Government and a free ballot were about to be consummated, when the chairman of the national Republican committee and an official of the United States Government were preparing to repeat in the State of Florida the infamy then about to be consummated in Indiana.

The committee were advised previous to the receipt of these telegrams that the State of Florida was about to be overrun by the repeaters of our large cities. The telegrams of Mr. Jewell only confirm what the committee well knew to be the fact. The above telegrams are in the possession of the committee. They are written in copying ink, have been copied in a letter-press book and bear the telegraph receiver's checks and marks and this committee defies any one to assert that they are not genuine. The telegrams are now being lithographed and will be given to the public in a day or two.

WM. H. BARNUM,
Ch'mn. Nat. Dem. Com.,
New York, October 21, 1880.

The Washington Post carefully reviews the congressional districts of the Union, and after giving the Republicans the benefit of all reasonable doubt, figures up the next House as follows: Democrats, 176; Republicans, 116; Greenbackers, 1; a Democratic majority of 59 over all. The Post's figures, as we view them, are a little too liberal, but the margin is quite roomy. The Democrats can lose twenty-five districts, according to the Post's calculation, and still have a majority of nine.—*Charlotte Observer.*

Life is full of sorrows and disappointments, but the most sanguine hopes of all those who try Dr. Bull's Cough Syrup, are always realized. It never disappoints. Price 25 cents.

A BOLD PIECE VILLIANY.

The news published exclusively in yesterday's *Observer* to the effect that the Republican committee had inaugurated a desperate scheme to carry North Carolina, South Carolina and Florida, stands speedily and startlingly verified.

A brief explanation of the dispatches we print this morning will suffice.

The Democratic National Committee have an account with the Western Union Telegraph Company, and that account is presented, periodically, for payment. Whenever it is presented the original telegrams are sent with it as vouchers to show that the charges are correct. When the latest account was presented, mixed in, supposed by accident, with telegrams of the Democratic committee were the originals of two dispatches signed by Marshall Jewell, the chairman of the Republican National Committee. One of these two dispatches ran as follows:

(Signed) "MARSHALL JEWELL."
"City of Dallas" took 150; "City of Texas," 100; "Colorado," 100 for Key West. Men on deck instructed to say nothing about it.

"MARSHALL JEWELL."
There is a line of steamships from New York which touch at Key West. Messrs. C. H. Hallory & Co., 20 East River are the general agents. The line includes the City of Dallas, the State of Texas, and the Colorado.

The irresistible conclusion is, that the dispatch "refers" to the number of the voters shipped by the National Republican Committee from New York to vote the Republican ticket in Florida; that ONE HUNDRED AND FIFTY were shipped by the City of Dallas, ONE HUNDRED by the State of Texas—ORROROUSLY written City of Texas—ONE HUNDRED by the Colorado, making in all THREE HUNDRED AND FIFTY.

The dispatch is addressed to the Republican collector at Key West.

It will not be claimed that this dispatch is a forgery. Its authenticity is established beyond all doubt. Application has been made by the telegraph company for a writ of injunction to restrain the National Democratic Committee from publishing and circulating the dispatch. But the attempt through the courts to suppress this bold piece of Republican villany is futile. Already had the news of the damnable conspiracy been dashed throughout the United States.

Jewell has been caught in his infamous attempt to debauch the ballot box in Florida.

His own handwriting convicts him of the infamy, and we hold him up to public gaze this morning as the execrable tool of an unscrupulous and corrupt party.

The success of such a party would forever damn and disgrace the American people.

May God forbid it.—Charlotte *Observer.*

The Chinese Letter.

No pen ever recorded so much in a few words as did the pen of James A. Garfield when it traced the extraordinary letter to a member of the Employers' Union of Massachusetts, given to the people by Truth yesterday, to him and the party whose standard he bears a most unfortunate letter. But it paints the portrait of James A. Garfield as no Presidential candidate's portrait was ever painted before.

Behold the picture!

A stealthy emissary of corporate monopolies. He is James A. Garfield.

A secret enemy of the American workmen. He is James A. Garfield.

An advocate of open competition for the subjugation of poor laborers. He is James A. Garfield.

One who relegates the question of wages wholly to private and corporate economy, throwing open our ports to the invasion of hungry hordes from all quarters of the globe, and exposing the working men to merciless competitors. He is James A. Garfield.

One who demands the rights of bloated capitalists and corporate monopoly to buy labor wherever on broad earth they can get it cheapest. He is James A. Garfield.

One who would not stem the increasing flood of Chinese immigration until "our great manufacturing and corporate interests are conserved in the matter of labor" until labor is reduced to absolute subjection by capital and monopoly. He is James A. Garfield.

Working men of America, are you pleased with the picture?—N. Y. *Truth*, Independent, Oct. 21, 1880.

The Indiana Election.

WASHINGTON, Oct. 22.—Judge Roach, of Indianapolis, is in the city. He left Indiana last Saturday. He says the Democrats are reforming their lines for a contest in November, and the feeling among them is that they can win. Judge Roach says the Republican manufacturers all told their employees they would be forced to close business if the Democrats succeeded, and in this way induced many Democratic workmen to vote the Republican ticket. He contends with other Democrats that the State was carried by fraud mainly. He said: "The population of Indianapolis as returned by the census is 75,126, and yet 19,500 votes in round numbers were cast. I told the census supervisor the day after the election it was clear that either his return was wrong or his party (he is a Republican) had put fraudulent ballots in the boxes of that city. He maintained that his figures of the population were correct. Indiana can be carried for Hancock, I believe, and the people are determined to do it."

The Fatal Mistake.

Made by the Telegraph Company in Sending Republican Dispatches to Democratic Headquarters.

An Attempt by the Courts to Restrain the Publication and Circulation of the Dispatches.

JEWELL, CAUGHT IN THE ACT OF COLONIZING FLORIDA.

New York, Oct. 23.—Judge Lawrence in Supreme Court Chambers this morning, on application of Messrs. Porter, Lawry, Soren and Stone, attorneys for the Western Union Telegraph Company, granted an order to show cause returnable on the 24th inst., why injunction should not issue to restrain the Democratic national committee from using or circulating telegraphic copies of

TO WHEAT GROWERS,

ALLISON & ADDISON'S STAR BRAND COMPLETE MANURE FOR WHEAT

200 lbs. STANDARD GUARANTEED RICHMOND, VA.

ESTABLISHED 1865.

We offer this first-class Fertilizer to Wheat Growers as being in all respects, worthy their patronage. It has stood the test for twelve years' use among us and has been brought to its present admirable condition only by the liberal expenditure of labor and money in a continuous effort to improve. Its standard and uniformity are guaranteed.

The result of its application to the wheat crop for the past twelve years has proved it to be equal to any fertilizer ever sold in the United States. During this time thousands of tons of it have been used by the farmers of Virginia and North Carolina with highly satisfactory results.

We recommend it because: It is rich in Soluble Phosphate and Ammonia. It affords a constant supply of plant food. It contains no inert matter. It insures a stand of grass or clover. It is an improver and renovator of worn out lands. It is fine, dry, and in the best condition for drilling. It contains an ample quantity of all the elements necessary to make wheat, and a large surplus which will show itself upon the clover and grass, and in the improvement of the land.

It is prepared from the best and most approved materials, in the most careful and thorough manner, and under our personal supervision. Its standard and uniformity are guaranteed. Whatever may be the merits of other fertilizers, no one can go wrong in using the which is so well made, is so fully guaranteed, and has been so long and so thoroughly tested.

APPLICATION.

We recommend the application of from 100 to 200 pounds per acre—drilled in with the wheat if practicable. If the drill is not used, the land should be ploughed and harrowed until fine and free from clods, and the wheat and guano harrowed in, following with the roller. This mixes the manure with the soil, and keeps it near the surface just where the roots of the wheat will find it easiest. When sown on land ploughed but not harrowed, much of the guano goes down in the opening between the furrow slices and does little or no good.
