FACTS SPEAK & THENSELVES.

Health is a great blessing. Disease is a want of ease, and without the tastness and comfort of health, what is wealth worth? What happiness can there be in life? If we are not well, it is a blessed thing to know low to regain health. I offer this knowledge, freely and without price, to the whole world: "Take BRANDRE H'S VEGETABLE PILLS whenever you are sick." It is now nearly flay years since I introduced these pills to the American people, and, after using lifty millions of bex es, the verdict of the great jury of American sovereigns is, that they are the best and sales: purgative ever known.

They have completely superceded mercury and deeding, which was found in very general use in this country fifty years ago. I said that the one was poisonous and the other a murderous treatment, the remedial power of nature had not only to cure the disease, but to eradicate mercurial poisons and supply new streams of blood to exhausted patients which was too much for any constitution; that my plan of treatment was to remove disease by purifying the blood with Brandreth's Pills, for when the blood was thus made pure, the medical force of nature came into full play, and, unless God willed otherwise, the patient was sure to recover. Brandreth's I'ills assist nature in all her efforts. It is nature that cures disease and not medicine. Every other course of treatment only throws great obstacles in the way of the constitution. I am happy to say that bleeding, which I said was always improper, has been generally abandoned by the medical profession, and that the poisonous qualities of mercury have been so far recognized that the use of it has been forbidden in the United States Army, by the Surgeon-General. In the calendar for 1881. I publish numerous cases of cures by Brandreth's Pills, some of them so remarkable as to be little short of miraculous: But they are true, and the witnesses can be seen away from home over night. No risk whatever, and consulted. If Brandreth's Pills were used Many new workers wanted at once. Many are ma. able as to be little short of miraculous: But and consulted. If Brandreth's Pills were used and consulted. If Brandreth's Pills were used king fortunes at the business. Ladles make as much as men, and young boys and girls make great payof health and a perfect medicine chest.

OBSERVE,

that Brandreth's Pills, taken on an empty stomach, create no nausea, vomiting, or griping. They the good any time, but are most effective and agreeable taken on going to bed, when little, or better still, no supper has been eaten. B. BRANDRETH.

COSTIVENESS AND DISPEPSIA CURED ELIZABETH FALLS, Maine, Oct. 31, 1880.
