A Miss in her teens said to us : 'A horse sweats, men perspire.' By turning to the dictionary she would have found that sweat is a good Anglo-Saxon word, and that many languages grily, 'I do not care how it looks.' contain it. The Bible says; 'In the sweat of thy face.' Milton, Shakeuse it. To saw sweat is regarded as the fence so thorough in finish. very unrefined now-a-days. This is on a par with saying ill for sick. A the judge. few years ago to eat with your fork was regarded as the height of yulgarity. Now, according to society usage, it is equally vulgar to eat without it. Sweat is a good old word not for money?" and we use it on occasion and sometimes, as the lawyers say, with malice prepense.' There is a vast deal of nauscating sentimentality in the proprieties of so-called 'polite society.' to a certain class when the minor away. morals may be in a state of dilapidagnat and swallows a camel often. Euphuism is overdone now and then. A spade is a spade. This does not mean that you should use obscene words. That is without excuse. "A want of decency is a want of sense."

It means that there are many words that are proper, are legitimate, are rich man of him.' forceful, and should be used, that are tabooed by so-called society. The illustrious Coleridge - one of the greatest of English poets-said that detected some sixty, we think it was, and thoroughly done. "distinct stinks." This horrifies society. It would have said "in the beautiful city which bears the name of one Washington Leiter. of the most delightful of all periumes that ever regaled the senses, some ing cards are a source of bewilder- ence with rats. Upon leaving Kensixty odors, not laden with balm, and ment to the Congressmen from rural tucky he placed his drawings of more that did not remind one of the spice- districts, who cannot decipher their than a thousand insects in the care of burdened zephyrs of Araby the Blest, meaning. Keely and His Motor Secret.

He Rejuses to Give it up Despite Threats of Arrest.

The contest for the possession of the secrets of the Keely motor promises to be a lively one. In accordance with the resolution adopted at the board of directors last week, Mr. Keely yesterday forwarded to the New York committee of directors a statement of what he proposed to do for them. It said that in this document he agreed that a special committee of the directors might be appointed, for whom he would take his generator apart, make working drawings of the apparatus, and have them placed with a safe deposit company for the use of the stockholders in case of his death. The vitalizing force he holds to be his own secret, and refuses to devulge how the power is obtained or anything relating to it. As a result of this the committee telegraph- The Work of Years Spotled b ed to Philadelphia for copies of certain contracts and other agreements with Keely. They will meet to-day vious declarations.

doings as promptly as the news can be imparted. Address Times-Star, Cincinnati. O.

FACTS SPEAK & THENSELVES!

Health is a great blessing. Disease is a want of case, and without the casiness and comfort of health, what is wealth worth? What happiness can there be in life? If we are not well, it is a blessed thing to know how to regain health. I offer this knowledge, freely and without price, to the whole world: "Take BRANDRETH'S VEGETABLE PILLS whenever you are sick." It is now nearly fifty years since I introduced these pills to the American people, and, after using fifty millions of boxes, the verdict of the great jury of American sovereigns is, that they are the best and safest purgative ever known. They have or inpletely superceded mercury and

bleeding, which was found in very general use in this country fifty years ago. I said that the one was poisonous and the other a murderous treatment, the remedial power of nature had not only to cure the disease, but to eradicate mercurial poisons and supply new streams of blood to exhausted patients, which was too much for any constitution; that my plan of treatment was to remove disease by purifying the blood with Brandreth's Pills, for when the blood was thus made pure, the medical force of pature came into full play, and, unless God willed otherwise, the patient was sure to re-cover. Brandreth's Pills assist nature in all her efforts. It is nature that cures disease and not medicine. Every other course of treatment only throws great ob-tacles in the way of he constitution. I am happy to say that bleeding, which I said was always improper, has been generally abandoned by the medical profession, and that the poisonous qualities of mer-cury have been so far recognized that the use of it has been forbidden in the United States Army, by the Surgeon-General. In the calendar for 1881, I publish numerous cases of cures by Brandreth's Pills, some of them so remarkable as to be little short of miraculous: But they are true, and the witnesses can be seen and consulted. If Brandreth's Pills were used in every family, each box would be a magazine of health and a perfect medicine chest.
