Capt. Ead's Ship Rajlyay Project.

Capt. Eads returned to St. Louis from the Isthmus of Tehuantepec last week in excellent spirits and as confident as ever of . the practicability of his ship railway project. The matter will be presented to Congress shortly by a bill considerably modified from that reported during the last session. These modifications are in favor of citizens of the United States and Mexico, and are designed to render the enterprise more acceptable to the government. In the course of a conversation which illustrates his deter- sall bary

mination and confidence Capt. Eads says: "My visit to England last August satisfied me that every dollar which is required for the work will be subscribed there within sixty days after the United States declines my Mr. Paul H. Hayne, the poet, lives proposition; but I have no fear whatever of its being declined by the subjects, fully indorsing the entire practicablity of the ship railway. I said that the one was poisonous and the other a murderous reatment, the remedial power of nature had not only to cure the disease, but to eradicate mercurial poisons and supply new streams of blood to exhausted patients. which was too much for any constitution; that my plan of treatment was to remove disease by purifying the blood with Brandreth's Pills, for when the blood was thus made pure, the medical force of nature came into full play, and, unless God willed otherwise, the patient was sure to re-cover. Brandreth's Pills assist nature in all her efforts. It is nature that cures disease and not medicine. Every other course of treatment only throws great obstacles in the way of the constitution. I am happy to say that bleedng, which I said was always improper, has been generally abandoned by the medical procury have been so far recognized that the use of it has been forbidden in the United States Army, by the Surgeon-General.
