CHRISTMAS TREES .- The custom of treating the Sunday School pupils to Christmas trees has become very prevalent throughout this county. To say nothing of those in this town, we hear of a number of others in the country. Enochville gave the children Sam'l Rothrock, Mr. Augustus L. Pless and there a very pleasant time. So also, at Harris' Chapel, Salem, Gay's Chapel, Grace Esq. church and St. Paul's. These we have

GOLD NUGGETS .-- Mr. Atlas Kirk exhibited to us, Tuesday, three beautiful gold nuggets from the Parker mine in Stanly county, in which he is interested, together weighing seven ounces. The Parker is a well known mine, and has yielded quantities of free gold. It is on a part of the same ridge on which the Crowell mine is situated, the best mining property yet discovered in Stanly county, a large portion of which is believed to be rich in minerals.

A GRAND RAILROAD SCHEME. - We invite attention to the advertisement of the Cincinnati, Virginia & Carolina Railway Company, in another column. It will be seen that a company has been formed to build a Railroad from Wadesboro, N. C., through Anson, Stanly, Rowan, Davie, Wilkes and Ashe counties; thence by air line northwest, to Charleston in West Virginia, where it connects with the Baltimore, Cincinnati & Western Railway, a direct joining of Cinlong-desired out-let to the northwest, and fully productive region. It will cut lengthways through the extensive coal and iron The colored people of Rowan have lands of West Virginia, and touch the immensely valuable mineral deposits in the northwestern part of this State. But this Road will also traverse one of the best agricultural portions of the State: Striking the valley of the Yadkin at Wakesboro it will follow it to its source in the mountains, Mr. Buerbaum did the handsome thing cutting through valuable cotton, corn, tobacco, wheat and grass lands, all the way senting him on Christmas day with a up. Everybody wants it, but very few get it, because most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate the difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (in the bean, not ground,) b-aring our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 414" mild and rich. One or the other will suit every taste. They have the three great points, good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41." Do not be put off with any other kind-your own palate will tell you what is best.

Where persons desire it we also furnish the "Ideal" Coffee-pot, the simplest, best and cheapest coffee-pot in existence. Grocers who sell our Coffee keep them. Ask for descriptive circular.

**ALLCOCK'S POROUS PLASTER** A Curative Host in Itself. Thirty year's experience has firmly rooted Allcock's Porous Plaster in public estimation. Their wonderful adaptability to the various symtoms of disease is a marvel to medical men of all schools. For nervous persons and lunatics, one or more applied to the spine produced sleep when opiates, even hydrate of chloral, had been of little service. Now, when one can-

a Plaster to the back. You scarcely touch the pillow before you are sound asleep. Allcocks Porous Plasters have the curative effect of the Spanish fly blisters, yet make no sore, and never affect the kidneys; are convenieut for all ages and conditions, usually only producing a "blush" on the skin, and more certainly curative than liniments or blisters, and

not sleep, its is the common practice to apply

without prostration or pain of the Inter.

This is true even in Croup, Quinsy, Pleurisy,
Lung and Throat Affections, and the utility of
this sanitary invention has been warmly welcomed. They are largely sold in every part of the world, and it is believed that not less than five hundred thousand persons are well, and attending to the duties of life, free from pain, who have an Allcock's Porous Master somewhere about them, and who, but for the said plaster, would be prostrate upon a bed of agony. Besides, a peculiar piny, pleasant odor, halo, or atmosphere exhales from them by the warmth of the body, imperceptible to the eye, but which

envelops the person in a cloud of thin vapor, through which contagion cannot penetrate. In fact, Allcock's Plasters supply an atmosphere like that from balsam or pine woods, and no doubt attract ozone. When contagious or infecteus diseases are about, they should be worn on the iest or back as preventives.

THE ALLCOCK'S PORBUS PLASTER oothes pain, reanimates torpid limbs, seems, in many cases, to revive the powers of life. The great demand proves them to be used as universal remedy. They are convenient of apolication, and safe for art, being incapable of producing any injurious effects.

Dr. Valentine Mott, Dr. Johnson, of Hartperfect as artificial supporters of the muscles and for pains, because of their counter-irritant qualities, usually at once giving case." Local weakness of the back, breast and side, always benefited, thus curing lumbago in a few hour-

sometimes in a few minutes. In serious heart and chest affections their use causes an absorption or evaporation of water, by which dropsy of the heart and hydro-thorax have ur doubtedly been cured. They appear to have a peculiar effect upon

the nervous, allaying irritability while supplying warmth. They seem to accomulate electricity, and aid the circulation of the blood through the part where applied, by which healthy actions are induced! The Porous Plasters are flexible, and found

of great help to those who have weak back. or pains in the side. Especially are they valnable to those who have neglected colds. They are often preventives of consumption; nav. limate whey should be worn on the breast, or cetween the shoulders, or over the kidneys, by bhose who are subject to take cold easily. This simple plan will soon produce constitutional vigor that will enable one to resist extraordinary changes of temperature. Experience has proved the Porous Plaster to be a blessing in the consumptively inclined, invariably prod ing the most remarkable abatement of the

worst symptoms. Principal Agency, 291 Ca al Stre : New York troy; and for sale Ly all
