With an advance of twenty to one hundred per cent, and more, in the price of staple food, the above is now a most important question to over forty millions of people, and one of much interest to seven or eight millions more. Probably there are two millions who take no thought or care as to the cost of their daily diet. Meats, flour, potatoes, corn meal and milk, are the main articles of sustenance for the great masses. Fish, rice, beans and out meal (recently) with lesser amounts of some other articles, are consumed; but these altogether do not, we judge, constitute one-tenth of the food of the entire people, perhaps not more than five or six per cent.

Dried or smoked beef, ham and cheese, rank high, but dried fish outranks all others. The nutritive value Congress. of dried codfish is remarkable, and it deserves special attention, one hundred pounds of it supplying as much nutriment as three hundred and forty-one pounds of beef! It is cheap and abundant everywhere, because Star. very portable and casily kept. The occupation of any class of persons has much to do with deciding the most economical foods. It is estimated that in a temperate climate an average man needs each twentyfour hours, simply to sustain life without increasing his weight, about eleven and a half ounces of heat-producing and four and a quarter ounces of flesh forming foods. because most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (in the bean, not ground,) bearing our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 41," mild and rich. One or the other will suit every taste. They have the three great points, good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packoff with any other kind-your own palate

Health is a great blessing. Disease is a want of ease, and without the easiness and comfort of health, what is wealth worth? What happiness can there be in life? If we are not well, it is a blessed thing to know how to regain health. I offer this knowledge, freely and without price, to the whole world: "Take PRANDRE HS VEGETABLE PILLS whenever you are sick." It is now nearly flux years since I introduced these pills to the American people, and, after using fifty millions of boxes, the verdict of the great jury of American sovereigns , that they are the best and salest

bleeding, which was found in very general me in this country fifty years ago. I said that the one was poisonous and the other a murderous treatment, the remedial power of nature had not only to care the disease, but to eradicale mercurial poisons and supply new streams of blood to exhausted patients. which was too much for any constitution; that my plan of treatment was to remove disease by purifying the blood with Brandreth's Pills, for when the blood was thus made pure, the medical force of nature came into full play, and, unless God willed otherwise, the patient was sure to re-cover. Brandreth's Pills assist nature in all her efforts. It is nature that cures disease and not medicine. Every other course of treatment only throws great obstacles in the way of the constitution. I am happy to say that bleedng, which I said was always improper, has been generally abandoned by the medical profession, and that the poisonous qualities of mercury have been so far recognized that the use of it has been forbidden in the United States Army, by the Surgeon General. In the calendar for 1881, I publish numerous cases of cures by Brandreth's Pills, some of them so remark-534 A.M. able as to be little short of miraculous: But they are true, and the witnesses can be seen and consulted. If Brandreth's Pills were used in every family, each box would be a magazine
