The Senate has at last passed a bill for regulating the counting of the votes for President and Vice-President, and for the decision of questions arising thereon. It embodies substantially the principle of the bill originally introduced by Senator Edmunds, vesting the canvassing and returning power solely in the two houses of Congress. It leaves to each State the right, and puts upon it the duty, of deciding any dispute which may arise as to its electoral vote, and requires the separate concurrent action of both houses of Congress to reject the undisputed return of any State.—*News & Observer.*

The voters up in Rhode Island have their price apparently, and cheap they are to-be-sure. A Providence paper says: "It is no secret that about 100 votes were purchased openly and outright in our town last week, the price ranging from $10 to $25 each." That such a thing can occur in this State is a disgrace, and if the General Assembly does its duty it will set an immediate investigation on foot and make such an example of those whom it finds guilty of bribery that in future the purchase of voters will at least be conducted less openly."

A teacher giving her class their first lesson on opposites, found it difficult for the children to understand it, and illustrating from the word "sugar" and its opposite, "vinegar," thought she had made the difference intelligible. "What is vinegar?" she inquired. "Sour," was the response. "I think you understand now. Please tell me what is the opposite of polite?" A cloud of hands was raised, and a chorus of voices exclaimed, "Sour."

GOOD COFFEE.

Everybody wants it, but very few get it, because most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (*in the bean, not ground*) bearing our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 41," mild and rich. One or the other will suit every taste. They have the three great points, *good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41."* Do not be put off with any other kind—your own palate will tell you what is best.

Where persons desire it we also furnish the *"Ideal"* Coffee pot, the simplest, best and cheapest coffee-pot in existence. Grocers who sell our Coffee keep them. Ask for descriptive circular.

Respectfully, &c.,
H. K. & F. B. THURBER & CO.,
Importers, Wholesale Grocers and Coffee Roasters, New York.

P. S.—As the largest dealers in food products in the world, we consider it our interest to manufacture only pure and wholesome goods and pack them in a tidy and satisfactory manner. All goods bearing our name are guaranteed to be of superior quality, *pure and wholesome*, and dealers are authorized to refund the purchase price in any case where customers have cause for dissatisfaction. It is therefore to the interest of both dealers and consumers to use *Thurber's brands.*

Practice in Supreme Court of the United States, Supreme Court of North Carolina, Federal Courts, and Counties of Mecklenburg, Cabarrus, Union, Gaston, Rowan and Davidson. Office, two doors east of Independence Square. 33:tf

Judge Bond again comes to the front in a very unenviable light. Long ago he earned the epithet of the modern Jeffreys, and now after a decade, he steps up briskly to the work of organizing a court to convict. Under our system of jurisprudence it is declared that men charged with crime shall have their case passed on by two juries, first the grand jury and next the petty jury. Judge Bond has dispensed with the grand jury in the cases of the persecuted South Carolina election officers, and they have been required to plead without any grand jury finding a true bill against them. There has been a practice allowed in some minor cases justifying this, but it is a bad practice, one not known to our State laws. Not content with that Judge Bond has allowed the District Attorney in effect to pack the jury in these cases. That officer, when the first juror was called, seeing that he was a white man, told him to stand aside. He claimed the right to make jurors stand aside without assigning any cause. When the attorneys for the defense remonstrated and cited the State law, the State decisions, and the decision of that very court when Chief Justice Waite sat with Judge Bond in the Ellenton riot cases, Judge Bond sought to evade a decision. But the attorneys for the defense were unwilling to abandon their right and they pressed their point, and stated that every decision in the Unite States court was in their favor; that even Judge Bond did not dissent from Chief Justice Waite's decision in the Ellenton cases when delivered in his presence, and urged an immediate decision. Judge Bond replied that he decided in the kuklux trials (1870) that the District Attorney had the power now claimed. He did not, he said, dissent from the Chief Justice's decision because it would have been useless, and he and Judge Bryan did not wish to deceide this point now, in deference to the Chief Justice, whom they did not wish to overrule, but if the counsel for the defense must have a decision they would reaffirm his (Judge Bond's former opinion in the kuklux trial.) After that the attorneys for the defense submitted. From that episode we see that Judge Bond is again on the rampage, as he was in the kuklux trials, and that he will if need be, overrule the Chief Justice, against all precedent, when necessary to convict. And so it happens that the defendants now being persecuted are to be tried without the intervention of any lawful jury, but with the modern Jeffreys as the judge.

The Republican Party and the Negro.

The logic of the position taken by the Republicans in the reconstruction laws and the constitutional amendments adopted after the war, is reversed entire in the anti-Chinese legislation. It shows that the negroes were not made citizens from any love of natural justice, but upon a mere calculation of partisan advantages. In like manner the Chinese bill was passed, not because the Republicans believe that the white labor of the country is entitled to any protection from Mongolian competition, but because they believe it to be absolutely necessary to save the Pacific States to the party in the next Congress at the next Presidential election.

But it is now very clear that many of the Republican leaders are heartily sick of what they call "negro experiment."

It is not at all impossible that in the course of a very few years, the freedmen and their descendants, to whom the elective franchise was given to serve a Republican party purpose, will be compelled to look to the Democrats mainly for protection in the exercise of that privilege. Ignorant, innocent, confiding and bewildered by the sudden acquisition of a great power, the blacks listened to the carpet-bag emmissaries of their supposed friends at Washington: and now all the crimes of the reconstruction period are charged up to their account.—*N. Y. Sun.*
