

Ex-Gov. Holden is recovering from his attack of paralysis.

Northern butter retailing in Raleigh at 40 cents. It has been higher.

SMALL POX.—Five new cases at Atlanta, and about 40 a day in Cincinnati, last week.

The largest number of fires has been found to start from the careless use of matches, smoking, lights, and hot ashes.

Wanted—a machine that will separate the mashed cranberries from the solid ones, and another to harvest the berries.

Rev. Dr. Leroy M. Lee, one of the oldest members of the Virginia Conference, died at Ashland, Va., on Friday, aged 74.

Prof. Tindall announces that consumption is caused by a parasite. Will the Professor now find a way to kill it.

One of New Hanover county's insane has returned to the county asylum after a residence in the State asylum of 26 years.

If reports be true China will be vastly more benefited by contact with progressive and enlightened nations than they by her.

A mob at Greentown, Ind., hung a man who had been acquitted of murder on the testimony of a negro. The negro is said to be in danger of a similar fate.

Cotton packing has been made the subject of careful investigation by the New York Cotton Exchange, the results of which shall be given in our next.

The floral tributes employ'd at Garfield's funeral, are a subject of litigation in Chicago. They are stored in the office of a justice of the peace until the suit is decided.

The bill in Congress for improving the Mississippi river, and the Tariff Commission bill, continue to engage the attention of the two Houses.

Capt. Fred Norman, who has crossed and re-crossed the Atlantic in a 16 foot boat, now proposes to go in one 12 feet long, 4 feet wide and 2 feet deep; and go alone and work across with oars.

Keely's backers have been trying to make him tell the secret of his wonderful (impracticable) motor. The court decided that he must comply with his contract to reveal it, but it does not seem that he has obeyed the order.

The Oxford Free Lance defends Senator Ransom for retiring the "great gift take" on a salary of \$13,000 a year, by appealing to the Senator's past record as a useful member. Let the Senator himself explain.

The Oxford Free Lance announces the failure of Col. W. F. Beasley to build the Granville Railroad. The Colonel is said to be willing to surrender whatever interest he may have in the property to parties who will agree to build the road.

The Bonitz Hotel, Goldsboro, N. C., was totally destroyed by fire on the morning of the 24th. Cause: defective fire. The fire began in the top. Loss, over insurance, \$4,000. Most of the furniture was saved in a damaged condition.

The election trials before Judge Bond in South Carolina, although conducted without regard to the established usages of the Courts in this country, do not seem to accomplish the end evidently aimed at, so far. The result of the trials had are of little importance.

Gen. Harbut, minister representing the United States at Peru, died suddenly at Lima, on the 27th March. He was preparing to return to the United States and was taken suddenly ill of some affection of the heart just after breakfast and died in twenty minutes.

Agricultural papers are urging farmers to cultivate upland rice, which they assert is more than twice as remunerative as corn. It is planted in rows two feet apart, and in hills 12 or 15 inches apart, so as to admit the hoe in cleaning out grass. The white or upland variety may be raised on any land fit for corn or cotton, from the seaboard nearly to the mountains.

The Clyde built ocean steamer "Stirling Castle," is claimed to be the fastest steamer in the world. In a recent trial she averaged 21 3-10 miles. She had 3,000 tons dead weight on board. Her length is 430 feet, breadth 50. Boilers of steel with 21,161 feet heating surface. Working pressure 100 lbs. to the square inch. Her propeller (of manganese bronze) 22 feet 4 inches in diameter, with a maximum revolution of 66 per minute.

A terrible rain storm in the region of Augusta, Ga., on the 23d. Estimated rain fall 5 inches. At Shreveport, La., the storm was accompanied by destructive winds.

A fearful cyclone struck Bibb county, Ga., Saturday night. One man killed and great loss of property.

A tornado at Monticello, W. Va., on the 23d, killed 15 people and wounded 30.

"WINE OF CARDUI" four times a day makes a happy household.

Strongest Man in the State.

Some of our Democratic contemporaries are looking around for an available candidate for "Representative at Large." The Hon. W. M. Robbins is the man that fills the bill. We have no man who can so thoroughly enthuse the people by his eloquence, as he. With the people, Major Robbins is the strongest man in the State.—General Register.

The Register has "hit the nail on the head." Major Robbins stands next to Senator Vance, before the people of Western North Carolina, at least. We know of no man who can excel him in efficient public speaking. No better man can be put in the field for "Representative at Large," or for any public service the people may want.

The Goldsboro Star, conducted by negro men, is heavy on Geo. B. Everitt, collector of revenue in the 5th District. They seem to hold him in utter contempt, notwithstanding they report him as saying (while on the road to the Goldsboro Convention), "that he wanted to be treated as a colored man in the convention and that he wanted the colored men to consider his claims as though he was a negro." This was too utterly egotistical and puppyish for the Star men; and followed up as it was, by a behaviour at the convention in true keeping, they despise him and kicked him with a scorn eminent in keeping of their estimate of the subject. We glean the above from publications in the Union Republican, of Winston, April 20, which paper copies them with evident satisfaction.

This Everitt, Tom Cooper and Mott are the foremost men in the "liberal movement" in this State, whom the Democrats of North Carolina are invited to join in forming a "new party." "Singing psalms to a dead horse" is real sensible as compared with such an invitation.

"NO GOOD COMES OF FOOLING."—We do not know the author of this combination of words, but we do know the sentiment is true. We have a case in point of recent occurrence in Charlotte:

A negro man entered a bar room Saturday, and got a drink of liquor as he had often done before. He and the barkeeper were on friendly terms, and the latter it seems, was in the habit of having some fun out of his good natured customer. On this occasion the barkeeper, after the man had drunk and was leaving, suddenly concluded to frighten him with a pistol, which he took from a drawer, and in running around the corner of the counter as if very anxious to shoot his customer, stumbled over a box in his way, by which the pistol was fired, the ball entering the back of the poor fellow. At ranged towards the upper part of the man's heart, perhaps cutting it a little, and lodged under the skin in front, producing almost instant death.

So much for "fooling." The barkeeper did not know that the pistol was loaded—thought it was not. Nor was he knowingly pointing at the man when it fired. His harmless intention, however, all went for nothing, and he must carry through life the sad reflection of having slain a fellow man by his invertebrate habit of "fooling."

COTTON SEED ROLLER.—The "Southern World" illustrates a very simple machine for rolling cotton seed. It consists of a good iron round barrel with an iron shaft running through the two heads from end to end, on one end of which shaft is fixed a crank and handle, and the barrel is mounted on a frame like a grindstone, resting on the ends of the shaft. A hole is cut in the barrel 8 or 10 inches square to admit the cotton seed. Turn in about two bushels of seed and pour on them a bucket of water. Close the door (with the pieces sawed out in making it) and turn the barrel back and forth until the seed are wet. Turn the door down (it need not be water tight) so that surplus water will run out. Now add about ten pounds land plaster, fine charcoal dust or ashes as a dryer and turn the crank for 10 or 15 minutes, and the seed will be separated, coated, and ready for dropping in the drill.

BAPTIST VERSION.—The Baptists held a meeting in New York, Tuesday, April 12, for the purpose of forming an organization to print and circulate the Bible, (translated as they think it ought to be), in this and foreign countries. This is the result of non-agreement between the American Bible Society and Baptists in respect to the interpretation of the Greek word "baptizo." The Baptists insist that the interpretation should mean "immersion," whereas the St. James version, issued by the Bible Society, is the only version it is, by its charter, allowed to issue. For this reason the Baptists have withdrawn all connection with the American Bible Society, and have resolved to make a version of their own.

GREENBACK MOVEMENT.—John R. Winston, Chairman North Carolina State Committee, of Milton, N. C., has issued a circular announcing that Hon. Jesse Harper, of Illinois, and John R. Winston, will address the citizens of North Carolina on State and national politics, in May next. These gentlemen are laboring in the interest of the "Greenback" party, and will devote their efforts to capture new members. They are anti-monopolists and profess great concern for the laboring people in all of which Democrats thought out the South heartily concur. They are beginning with a falsehood, however, and the Democratic people of North Carolina will see how they progress.

The \$6,000,000 appropriation bill for the improvement of the Mississippi river passed the Senate on the 25th. The Chinese bill came up next, but after votes on certain amendments went over.

Hon. JAS. A. McKENZIE, one of the Representatives of Kentucky, stirred the House last Thursday with a ringing speech against the Tariff Commission bill. He thinks those who vote for it ought to pay the cost of it. Thus: "I say to you gentlemen over on that side of the House that if this bill becomes a law by your vote, in all conscience you ought to contribute out of your salaries enough to pay the expenses of these nine civil war experts. You were sent here to revise this tariff. You were elected to devise ways and means for carrying on this Government. If you admit your incapacity and delegate your powers and prerogatives to nine paid civilians, by every principle of common honesty known among men you ought to pay the expenses yourselves. That would make an enormous difference, I take it, in the votes on that side if it were tacked on as an amendment." [Laughter.]

COTTON PACKING.—Again it is asserted that there are frauds practiced by Southern cotton packers. The Wilmington Star thinks there may be 500 such bales in 500,000. Suppose that to be true, it is not just to set it down to the account of the original packers until the fact be proven on them. They have no stronger motive to practice fraud than those who handle the bales after they leave the gin. The speculators in the centers of trade dealing in cotton are untried as many, and sometimes more, temptations to perpetrate fraud than those who gin and pack; and they have as good or better facilities for concealing the fraud. Ordinarily at gins in the South there are persons who would leak such a secret in less than a fortnight after it was perpetrated.

And yet it must be admitted that there are now and then dishonest packers on the plantations who are foolish and wicked enough to pack in stones, sand, or water. Indeed, we have heard of one or two such cases as occurring in this country. But the fraud was discovered by the cotton weigher, Mr. Williams, who, by the way, is the right man in the right place, and the perpetrators suffered loss as a righteous consequence.

We think this subject should receive the attention of the next Legislature, and some action be had by which to check this kind of dishonesty. It is due honest men to protect their interest as far as possible, and regulations to secure this end should be provided. Bales bearing the packer's name, with place of residence, would help to identify packers, would require very small additional expense, and answer as good a purpose as mill brands on sacks of flour. It would subvert the general interests of cotton planters to institute regulations by which discovered frauds could be easily and speedily traced back to those who perpetrate them, and we think it would not be difficult to devise and establish them.

No less than 20,000,000 lbs. Oleomargarine, or patent butter, was produced in this country last year; and the sale of it is becoming so large and so general as to alarm the dairy men of the northern and northwestern States, who are importuning Congress to levy a tax of ten cents on the pound in order to protect them. Good genuine butter is selling in the City markets at from 45 to 50 cts. a pound. None but the rich can afford to use it. Oleomargarine has been pronounced an excellent substitute; indeed, few can tell the difference; and at a less price affords an important addition to the poor man's table. A sub-committee of the Ways and Means Committee has reported a bill in compliance with the petitions referred to. Congress should content itself with requiring the manufacturers of the patent butter to stamp each package so as to show what it is and who made it, and let it take its chances.

Some popular interest has been excited in New York by the recent capture of an adult baleen whale off the shores of that State. It is an almost extinct species, and hence is called a rediscovery. It was known in the early settlement of the country as the black whale—was very numerous and valuable, and for the latter reason was pursued and captured until the species became extinct, or migrated to safer territory. This recent capture has afforded scientific men the opportunity to make a thorough examination of the creature and put on record what was never before done, an accurate description. The tail in this specimen measures from tip to tip of its flukes, 16 feet; each fluke 10 feet long, the head smaller than in the other species, being one-fifth the length of the whole body. It is described as very graceful and more active than other whales.

THE MIDLAND N. C. R. R.—Mr. W. J. Best, president of this road, has mortgaged it, together with everything appertaining to it, for \$10,000,000, to the American Loan and Trust Company of Boston. By the terms of the lease the Road is to be finished to Salisbury within three years. Mr. Best retains the presidency of the road for the present, at least. There are likely to be some contentions with parties who hold other mortgages, but it is probable that the road is in a fair way to be completed and put in connection with coasting and sea-going steamers thus opening up a new avenue to trade.

T. N. Cooper's nomination for Collector in this District in the place of Dr. Mott, has been confirmed. North Carolina Senators having obtained the passage of Vance's resolution to investigate the official transactions of Collector Mott they ceased to oppose the confirmation of Cooper, having no personal objection to him.

Richard C. Badger, of Raleigh, is dead. He was a man of acknowledged ability—the son of the late Hon. Geo. E. Badger, of whom Mr. Webster once said—"he is my superior."

The Washington correspondent of the Charlotte Observer, April 24th, undertakes to explain Senator Ransom's vote to retire Gen. Grant on a salary of \$13,000 a year thus:

It was a stroke of policy, his friends here think, for him to have voted as he did, for in return he has gotten much support for measures that more closely interested his people than would the placement of Grant in a snug berth. And, again, it was a foregone conclusion that the bill would pass. Had it required Senator Ransom's vote to have decided the matter, it is safe to say that he would have been found voting differently from what he did.

Democratic State Committee Called to Meet May 3rd.

At a meeting of the Central Executive Committee of the Democratic party, held this day, at which the following members were present; Octavius Coke, chairman; Paul B. Means, L. D. Stevenson, C. M. Busbee, Richard H. Battle, Jr., Geo. H. Snow and J. J. Litchford, Secretary, it was moved to call a meeting of the State Executive Committee to be held in this city on Wednesday, the third day of May, for the purpose of fixing the time and place for holding a State convention of the Democratic party, and transacting such other business as may come before it. A full attendance is desired.

By order of the committee, J. J. LITCHFORD, Sec'y.

The Democratic papers of the State are requested to print the above call.

The following gentlemen compose the State Executive Committee:

- First district—T. R. Jernigan, J. E. Moore and R. W. Wharton. Second district—A. J. Galloway, R. B. Peebles, Benjamin Askew and Henry R. Bryan. Third district—Appleton Oaksmitth, Isaac B. Kelly, H. B. Short and D. H. McLean. Fourth district—W. H. Yarborough, J. M. Moring, J. S. Battle and N. B. Cannady. Fifth district—A. E. Henderson, David S. Ried, M. S. Robins and C. F. Lowe. Sixth district—J. G. Hall, S. J. Pemberton, John D. Shaw and W. J. Yates. Seventh district—R. Z. Liney, W. B. Glenn, J. C. Wilburn and G. A. Bingham. Eighth district—Cope Elias, R. M. Furman, B. F. Logan and A. M. Erwin.

PITTSBURG, April 21.—Later details from the yesterday's tornado at Mt. Pleasant increase the magnitude of the disaster. Everything above ground in the track of the storm was carried into the air. One large barn was so completely disappeared that not a splinter of it can be found. One man found his wife dead near their house with their eleven months old child in her arms unhurt. Two other children were so badly burned from their clothes taking fire that they died; they cannot account for the flames. Two other children of the same man will probably die from similar burns. The track of the storm was narrow and through a sparsely settled region.

THE MUTUAL INSURANCE ORDER OF THE KNIGHTS OF THE GOLDEN RULE.

The order of the Golden Rule closed its charter on Monday evening, with a membership of 37, including seven lady members. The cost of initiation here after will be Ten Dollars for male members and Five for females. This amount will cover all expenses of becoming a member of the order. All persons of good moral character, males over twenty-one, and females over eighteen years of age, who can stand an approved medical examination may apply for membership. For further information in regard to the order, apply to James M. Gray, District Commander, or Lee S. Overman, Commander of Castle Fisher, No. 227.

Beauty, health, and happiness for ladies in "WINE OF CARDUI."

SALE OF LAND!

Subscribe for Carolina Watchman only \$1.50 pr year in advance. 21:4t

New Goods! KLUTTZ & RENDLEMAN Have now their entire Stock of New Spring and Summer Goods WHICH THEY ARE SELLING VERY, VERY CHEAP AND AT ONE PRICE TO ALL.

Their Dry Goods, Notion and Clothing Departments have been selected with great care as to quality and Beauty. New Stock of Shirts and Underwear; SHOES, BOOTS and SLIPPERS as cheap as any in the market—the assortment large LADIES' and MEN'S HATS MUCH CHEAPER THAN EVER BEFORE.

ALLISON & ADDISON'S "STAR BRAND" COMPLETE MANURE FOR TOBACCO, CORN AND COTTON.

No fertilizer ever introduced has undergone severer tests, or come out of them with a better record, than the "STAR BRAND" COMPLETE MANURE. It has been in use in Virginia since 1873, and during that time has been applied to all kinds of soil under every variety of season. Evidence that it has given general and great satisfaction is found in the fact that since its introduction over 20,000 TONS have been sold in this market alone; and also in letters and certificates from 5,000 Farmers and Planters.

By its Use the Consumer Gets the Greatest Benefit from the Smallest Outlay. An ordinary application of this Guano will cause an increase of 100 to 200 per cent. in quantity—at the same time improving the quality and hastening the maturity of the crop. It is especially adapted TOBACCO PLANT-BEDS. Its use promotes growth, prevents the attacks of the "fly," and makes healthy, stocky plants with thick leaves and an abundance of roots, which bear transplanting much better than those raised with Peruvian Guano.

A SUCCESS AT LAST. A GOOD WASHING MACHINE. INVENTED AND PATENTED BY T. J. MERONEY, SALISBURY, N. C.

THIS MACHINE is a plain wooden tank lined with copper or galvanized iron, with perforated pipes in the bottom for the admission of steam, with corrugated rollers, made of same metal, and of sufficient weight. This Roller gathers the air while passing back and forth over the clothes, forcing air and water through the fabric. At same time the steam is thrown up through the perforated pipes underneath from the bottom of the tank. There are wooden strips between the pipes so as to protect them and keep a smooth bottom in the tank. The process is simple; any one can operate the machine. First, soap the clothes and distribute them evenly about four or five inches thick in the tank. Turn on enough water to cover them—turn on steam, and move the Roller back and forth until the water is colored. Turn the valve and let the water pass off. Add fresh water, and repeat this three or four times, and you find the clothes are thoroughly washed without the slightest injury, for there is no rubbing process employed, the Roller having rounded edges so as to prevent any wear or cutting. A lace handkerchief can be washed as well as a bed quilt. This Machine is in operation at Meroney & Bros. Machine Shop, where they operation can use one of my machines at small cost as possible. Any one having a steam boiler can use one of my machines at small cost and with satisfactory results. One person can do the work of ten wash-women in one day and do the work better.

J. R. KEEN & CO. SALISBURY, N. C., Manufacturers' Agents For the Sale of Engines and Boilers of all sizes and styles—NEW and SECOND HAND. Also—Saw Mills and Machinery generally. Correspondence solicited. Sub-Agents wanted. Mention where you saw this notice.

1882. SOLUBLE PACIFIC GUANO, MANUFACTURED BY THE PACIFIC GUANO COMPANY. THE LEADING COTTON FERTILIZER. The oldest and most reliable brand sold, and of the highest grade—the commercial value being several dollars higher than nineteen-twentieths of the fertilizers in North Carolina. No fertilizer has given greater satisfaction on general crops and all kinds of land than the "Pacific." For the last sixteen years it has been sold in Rowan and adjoining counties. It is offered you again this year at same prices asked for the inferior grades. THE COMPOUND ACID PHOSPHATE, (Manufactured by Pacific Guano Company.) Is of the highest grade and for COMPOSTING it has no Superior, and in case you have not enough time for making up compost heap, it can be done in the drill after paring your ground and let lie, covered, until planting time. J. ALLEN BROWN, Agent. (Office front room over Crawford's Hardware.) 21:4t
