

LOCAL.

THURSDAY, MAY 25, 1883.

NEW TERMS.

From and after the 1st day of January, 1883, the subscription price of the Watchman will be as follows: One year, paid in advance, \$1.50; payment delayed 3 months, 3.00; payment delayed 12 months, 2.50.

Some of our citizens are contemplating getting up exercises for the 4th of July. No bad idea—a blow out would help the town.

Commencement exercises of Thomasville Female College will take place Tuesday, June 6th. Literary address by Rev. N. B. Cobb—Concert at 8 p. m.

School Exhibitions and College Commencements will be the order of the day for some weeks. Some of our citizens are absent this week on occasions of this kind.

Capt. Tom Beall was boasting yesterday after this fashion: "I have corn in tassel and shall have beans for dinner to-day—so much for using Merryman's dissolved bone."

COOL WEATHER.—The thermometer has ranged from 48 to 55 almost every morning for some weeks past—raining up during the day to a more comfortable degree. Vegetation has been hindered by the low temperature of the nights.

LIFE'S CLUB.—Those who have been taking the WATCHMAN in the party known as "Life's Club," and wish to continue the paper next year, are requested to report to Mr. W. A. Lipe by the 1st of June, either in person or through the Post Office. The new year of this Club begins June 5th.

Attention Salisbury Rifles!! You are hereby ordered to meet in the Armory for drill, and balloting on new members, next Tuesday evening, May 30th, at 8 o'clock sharp. By order of THEO. PARKER, Capt. J. L. BROWN, O. S.

A good many farmers in this and counties adjoining, are plowing up their cotton, and planting corn. The cause of this was the cold weather which killed the germ of the cotton. Some few discovered it in time to put in fresh crops of cotton. Wheat and oats crops are all that could be desired in reason.

Sixteen wagons, besides buggies and carriages, bore nearly two hundred children, the precious pride of the Methodist and Presbyterian Sunday schools, to the "flat rocks" beyond and a little to the right of "Dann's" Mountain, where they are to enjoy to-day such innocent and gleeful amusements as are wont to be practiced at picnics. We wish the young people and those who have them in charge a joyous day.

Rev. R. L. Dabney, D.D., of Union Theological Seminary, Va., will deliver a discourse to-night (May 25th) in the Presbyterian church of this city. Our people are acquainted with this distinguished divine, and will no doubt avail themselves of this opportunity to hear him. He is endeavoring, by his presence and addresses, to awaken a deeper interest in the church, in the matter of increasing the number of candidates for the ministry. Come out and hear him.

WEEDS.—It is a good time to kill them and destroy the crop for next year. The dog fennel Canada thistle and jimson, especially the two first, are already beginning to bloom and will soon be dropping their seeds. It will then be too late to prevent a crop for 1883. It is comparatively easy to cut the green stalks with a mowing sythe just now, but heavy work after they have hardened. Look to the back lots and back streets. Last year the Commissioners cleaned up the back streets, but were too late about it, the weeds having gone to seed. Now is the time to strike them.

30TH OF MAY CELEBRATION.—The Republicans of Rowan have issued a notice for Decoration Day. The procession will start from the African M. E. Church at 12 o'clock, M., and march to the National Cemetery with banners, bouquets, and music, and decorate the graves of the Federal dead there reposing. Thence back to the Court House, where Col. O. H. Doekery, Judge T. Settle, Hon. Thos. B. Keogh and Dr. Ramsey are announced as invited to deliver addresses.

A TREE SNAKE STORY.—An extraordinary incident happened last Sunday at the house of Mr. Peter Ronche. He was sitting on the back piazza reading, while his little son, less than two years old, was peering around in the front yard or front piazza. He heard the child laughing and presently the little fellow came running through the house in great glee, having in its hands a copper head snake. He had grasped it with one hand about three or four inches below the head, while he held its tail with the other hand. The reptile was wriggling to get away, but the child was too well pleased with its play thing to let it go. The father was greatly astonished and alarmed, but made a lightning dash at the snake and sent it out into the yard. It was about 20 inches long, and, as is well known, one of the most dangerous serpents of this country.

"BLACK-DRAUGHT" cures constiveness and Sick-Headache. At Theo. F. Kluttz's.

DIAMETER AND CIRCUMFERENCE.—There is a slight difference between the meaning of these two words. One signifies a right line passing through the centre of anything, as through a tree, a rock, a pumpkin or a strawberry. Whereas, circumference means a line passing around on the outside of the thing measured. We are thus particular in defining these terms not for the purpose of re-affirming the dimension of strawberries mentioned in our last, but to say that the line was drawn around not through the luscious fruit. In other words, the strawberries were not as big as pine apples but only about the size of a hulled black walnut.

DEDICATION.—Rev. Dr. Nelson, of Shelby N. C., assisted by the pastor, Rev. Mr. Boone, conducted the services last Sabbath in the new Baptist church of this city, in which the neat and handsomely finished structure was solemnly dedicated to Almighty God. The services were both interesting and instructive, and the sermon preached by Dr. Nelson, from the text—"So mightily grew the word of God, and prevailed," was delivered with clear logical force, and listened to with deep and attentive interest by the large audience present. The Doctor is also an excellent vocalist, and assisted at the organ by the artistic touch of Miss Doggett, added a solemnity to the occasion which is only realized under the soothing strains of good music.

After the sermon a collection was taken up to aid in the liquidation of the amount still due on the building by the little flock of faithful worshippers composing the Baptist congregation of Salisbury, by which about \$200 were raised. The services are to be protracted through the week and are held daily commencing at 4 and 8 o'clock P. M.

Charlotte has completed the 107th Celebration of the Mecklenburg Declaration of Independence. The people of Mecklenburg, and the citizens of Charlotte know just how to get up these celebrations and how to entertain their visitors. They see the importance of drawing large crowds to their city at stated intervals, thus making the people of all sections acquainted with the extent of their resources and business facilities—and training as it were the people in the habit of going there to have their wants supplied. There is no better way of advertising than that and the people of Charlotte are fully aware of its advantages. This view of the celebration, aside from the patriotic spirit that influences so many, certainly forms no small part of the grand result. The money left by visitors and the good impression left on them by the people of Charlotte, bring forth fruit of a nature flattering to trade in all its branches.

We wish our people would grasp the truth as it appears, and act on it with united perseverance. Then we should see vitality rise in its night and crush lagard lethargy from our midst.

A number of towns and cities in this State celebrate the 10th of May, with memorial exercises over the graves of those who were the gray, and lay down their lives in defence of all that was dear to them. It behoves their comrades, and those who loved and lost to pay honorable tribute to the memory of those brave men by proper memorial ceremonies. There are quite a number of Confederate dead in our cemeteries, and some few are scattered in fields and fence corners.

We suggest that our ladies organize a memorial and monumental association for the purpose of raising funds (in various ways) to defray the expense of removing those who rest unknown and unmarked to the side of their comrades, and then exert themselves to erect a suitable shaft to their memory. Under the auspices of this association, memorial services would be annually observed.

We mention the ladies because they have ever been foremost in work of this kind; assuring them that there are men at their elbows who will do all in their power to further a cause so laudable. Let some effort be made at once, so that we may celebrate next memorial day.

MARRIAGE BELLS.—Fashionable marriage in Hillsboro. Miss Julia E. Strudwick of Hillsboro, N. C., was married on the 18th instant to W. B. Meares, Jr., of Linwood, N. C.—ceremony in the Presbyterian church at 2 o'clock.

The waters were as follows: W. Martin of Charlotte, waited with Miss Annie Strudwick, Gaston Meares with Miss Mamie Nash, of Hillsboro, Douglas Brown of Salisbury, with Miss Janie Hall of Oxford, N. C., Mr. Thomas Fields of Baltimore, with Miss Miss Lizzie Curtis, Mr. Edward Strudwick, with Miss Essie E. Meares of Linwood, Mr. Stirling Ruffin, Hillsboro, with Miss Annis Meares of Linwood, Mr. Will Strudwick with Miss Bessie Cain of Hillsboro, Mr. Robert Strudwick with Miss Mary Collins, Stirling Cain with Miss Katie Pratt of Winesboro, S. C., Stirling Cain and Mr. Will Erwin of Company Shops, were the ushers. There was a handsome collation served at the home after the ceremony—the presents were numerous and handsome. The bride was beautifully dressed in rich white silk. All the bridesmaids were beautifully dressed and were very charming young ladies. A handsome set of groomsmen could not be gotten up anywhere. The happy pair boarded the 6 p. m. train for Linwood, N. C., where they arrived safe at 10.30. And after spending a few days—left on a bridal tour of six weeks for the mountains of Western North Carolina.

"WINE OF CARDUI" makes rosy cheeks and clear complexions. At Theo. F. Kluttz's.

MINING INTELLIGENCE.

T. K. BRUNER, MANAGER.

Mr. F. K. Bock, 8 miles west from Newton has sent us specimens from his property.

Thanks to Mr. Floyd, Supt. Southern Belle Mine, for specimens of ore left with us.

LONG MINE.—Mr. G. W. Long has brought in specimens from his mine—vein 6 feet—down 36 feet. Ore is brown, mixed with pyrite—pans well, showing free gold—This mine was not mentioned in the list of mines in this county—9 miles East.

We are now publishing lists of the mineral lands of all the Counties which compose the "mineral belt." The object of this is to give the public some idea of the real extent of mineral in this section—very few are aware of its extent or value.

Stany County Gold Mines.

The following list comprises the most important mineral properties in Stany. Some of the properties are very valuable. The distance and direction are reckoned from Albemarle the county seat.

LIST OF MINES.

- Barringer mine, 10 m. N. W. Owned by a Northern Company.
- Biles, 7 m. N. E., Mrs. Elizabeth Biles.
- Crowell, 9 m. N. E., Crowell Gold Mining Company.
- Cucumber, 15 m. S. W., Dan'l Reap.
- Oraten, 15 m. S. W., Heirs of G. D. Whitley.
- Curlye, 7 m. N. E., Chas. G. Viel.
- Eudy, 10 m. W., John Eudy.
- Furr, 8 m. W., Ransom Furr.
- Haines, 10 m. W., Dr. Haines.
- Harrell, 15 m. S. W., Heirs of G. D. Whitley.
- Hatchcock, 3 m. S. W., S. J. Pemberton and J. Marshall.
- Hearse, 3 m. S. W., S. J. Pemberton and J. Marshall.
- Honeycutt, 13 m. S. W., Wesley Honeycutt.
- Jennings Crowell, 10 m. N. E., G. W. Crowell, J. Mann and J. M. Redwine.
- Littleton, 9 m. N. E., J. R. Littleton.
- Love, 17 m. S. W., Love.
- Louder, 3 m. W., Geo. W. Louder.
- Parker, 7 m. N. E., Parker, Kirk and Miller.
- Rock Hole, 17 m. S. W., J. C. Hartsell.
- Shankel, 8 m. S. E., C. Shankel.
- Troutman, 7 m. N. E., Gilford Harris.
- Tucker, 15 m. N. W.

The annual meeting of the Baltimore and North Carolina Copper and Gold Mining Company, whose mines are located near this city, was held at No. 61 Exchange Place, in Baltimore, last Monday. President J. B. Stafford presided, and Charles E. Roberts was secretary. A very gratifying report was read from Superintendent Robinson, stating that a vein had been struck in No. 2 shaft showing heavy yields of gold and copper, more than enough to employ all the machinery for twelve months to come. After reading the reports and letters, the meeting proceeded to an election of directors, with the following result: J. B. Stafford, Chas. Voeck, Robert Alexander Taylor, Jacob H. Wight, Theo. S. Bantz, of Baltimore; R. M. Oates, R. Y. McAdeu, North Carolina. J. B. Stafford was re-elected president and Chas. E. Roberts secretary.

WHEELING, W. VA., May 24.—A conference was held here last evening between iron manufacturers of this city and vicinity and the committee of the amalgamated association of iron and steel workers. The latter submitted a new scale of wages for millers, rollers and heaters, which if adopted would govern all mills west of the Alleghenies. The manufacturers refused to sign the scale. The result will be the closing of all mills in the district for an indefinite time.

DAVISON COMMENCEMENT.—The commencement at Davison College takes place on the 15th and 16th of June. Col. Thos. Herdeman, of Macon, Ga., is the commencement orator. The members of the Emancipation Society held a meeting on the 13th to elect orators and debaters for the medals. The representatives of the Emancipation, in the contest for the debater's medal will be Mr. C. Frazer, of Decatur, Ga. Zebbie A. Morris, of Concord, N. C., will contest for the orator's medal, and Mr. C. S. Bratton, of Guthrieville, S. C., will talk for the declaimer's medal.—Char. Observer.

The Salisbury Rifles who left here last Thursday night to take part in the Celebration of the Charlotte Centennial returned Sunday, much pleased with their trip. There being no companies present having the required number in rank and file, the competitive drill did not take place. We are pleased to say, however, had there been a contest drill, it was the general opinion, that the Salisbury Rifles would have pocketed that \$100 in gold. As evidence how "the boys" were received, we clip the following from the Charlotte Observer of May 20th:

"The Salisbury Rifles had a parade and drill on the streets yesterday evening, and the handsome appearance of the men, with their quick and perfect evolutions won many complimentary expressions, and at times cheers from the crowd." The Salisbury Rifles were honored with the position on right of Battalion; and their commanding officer, Capt. Theo. Parker, made Adjutant-General on Celebration day. These honors, the gentlemanly deportment of the Company and the courtesies extended them by their comrades and friends during their sojourn in Charlotte is really gratifying. Let more of our young men, and those military inclined, enter the ranks of the Rifles. They need more men. The next regular meeting will be Tuesday, May 30th, at 8 o'clock, P. M. Let your names be proposed for membership.

Big Fishing.—Fishing on the Sounds is not to be sneezed at by any means. The Albemarle Enquirer, in a recent issue tells of a wonderful haul of herring caught at the beach of Mr. W. T. Brinkley, on Croatan Sound, a week or so ago. "From a single haul he caught and saved 450,000, although he was two days and nights in saving them working all on the beach to their utmost capacity. In addition to what were cut and saved, many were let out of the seine, or were sold at greatly reduced rates in order to get clear of them. The haul was estimated by competent judges at 600,000, and is one of the largest on record.—North State Press.

Mining Advertisements.

FOR SALE! SEVERAL GOOD MINING PROPERTIES In the vicinity of Gold Knob. Descriptions and full particulars cheerfully given. (For convenience) address T. K. BRUNER, WATCHMAN OFFICE, Salisbury. May 10, '83.

ASSESSMENT NOTICE—NORTH STATE MINING COMPANY

Notice is hereby given, that at a meeting of the Board of Directors, held on the NEXT day of May, 1883, an assessment (No. 2) of One (\$1.00) Dollar per share was levied upon the Capital Stock of the Corporation, payable immediately in current funds to the Secretary, at the office of the Company in Salisbury, North Carolina, the Branch Office, 53 Broadway, New York City, or at the MUTUAL TRUST COMPANY, 165, Broadway, New York City.

Any stock upon which this assessment shall remain unpaid on the NEXT day of JUNE, 1883, will be delinquent and will be advertised as delinquent, and unless payment is made, together with cost of advertising, before SATURDAY, the FIRST day of JULY, 1883, will be forfeited to the company, together with all previous payments, according to the charter. By order of the Board of Directors. EDWIN H. MULFORD, Sec'y.

GOLD GRINDERS.

I have several sets of Granite Gold Grinders on hand which I will sell on reasonable terms. I also furnish GRANITE MILL STONES and will deliver them at the Railroad Depot, if desired. E. E. PHILLIPS, Salisbury, N. C.

MINING PROPERTY.—Persons having mining property to sell would do well to advertise it. We propose to give room to such notices, to be kept standing under the general caption of "MINING PROPERTIES FOR SALE."

The cost of such notices will be moderate. Those having properties the value of which is not generally known, should give references to reputable persons known to be acquainted with such matters. This paper has a good circulation among mining men North, and in the State, and can be of service in the way proposed.

Blackmer and Henderson,

Attorneys, Counselors and Solicitors. SALISBURY, N. C. January 25 1879—11

Come to M. S. BROWN'S for your Clothing, Hats and Shoes!

SPRING GOODS!

OUR STOCK

To be found in our City.

Everything selected with care and nothing

bought that is not of Style.

We have in business two objects in

view:

1st, To Please Our Customers.

2nd, To Please Ourselves.

Truly, &c.,

J. D. GASKILL.

MOREY & SPERRY,

MANUFACTURERS OF GOLD & SILVER GRINDING & AMALGAMATING MACHINERY

HOWLAND'S PULVERIZER takes the place of the cumbersome Stamp Mill and can be put up in one day ready for

IT HAS BEEN FULLY PROVIDED & TESTED—

It weighs complete 1,000 pounds. It costs \$1,500 ready to go. It will crush one ton per hour of hard quartz that will pass through a 20-mesh screen. The wear is less than in the stamp mill. Its wearing parts are plain castings and can be dropped into position in a few moments, as shown by letters A, B and C. No bolts or keys are required; it can be set upon the floor of a mill with no expense for foundations, and can be used to crush and work in charges or continuous. It will amalgamate either gold or silver ore, making it a simple, cheap and effective mill; it requires 15-horse power. Stamp Mills, Rock Breakers, Crushing Rolls, Amalgamating Pans and Separators for Gold and Silver Ores, Chloridizing Furnaces, Retorts, Rock Drills, Air Compressors, Steel Shoes and Dies for Stamps, and every description of Machinery for Mining in general. Improved Double HOISTING ENGINES, WITH OR WITHOUT BOILERS, WIND OR MANILLA ROPE DRUMS. Specially adapted to Mining in general.

We construct Mills with Stamps weighing from 250 to 900 lbs. for gold and silver ores. We are Dry Crushing Mortars. Water: ms 6 and 64 Liberty Street, New York.
