

Carolina Watchman.

THURSDAY, JUNE 8, 1882.

Crop and fruit prospects in West Virginia very fine.

Dr. Tallage will be at Trinity College on the 7th and 8th inst.

All the iron mills at Pittsburg have stopped except one. The great strike begins there.

Telegrams and telephonic messages have been made to run simultaneously over the same wire in Paris.

A comet may now be seen in the northern heavens. It was first seen here on the evening of the 26th of May, about 10 o'clock.

The difference between the cotton crop of 1880 and 1881, has been nearly ascertained and is put down at 1,400,000 bales.

The inventive genius of the age has found a cheap method of making a very superior brick of blast furnace slag, bituminous a nuisance.

The second annual session of the State Normal School at Newton, will open in Catawba College Building, June 21, instant, Faculty full.

Three children were burned to death by a kerosene explosion in Alabama, last Thursday. They were attempting to re-fill a lighted lamp.

St. Paul's Cathedral, London, has got a new bell—a monster. Diameter at the base 9 1/2 feet; height, inside, 6 feet 11 inches; thickness where the clapper strikes, 8 1/2 inches. It will be rung by machinery.

Gen. Garibaldi, the Hungarian patriot, who visited this country in 1850, died in Italy a few days ago. He spent a large part of his life as a military leader in various wars.

The "liberals" of Fayetteville, through their spokesmen, Powers and Perry, declared themselves in coalition with the Republicans. That is just what the liberals have expected and designed to do from the beginning.

ICEBERGS.—There seems to be greater quantities of ice floating down from the North this year than usual. It will no doubt affect the temperature of the winds passing over it and give us a cooler summer than usual.

An English scientist, after the examination of 2500 sections of coal with a microscope has reached the conclusion that coal had not been formed by the alteration of accumulated land plants, but that it consisted of microscopic organic forms of a lower order of protoplasm.

A German chemist dissolves the revelations and waste of the silk factory in acids, and using it as a bath, can make either cotton, linen or woollen fabrics take the lustre of silk. It is said the silk thus laid on or in these cheaper stuffs holds as firmly as any coloring matter.

A farmer in the northern part of Illinois had gone down 20 feet in a well he was digging and stopped for the day. Next morning he found water in large quantities flowing out of the top of his well, and fishes of two and three pounds weight, without eyes, also coming up. The owner is going to pack them for market.

The Republican State Convention meets in Raleigh on the 14th inst. At a convention held at Statesville, May 27th, the Republican party of Iredell county adopted the "Liberal Movement" party, and pledge themselves to sustain the efforts of that party. So much for Dr. Mott's influence in Iredell.

MUTILATED COIN.—You had better not punch holes in the coin of the United States and then offer to pass it. You had better not cut, punch, or in any other way, mutilate coin, for there is a law against those who do it—Bob Vance's bill—and a grocer in New York felt the force of it the other day when the Court sentenced him to one year and ten months imprisonment and laid on him a fine of \$1,000.

EMIGRANTS.—J. W. Maguire, emigrant agent, corner of Beekman and Nassau streets, New York city, says there is a tendency of emigrants to the South, and that it will not be difficult to send them down this way if there is need for them. Persons needing laborers or artisans are requested to open correspondence with Mr. Maguire. If you have lands for sale say so, and describe the property; for many of the emigrants coming to this country expect to buy lands and become settled citizens.

The Fate of Rapists. George Ellis, a white man, was hanged to the limb of a tree near the scene of his crime, at Ashland, Ky., on the night of the 2d instant. He had two confederates in his villainy who have not, we believe, been found. They added triple murder to rape. Ellis was recently sentenced to the penitentiary for life, but before his removal was taken from prison by masked men and hanged.

A negro rapist was hung by a large body of citizens in Wimpaloro, South Carolina, Friday night last. His victim was a white woman. His crime, capture, and execution all took place on the same day.

A TRAP.—The Statesville Landmark says the Republican party has set a trap to catch democrats and has baited it with so-called democratic anti-prohibitionists. The bait was at Raleigh this week in convention, and will no doubt return prepared to do their level best to lure and deceive democrats into the trap. "Walk into my pretty parlor," said the spider to the fly.

ANNUAL CONCERT, THOMASVILLE FEMALE COLLEGE.—The Annual Concert was a grand success at this flourishing institution. The programme of fifteen selections was rendered in a manner to inspire one with the belief that the training had been thorough. Miss Ora Brewster, the music teacher, certainly excels in training her pupils to express in the rendition the sentiments intended by the author. We cannot mention all the participants, but most advent to Miss Reinhart's rendition of "Annie Laurie"—a Scotch Air. It was artistic—as full of sentiment and passion as a thoroughly accomplished, beautiful woman could make it. Miss Laura Wetmore won many handsome bouquets in "It is a Dream"—La Semaubula. Miss Merooney, of Salisbury, took an active part, and displayed much talent. The Chapel was completely filled with an audience of once attentive and appreciative. Want of space forbids further mention.

Ex-Gov. Moses pleaded guilty to petit larceny in New York, on Tuesday and was sentenced to the penitentiary for six months.

County Commissioners.

This Board met last Monday, with all the members present. The following is their action:

Aid was extended to the following persons out of the county poor funds, to wit: Wm. Felker, \$5; Betsy Myers, \$4; Cash Cowan, \$4; Nancy Holsinger, \$4; Maggie Fleming, \$6; Margt. Eller, \$6; Mack Miller, \$3; Lucinda Barber, \$5; John Kincaid, \$5; Ann Wyatt, \$4, and M. Earnhart, \$1.

Macedon Josey, David Watson, R. A. McConnell, H. J. Albright, and Andy McKee were exempted from road work.

The following reports from Stock Law elections were returned and duly approved:

An election at the store of Miller & Bro's., in Gold Hill township, held May 27th—majority of 23 for stock law.

At Peeler's School House, Gold Hill township, on May 27th—6 majority for stock law.

At Jesse Miller's house, Gold Hill township, May 27th—majority of 41 for stock law.

At Cauble's School House, Providence township, May 27th—majority of 4 against stock law. The clerk was ordered to give proper notice to the citizens of the foregoing sections where the result was "for stock law"—to fence their stock as the law directs.

A stock law election was ordered to be held in the village of Gold Hill, on the 22d July next, in compliance with a petition from a number of citizens living in territory composed of a part of Gold Hill township.

A petition from citizens of Providence township for a change of a public road was granted.

The Board then proceeded to levy the following taxes for county purposes for the year 1882: On the poll, 53¢ cents; on real and personal property, 18¢ cents on the hundred dollars worth; on net incomes and profits, 1/4 of one per cent. on the hundred; on all circuses, concerts, bar rooms, &c., same as last year.

A. M. Brown, keeper of Poor House, reported 21 paupers.

A number of accounts were audited and ordered to be paid.

This being the day set for hearing discussions on the question and considering the propriety of re-arranging the school districts of the county, Messrs. Houck, Lutz, Cowan, Wilborn, Owen, Earnhart and others, made pointed and appropriate remarks, pro and con, as to the advisability of the measure, after which the Board ordered:

That a committee be appointed of three persons from each township, and one from the county at large, to consider what changes, if any, ought to be made in the school districts of the county, and to report their action to said board on the 1st Monday in August, next. Provided—That in case the said committee of any township or townships consider that the convenience of their neighborhoods can be best subserved by the crossing township lines, they are hereby authorized to call through the county commissioner at large, a joint meeting of all the townships interested, and at such meeting to construct suitable districts with territory in said adjoining townships; but whenever convenient they are advised to adhere strictly to township lines.

The following persons constitute the Committee:

For the County at Large, W. A. Houck, Salisbury Township—Jno. W. Mauney, Adam M. Brown and Jno. A. Hedrick.

Franklin—W. R. Fraley, A. L. Hall and H. G. Miller.

Unity—J. A. Bailey, Levi Powless and J. D. Lawrence.

Scottish Irish—Dr. J. G. Ramsay, Jessie Powless and Sanford Henly.

Mt. Ulla—Jno. K. Graham, Jno. K. Goodman and Robt. Blackwelder.

Locke—I. F. Patterson, T. J. Sumner and R. F. Graham, sr.

Atwell—Jos. F. McLean, J. A. Lipe and A. F. Goodman.

Litaker—A. H. Heilig, J. L. Sifford and John P. Bymer.

DEMOCRATIC COUNTY CONVENTION!

The Democratic County Convention for Rowan will be held at the Court House in Salisbury, Saturday, July 1st, 1882, at 12 o'clock, M., for the purpose of appointing delegates to the State, Congressional, and Senatorial Conventions and for other important business.

All the Democratic voters of the County are requested to meet in convention in their respective townships at the usual voting precincts, on Saturday, June 24th, 1882, at 12 o'clock, M., for the purpose of appointing delegates to the County Convention, and for full and complete organization according to the plan of organization of the Democratic Central Executive Committee. J. W. MAUNAY, Ch'm. County Ex. Com. [See plan of organization below.]

PLAN OF ORGANIZATION OF THE Democratic Party of North Carolina.

ROOMS DEMOCRATIC CENTRAL EX. COM., RALEIGH, MAY 20, 1882.

This committee hereby publish the plan of organization of the Democratic party compiled from the rules and amendments heretofore adopted by the State Democratic Executive Committee:

TOWNSHIP ORGANIZATION.

1. The unit of county organization shall be the township. In each township there shall be an executive committee to consist of five active Democrats, who shall be elected by the Democratic voters of the several townships in meetings called by the county executive committee.

2. The several township executive committees shall convene at the meetings of the several county conventions, or at any time and place that a majority of them may elect, and shall elect a county executive committee, to consist of not less than five members, one of whom shall be designated as chairman, who shall preside at all of said committee meetings.

3. In case there shall be a failure on the part of any township to elect its executive committee for the period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said township.

4. The members of the township committees shall elect to any vacancy occurring in said committees.

5. The county executive committee shall call all necessary county conventions by giving at least ten days notice by public advertisement in three public places in each township, at the court house door, and in any Democratic newspaper that may be published in said county, requesting all Democrats of the county to meet in convention in their respective townships, on a common day therein stated, which said day shall not be less than three days before the meeting of the county convention, for the purpose of electing their delegates to the county conventions.

6. That thereupon the conventions so held shall elect their delegates to represent the voters of the respective townships, in which delegates to county conventions, and shall cast its proportionate part of its township's vote for Governor in said township.

7. That in cases where townships consist of more than one ward or precinct, each of said wards shall be entitled to elect its delegates to county conventions, and shall cast its proportionate part of its township's vote for Governor in said township.

8. That for the purpose of fully inaugurating this system, the present county executive committee shall continue in office until their successors are elected—namely, until the next general election.

9. The chairman of township committees shall preside at all township conventions; in their absence any other member of said committees may preside.

10. In cases where all the township executive committees are required to meet for the purpose of electing county executive committees, said meetings shall be deemed to have a quorum when a majority of such townships shall be represented in said meeting.

COUNTY AND DISTRICT CONVENTIONS.

1. The several county conventions shall be entitled to elect to their Senatorial, Judicial and Congressional conventions one delegate and one alternate for every five Democratic votes, and one delegate for fractions of twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective townships, and none but delegates or alternates so elected shall be entitled to seats in said conventions: Provided, That every county shall have at least one vote in each of said conventions.

2. The chairman of county, Senatorial, Judicial and Congressional committees shall call to order their respective conventions, and hold the chairmanship thereof until the convention shall elect its chairman.

3. The executive committees of the Senatorial, Congressional and Judicial districts, respectively, meet at the call of their respective chairmen, meet at the time and place in their respective districts, designated in said call. And it shall be their duty to appoint the time and

place for holding conventions in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of said appointment, and the said county executive committees shall forthwith call conventions in their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

1. The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes, and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention, provided that every county shall have at least one vote in said convention.

GENERAL RULES.

1. Such delegates (or alternates of absent delegates) as may be present at any Democratic convention shall be allowed to cast the whole vote which their township or county may be entitled.

2. In all conventions provided for by this system, after a vote is cast, there shall be no change in such vote until the final result of the ballot shall be announced by the chairman of said convention.

3. All Democratic Executive Committees shall have the power to fill any vacancy occurring in their respective bodies.

4. That the chairman of the different county conventions shall certify the list of delegates and alternates to the different district and State conventions. And a certified list of said delegates and alternates cast therein shall be sent to the Secretary of the State Central Committee. For the Committee, Oct. COKE, Chairman. J. J. LYTCHEFORD, Secretary. (Charlotte Observer.) Liberal Convention.

RALEIGH, June 7.—The Liberal and Anti-Prohibition Convention met here to-day at 1 o'clock. About 150 delegates were in attendance, of whom 90 were colored. About 40 were from Democratic association and about 80 were Republicans. Col. Johnston, Editors Stewart and Hallyburton and Messrs. Respass and Satterwhite, of Beaufort county, are the leading Democrats participating, and Judge Moore and O'Hara, Col. Taylor and Col. O'Leary, are the most prominent Republicans.

Col. Johnston, as chairman of the anti-prohibition committee, called the convention to order and was made permanent president.

Colored men were awarded a share of the vice-presidents and secretaries, and of the committee appointed on resolutions.

Many Republican leaders are here in sympathy with the convention but not as delegates.

LATER. RALEIGH, June 7.—The convention adopted resolutions against the existing county government system of the State; demanding free ballot and fair count; demanding a repeal of the prohibition act submitted to the people last August and rejected; favoring a liberal system of public instruction by the State and National Government, and urging the application of the fund arising from the tax on spirits to the common schools under the supervision of the State.

The convention nominated for Congressman at large Oliver H. Dockery, a Republican, and for Supreme Court Judge, George N. Folk, heretofore a Democrat.

BIG BLAZE IN QUEBEC.—Quebec, Canada, June 3.—The Grand Trunk Railway station and sheds and the Dominion, Ontario and Quebec immigration sheds and office at South Quebec were destroyed by fire last night. Several International and Grand Trunk Railway cars were also burned. Bennett's hotel, adjoining the station, was gutted. Loss variously estimated at from \$100,000 to \$400,000, according to the value of freight in the sheds.

REPUBLICAN PROHIBITIONIST.—The Republicans profess to be strong anti-prohibitionists, yet they yesterday nominated, in their county convention, three well known prohibitionists, viz: S. H. Manning, E. E. Green and W. H. Waddell. Green made speeches in favor of prohibition. Waddell voted for the bill both in the legislature and at the polls, and Sheriff Manning was a pronounced advocate of the measure. Green and Waddell, both prohibitionists, are, curiously enough, the Republican candidates for the House of Representatives.—Wil. Star.

"Free Frog Republicans," says the Winston Leader, are those who make a big fuss but never do any good that any one can see. They love exalted positions for the sake of making the woods ring with their noisy clatter.

"BLACK-DRAUGHT" cures dyspepsia, indigestion and heartburn. At Theo. F. Kluttz's.

SEA-BREEZE HOUSE, MOREHEAD CITY, N. C.

This finely located House (near the Atlantic Hotel), will be opened on the 15th of July for the reception of guests visiting the sea shore for health or pleasure. The House fronts the south and the Ocean. The rooms are good, and health giving winds sweep delightfully through it. Fare and general accommodations equal to any. Terms moderate. T. L. HALL, Proprietor.

Executors' Notice to Creditors!

H. W. TAYLOR, H. F. ATKINS & E. F. TATUM, Salesmen. April 6th, 1882.

NEED NOT EQUALE! NEVER EXCELLED

ALLISON & ADDISON'S

"STAR BRAND" COMPLETE MANURE

FOR TOBACCO, CORN AND COTTON.

No fertilizer ever introduced has undergone severer tests, or come out of them with a better record, than the "STAR BRAND" COMPLETE MANURE.

It has been in use in Virginia since 1873, and during that time has been applied to all kinds of soil under every variety of season. Evidence that it has given general and great satisfaction is found in the fact that since its introduction over 20,000 TONS have been sold in this market alone; and also in letters and certificates from 5,000 Farmers and Planters of Virginia and North Carolina, who have used it from one to eight years—all going to establish it as a fact that, all things considered, it is Equal to any and Surpassed by none.

We offer it with great confidence for use on the TOBACCO, COTTON, and CORN crops to be planted in 1882, with the assurance that it is in all respects fully equal to what has been in the past. Knowing the materials which enter into its composition, and manufacturing it under our personal supervision, we Guarantee the Standard.

It has been the aim of all connected with this Guano to produce the best possible fertilizer at the lowest possible cost, and claim that our extended experience and unusual resources and facilities have enabled us to approach this more nearly than has been done in any other fertilizer with which we are acquainted. Those who have been using it unite in the opinion that

By its Use the Consumer Gets the Greatest Benefit from the Smallest Outlay.

An ordinary application of this Guano will cause an increase of 100 to 200 per cent. in quantity at the same time improving the quality and hastening the maturity of the crop. It is especially adapted to TOBACCO PLANT-BEDS.

It also promotes growth, prevents the attacks of the "fly," and makes healthy, stocky plants with thick leaves and an abundance of roots, which bear transplanting much better than those raised with Peruvian Guano.

ALLISON & ADDISON, Manufacturers, Richmond, Va.

For sale by J. ALLEN BROWN, Salisbury; R. M. ROSEBORO, Rowan Mills; C. F. LOWE, Lexington, and by agents at all important points in Virginia, North Carolina, South Carolina, and Georgia, at prices as low and on as liberal terms as any other standard grade fertilizer. We solicit your confidence and patronage. 20-3m

A SUCCESS AT LAST.

INVENTED AND PATENTED BY T. J. MERONEY, SALISBURY, N. C.

THIS MACHINE is a plain wooden tank lined with copper or galvanized iron, with perforated pipes in the bottom for the admission of steam, with corrugated Roller, made of same metal, and of sufficient weight. This Roller gathers the air while passing back and forth over the clothes, forcing air and water through the fabric. At same time the steam is thrown up through the perforated pipes underneath from the bottom of the tank. There are wooden strips between the pipes so as to protect them and form a smooth bottom in the tank.

The process is simple: any one can operate the machine. First, soap the clothes and distribute them evenly about four or five inches thick in the tank. Turn on enough water to cover them—turn on steam, and move the Roller back and forth until the water is colored. Turn the valve and let the water pass off. Add fresh water, and repeat this three or four times, and you find the clothes are thoroughly washed without the slightest injury, for there is no rubbing process employed, the Roller having rounded edges so as to prevent any wear or cutting. A lace handkerchief can be washed as well as a bed quilt. This Machine is in operation at McGowen & Bros. Machine Shop, where they will be manufactured at as small a cost as possible. Any one having a steam boiler in operation can use one of my machines at small cost and with satisfactory results. One person can do the work of ten wash-women in one day and do the work better.

It is a splendid thing for boiling grain and vegetables for stock.

It is also a good wool-washer.

State and County rights for sale by the Inventor. 19-1f

J. R. KEEN & CO. SALISBURY, N. C.

Manufacturers' Agents For the Sale of Engines and Boilers of all sizes & styles—NEW and SECOND HAND. Also—Saw Mills and Machinery generally. Correspondence solicited. Sub-Agents wanted in every town in the State. 181f

1882. SOLUBLE PACIFIC GUANO, MANUFACTURED BY THE PACIFIC GUANO COMPANY.

THE LEADING COTTON FERTILIZER.

The oldest and most reliable brand sold, and of the highest grade—the commercial value being several dollars higher than nineteen-twentieths of the fertilizers in North Carolina. No fertilizer has given greater satisfaction on general crops and all kinds of land than the "PACIFIC." For the last sixteen years it has been sold in Rowan and adjoining counties. It is offered you again this year at same prices asked for the inferior grades.

THE COMPOUND ACID PHOSPHATE, (Manufactured by Pacific Guano Company.)

Is of the highest grade and for COMPOSTING it has no Superior, and in case you have not enough time for making up compost heap, it can be done in the drill after preparing your ground and let lie, covered, until planting time.

J. ALLEN BROWN, Agent. (Office front room over Crawford's Hardware.) 21-1f
