

LOCAL.

THURSDAY, JUNE 22, 1882.

NEW TERMS.

From and after the 1st day of January, 1882, the subscription price of the...

Several Laws. Tennis clubs are being formed in the city.

Guinea will hang on Friday—ply he did not, that day, one year ago.

Mr. Jos. Horah, Mrs. Wms. Brown and others have new tomatoes.

WANTS.—Mr. J. F. Ross "wants" more things than any one else in town. Read what he says about it.

SEND DELEGATES.—Next Saturday is the day appointed for the county Convention. The townships should not fail to send delegates.

Mr. A. Parker has built another addition to his store and has also built a new bake oven. The arrangement is now very convenient.

PEACHES.—The market is full of them and of excellent quality.

We acknowledge the receipt of an extra lot as a compliment from Dr. J. B. Gaither.

Our township meeting on Saturday last had the ring of the pure metal. The democracy of Rowan will be on hand when the time comes.

The heat has been excessively severe for some days past. Most people say August is the hottest month, but the last ten days in June and the first 20 days in July will discount August.

The Normal School at Newton, N. C., has opened under the most favorable circumstances—over 100 in attendance. Dr. Withorn of this place is there in capacity of a teacher.

In Stanly county last week, a residence was destroyed by fire, and the lightning set fire to a barn—a horse and mule, together with a lot of fowls were consumed. Both these disasters occurred near Bileville. The names of the losers have escaped us.

Tom (or Henry) Johnston, colored, thrown from a wagon last week and badly hurt by his head striking a curbstone, died Saturday night about 12 o'clock. He was thoroughly paralyzed by the fall, and although conscious and able to talk, made no recovery from the terrible shock.

On last Thursday evening the young people enjoyed a Lawn party at the residence of Mrs. M. L. Holmes. The evening was charming—the early melons, peaches, bananas, berries, cream and ices formed only a minor part of the delights of the occasion. Mr. D. L. Gaskill had the general supervision of the affair.

ICE, CREAM SALOONS.—Maj. P. N. Smith, J. M. Brown and S. J. Swiegood have each fitted up ice cream saloons and are prepared to furnish cold receptions to all applicants.

This item was prompted by a glance at the thermometer whose silvery indicator pointed out the interesting figures 94°.

DEATH OF DR. GEO. A. GOWAN.—A letter received by Mrs. Williams Brown, Tuesday, dated "Sno, Tenn., June 25th," in which it was stated that Dr. Geo. A. Gowan, her brother, formerly of Davie county, had died that morning at 7 o'clock. His death was not a surprise to him, but with full consciousness he met it triumphantly. [Davie Times phrase notice it.]

ANNUAL PICNIC.—The Annual Masonic picnic, for the benefit of the Oxford Orphan Asylum, will be held at the "Shoals" on Friday, July 21st. These annual picnics are very enjoyable occasions and affords an opportunity of the citizens of Rowan and Davie to meet in pleasant interchange of news—a large attendance is expected this year. THEO. F. KLUTZ, Esq., of this city will deliver the address.

RELIGIOUS.—We call attention to the official announcement of the annual meetings of the Rowan Sunday School Association and Bible Society to be held in August next. These important organizations, are doing a great work quietly but efficiently. They should be warmly and generously sustained by the public; for the benefits they confer in restraining evil and doing good is beyond computation and is shared by all.

COTTON BLOOMS.—We had hardly finished writing a prediction against early blooms this year when a package was received from Mr. D. U. REEVES, at Stokes Ferry, in which were two blooms—one red and the other white—received on the 24th—so that after all the most south-eastern corner of the County comes in to redeem the season. Thanks to "Doc" for this encouraging indication of the crop in that part of Rowan. May he and his friends have joy all the year round.

Mr. W. L. Kistler writes to deny the authorship of a letter in our last paper. If it will relieve Mr. K. in any way we are pleased to say there was no letter of his published in the paper referred to. Mr. K. also improves the opportunity to speak in high terms of the wheat and oats crop in his neighborhood, calling both all the industry to save it.

Died in Unity Township, June the 13th, Mr. Nelson Pennington. The deceased was a ruling elder in Unity (Presbyterian) Church, and a prominent citizen in his township.

HOW TO PREVENT DROUGHTS.—It is very simple and very profitable: Plant one or more trees on worn out lands for every one you cut out of the forest. There is no other way possible to prevent droughts.

A resident of Salisbury went out to a field which he was having put down in oats last March, with a basket of walnuts on his arm. He took a "water row" and dropped a nut every five paces and step on it to press it into the soil. Nearly every walnut "came up," and the little trees are now more than 12 inches high. Acorns may be planted in the same way, and thus the droughts prevented.

COLORED INSTITUTE.—The Supt. Pub. Instruction for Rowan, has issued a circular to colored teachers, notifying them that the Institute for their instruction, will open in the colored Presbyterian church in Salisbury, on the second Monday in August. They are urged to be prompt in attendance, especially those of them who expect to continue teaching. The last day of the Institute, which will continue two weeks, will be spent in examination exercises and awarding certificates. Old certificates will not be renewed except on examination.

Death of Abraham Sechler.

This aged and well known citizen met with an accident on the road returning from a trip to Concord on the 20th inst., of which he died at his residence in this county on the morning of the 23d. He was thrown out of his sulky and dragged about 20 yards, by which his collar bone was broken and he was otherwise badly hurt; but he still held the reins of the mule and stopped him. He was overheard making a noise by a negro woman, who found him in great agony and reported his condition to his family. It seems no one saw the accident. When found by his friends he was suffering great pain and so continued until relieved by death. Few persons of his age (86 years) possessed as much physical strength. His funeral was attended by about five hundred of his neighbors, friends and acquaintances. He left a wife, 4 sons and a daughter, 26 grand children and 23 great grand children, who mourn his death but not without hope. He was a member of the M. E. church S.

The Enterprise, a very well edited paper, published by a colored man in Goldsboro, is taking a very sensible view of the relations of the colored people to the State of North Carolina. To be sure it is Republican, and printed in the interest of the colored race. From its editorials we judge that it opposes the effort to turn the 90,000 negro voters bodily over to a few white leaders as their own property. It declares that prohibition is dead, and wants to know the sense of trying to revive it. It opposes the nomination of Mr. Hubbs for Congress, and says: "Any colored man who casts his vote to nominate Hubbs for Congress votes against the interest of himself, his race and the State. To be frank, if some colored man is not nominated, the Enterprise urges the nomination of some man who has property here in the South, and who would be interested in the building up of its resources. The day of good things, we hope, is near at hand." We presume there will be a lively fight among the colored brethren of the 2nd district over their Congressional nomination.

Anything "Liberal" About This?

From the Statesville Landmark. I learn that a meeting which was called the "Anti-Prohibition Liberal Convention," which was held in Statesville, May 27th, appointed me a member of the executive committee for that party in Shiloh township. I wish the public to know that this appointment was made without my knowledge or consent, and that I will have nothing to do with this unclean thing. I am a Democrat of the straightest sect. I voted against prohibition last year and would do so again; but I do not intend to be sold out to the Radical party, of which this "Liberal" movement is but an offshoot. I intend to vote the Democratic ticket this year and in all future elections, and I do not propose to allow myself to be placed in a false light before my fellow citizens. The Radical Liberals can just put this in their pipes and smoke it. Respectfully, HENRY SETZER.

ADVERTISEMENT.

Mr. J. O. Parrish has the pleasure to announce that after much delay and hindrance in business, caused by Mr. Prather, the picture gallery in the Crawford building is now entirely under his own control, and he has resumed business on a basis of security and comfort to himself and the public. He most respectfully solicits the favor of the public, and seriously regrets the hindrance alluded to. Any one feeling curious to know how he came out in his contest with Mr. P., are referred to the records of Mr. A. Murphy, the ruling Magistrate before whom the case was tried. J. O. PARRISH.

Executors' Notice to Creditors!

All persons having claims against the estate of John Luckey, dec'd, are hereby notified to exhibit the same to the undersigned on or before the 9th day of June, A. D. 1882. WM. A. LUCKEY & Co. Executors of Jno. J. G. FLEMING, } Luckey, dec'd Blackmer & Henderson, Attys. June 8th 1882. 64-6w.

MINING INTELLIGENCE.

T. K. BRUNER, MANAGER.

The Mining Editor has been absent for several days.

A lot of 2 inch iron tubing has arrived for the Crowell Mine. It is understood that the company intend trying hydraulic mining on Kimball Hill. This has been a famous place for free gold for years. Even now, after hard rains the inhabitants repair to the spot and succeed in taking up a few pennyweights. We hope the effort will be entirely successful.

At the Phoenix mine in Cabarrus co., they came into a rich pocket one day last week. This mine is run on the largest scale of any in the county and their prospects are considered good for a successful run of many years.

Mr. Jacob Grupp, we see, has purchased through J. R. Keen & Co's agency, a 20 horse power return tubular boiler and engine, of the Phoenix Iron Works, Pa., for service at a new mine opened by him some eight miles east, known as Grupp's mine. The engine is new and comprises latest improvements. The workmanship is also superior. We hope to have a good report from Grupp's mine ere long.

They "Point With Pride."

The Republican party in this country is somewhat mixed on the subject of prohibition. In the Western States it is in a quandary, while in the New England States, generally, it is solid for prohibition. We commend the following, the 9th plank in the platform of the Maine Republicans, to the prayerful consideration of North Carolina Republican Anti-Prohibitionists: "That we refer with confidence and pride to the general record of the Republican party in support of the policy of the prohibition of the traffic in intoxicating liquors, the wisdom and efficiency of which legislation in promoting the moral and material interests of Maine have been demonstrated through the practical annihilation of that traffic in a large portion of the State; and we favor such legislation and such enforcement of law as will secure to every portion of our territory freedom from that traffic. We further recommend the submission to the people of the constitutional prohibitory amendment."

Mining Advertisements.
