

LOCAL.

THURSDAY, JULY 6, 1882.

NEW TERMS.

From and after the 1st day of January, 1882, the subscription price of the Watchman will be as follows:
One year, paid in advance, \$1.50
" payment delayed 3 months, 2.00
" payment delayed 12 months, 2.50

Rev. Mr. Murdoch has entered on his 11th year as pastor of the Episcopal church.

The new use to which sunflowers are put gives them the correct appearance of being happy.

A fine drove of cattle, the property of Messrs. Coughenour and Vanderford arrived in town on Monday.

Col. Tom Brown and John Heilig, Esq., are off in the mountains purchasing stock for the Livery Stable.

Thomas K. Bruner our Mining Editor and Allen Ramsey, Esq., are in Washington on the Mott-Investing-plein.

The State Fruit Fair will be at Greensboro, this year, commencing on the 8th of August. Gov. Jarvis has accepted an invitation to be present on the 9th.

Mr. Thomas Moroney has the pleasure of knowing that his newly invented washing machine has proven a success at the Laundry at Warm Springs.

Mrs. Dr. Fraughton is at Blowing Rock for her health, which we hope will improve under the influence of the "land of the sky."

The MITE MEETING at the residence of John Mahoney, Esq., on Tuesday evening was a very pleasant affair. Proceeds were one dollar and five cents. That's not "mighty" enough.

CRADLE POST OFFICE.—A new post office has been established in this county of the above name. It is located at the residence of J. A. Reid, who is Postmaster, nine miles east, on the Miller Ferry Road.

Another new invention for Salisbury in the way of a bottle-washer. More especially for beer bottles, by P. A. Frenck. With the aid of this machine one man can wash thoroughly 48 bottles in three minutes. That's much quicker than our young men could manage them.

Some of the enterprising business men of this place have organized "The North State Life and Mutual Association" under the laws of N. C. All the parties interested are thorough business men and will make a success of what they undertake. All particulars will be given next week.

ATTENTION SALISBURY RIFLES.—You are hereby ordered to meet at your Armory Friday, July 7, at 8 o'clock, P. M., to decide whether you will go to the State encampment at Smithville, N. C., or not. THEO. PARKER, Capt., R. B. CLOWE, Sec.

BAD.—We regret to learn that a difficulty occurred yesterday between Green Canble and Burrell Brown, in which the former sustained serious damage. Canble is a one-eyed man, and as is too common with "him," was under the influence of liquor. He received a blow from Brown with a stick which it is thought destroyed the one good eye, rendering him totally blind.

Four emphatic sounds of the locomotive whistle at the depot on Friday night announced the arrival of the second cargo of coal brought over the Western N. C. R. R., from Tennessee. It is a portion of the 1,000 tons purchased by the R. & D. R. R. and will be distributed at the depot on the road. This looks like business as also does the fact that the R. & D. Co., are having built one thousand freight cars and thirty new engines, all of which will come to the Salisbury Shops for repairs.

Hon. Wm. M. Robbins. This gentleman paid on town a visit last Thursday. As usual, our citizens were prompt to show him honors. The band paid him the compliment of a serenade at the Hotel, the Boyden House. A large body of citizens met there and the Mayor acknowledged the courtesy shown in a speech of great power. He reviewed the political situation of the State in a masterly manner, which elicited repeated applause. He declared it his fixed repugnance that not a radical nor a "liberal" speaker should go unanswered anywhere within his reach. He intends to meet them face to face in this contest so far as it is in his power to do it.

I announce myself as a candidate for the office of Sheriff of Rowan county, subject to the action of the Democratic County Convention in August, next.

C. C. KRIDER.

SHERIFF.

One of the most (if not the most) responsible positions the people will be called upon to fill this year is that of Sheriff, and who has not only personal popularity, but who is able to fill the position. Recognizing this fact, and not intending to reflect on the present incumbent, the name of J. F. Ross is presented to the people for that position, subject to the nomination by the Democratic Convention. Mr. Ross is one of our most successful, as well as one of our most popular merchants, possessing fine business capacity, and with his fluency of speech, if nominated, would make an able and effective canvasser. There is hardly a man in the county who would fill the position so acceptably to the people.

MINING INTELLIGENCE.

T. E. BRUNER, MANAGER.

It is intended to make an exhibit of ores from Rowan county, at the Denver, Colorado, Mining Exposition. This will be the grand event of 1882—the exposition opens August 1st, and closes September 31st. Those who desire to show their minerals will confer with J. J. Newman, Dutch Mine, or T. K. Bruner, at WATCHMAN office, at once.

GOLD HILL MINE.

Its new Progress and Development Under English Capital.

The little town of Gold Hill a year ago had few signs of animation or business life—in fact it had all the appearance of a mining town—houses going to rack and ruin, the inhabitants listless, with an air indicative of anything except thrift. Today the scene is changed. Houses have been and are now being repaired, stores painted, fresh goods on the shelves and the people bestir themselves in such manner as to impress the visitor with the fact of a general business revival.

About a year ago Mr. Wm. Treloar, was put in charge of the Gold Hill property, by the English Syndicate, who purchased the mines. Mr. Treloar was just from Brazil, South America, where for fifteen years he had been conducting mining operations on the largest scale. His ability and thorough business capacity is unquestioned. Since taking charge of the works a new mill house, 84x54 and 44 feet high; an Amalgamation house 40x40 and 34 feet high, and over a quarter of a mile of tram road; so built as to command any part of mine and arranged so as to require no elevation, or second handling of ores. They have laid about a mile of piping to convey water from the fishpond shaft to mill house and from that shaft to supply fresh water to boiler. They have also built a large reservoir, 100x60 feet to hold water supply.

They have cleared the Bernhart shaft of water—360 feet down—and are hoisting ores from slopes.

They have sunk new shaft "Reservoir" (so-called because lode was struck while excavating foundation for reservoir) sixty feet, and have cut about 200 feet of drift and levels, and are now stopping the backs on the lode—60 cubic feet of which is done. This lode when struck was small but has been steadily improving as they sank. It is sulphurets imbedded in talcose and chlorite slates, which for several feet on either side of vein are auriferous, sets of hands are kept in this shaft, night and day sinking and sloping.

The "Miller" shaft is also new—down 60 feet and connects with vein shaft 150 feet distant. This is a promising lode which shows indications of opening finely—brown ore in slate bindings.

MACHINERY.

The mill house is supplied with a twenty stamp battery, (arranged to accommodate as many more,) and a Blake crusher—largest crusher made. These are run by a 100 horse power engine. Engines, boilers and pumps at Bernhart and Flint shafts—horse whips at the other shafts.

CONCENTRATION AND AMALGAMATION.

The stamps fall about 80 strokes per minute and the pulp passes through the finest mesh screen. Instead of the usual copper plates, they use about 24 feet of blanketing, made for the purpose; each stamp head having its own line of blankets there is no quick used in mortars, but these blankets are taken up and washed frequently, that however, depending on the grade of ore being milled—blankets next to head being cleaned twice as often as those at extremity of line. These blankets are washed into large tanks, which are covered by wooden gratings sufficiently open to allow the free passage of the concentrates to the floor of the tanks. From these tanks the concentrates are carried to amalgamation house, (adjacent to the mill house) and placed in one of four large revolving barrels. These are charged with 60 pounds of quick each, together with 12 cubic feet of concentrates. These barrels are allowed to revolve 36 hours and are then dumped intooppers just beneath, from which the sands are slowly washed by a small stream of water into the "sax." This sax is 17 feet long and is divided into three compartments; the first being charged with a large body of quick, and containing agitators fastened to block which forces sands through the quick into next compartment. This next division is just like the first except that it is not charged—the sands passing through allow any quick which may have escaped from next compartment to settle in basin of second; and so the third division catches what may have escaped from second. These sands in passing out of sax, must again flow over 20 or more feet of blanketing, so that any floured amalgam which may have escaped the sax is there caught and saved.

This is probably the most perfect system of concentration and amalgamation in this section. They clean up about every ten days—and show an average of from 7 to 47 dollars per ton, according to the quality of ore run through mill. Milling capacity is 40 tons each 24 hours—and they are working a force of 70 hands.

Mr. E. B. Hambley is book keeper and assayer—he has a well filled laboratory. Supt. Treloar says that he expects to open the 250 foot shaft this summer. It is now full of water and will probably require several months to clear it but it must be done, as this shaft contains the large 10 foot lode.

Altogether the work is progressing satisfactorily and with a degree of activity calculated to inspire one with confidence in honest, legitimate work.

Something more of the Mines in Mecklenburg County.

Hunter Mine, 1 1/2 miles south of Pioneer Mills, 100 feet deep 2 feet wide, ore nominally gold.

Crosby Mine, 1 mile south west of Hunter mine, opened at intervals about 100 yards long, 110 deep at one place, vein 3 feet wide, copper and little gold.

Rogers Mine, 4 miles south west of Crosby, 100 feet deep, vein 2 feet wide, ore gold and fair, a little copper. Superior to any of the above.

Hanes Mine, 1 1/2 miles south of above, 120 ft deep v 5 to 6 wide. Large No of veins on property.

Johnson Mine, 8 m. south east from Charlotte, opened in pits, (no levels) for about 200 yds. at pits about 40 deep. Good to water level.

Stinson Mine, 7 1/2 m. south east of Charlotte, one half placer mine on half of vein. The placer worked but little, but is rich. The vein worked on one side of Branch about 25 deep, yields \$10 to \$30 per ton.

Maxwell Mine, some distance from Charlotte, same direction but to left of Johnson mine, nearly 1/2 m at Ridge, vein worked 70 deep at deepest pt. 1 to 6 wide—ores large, masses of Iron Pyrites with a little copper. Ore good at points. Iron Pyrites gave 50c to 75c per bu. i.e. \$7.50 to \$11.25 per ton, and oxides \$30 to \$37 per ton.

Bum Mine, 1 m beyond Maxwell mine worked at pits for 200 yds. shaft 40 deep. Never worked extensively, yield \$15 per ton.

Ray Mine, which is a copper mine and the Ray mine which is gold ore John and are not more than one mile apart, 8 1/2 m from Charlotte, east of south. Ray mine quite rich in copper, 90 deep, 200 yds long, at intervals vein 1 to 3 v.

Tredwell Mine, opened in 1830 by a Boston Company, 7 m a little south of east. Gold and copper. About 100 yds long and 75 to 80 deep, 1 to 2 wide not highly sulphureted, but much carbonate and Silicate of copper, gives copper from near surface down. Ore more than average, yield \$15 to \$75 per ton.

Alexander Mine, 5 1/2 m nearly east of Charlotte, was worked extensively by an English Co., 90 deep. Ores Silicious and Iron Pyrites and no copper, yield \$15 per ton.

Farris Mine, worked since war 1 m to right of Alexander, 70 at deepest pt 1 to 2 wide. Ores copper Pyrites and Gold, yield \$13 to \$75 per ton. Quicksilver in shaft.

J. P. Henderson Mine, 7 m from Charlotte north of east prospecting for 200 yds. Vein 1 to 2 w. Contains Iron Pyrite and brown ores, yield \$7 1/2 to \$30 per ton.

Nolan Mine, 4 m east of north from Charlotte, 45 deep 1 to 3 wide. Ores Honeycombed and Iron Pyrites, no copper, yield \$7 to \$90 per ton.

Caldwell Mine, 100 yds opened at intervals, 90 deep. Ores brown oxides, no copper. Gold ores generally good.

Jordan Mine, 10 m north east from Charlotte, 100 yards opened at intervals, vein 1 w 30 deep, yield \$15 per ton.

Hipp Mine, 7 1/2 m east of north from Charlotte, is 1/2 m long at 14, depth 100 vein 1 to 4 wide. Ores brown Oxide and sulphurets copper.

McGinn Mine, copper veins 110 down rich in copper and gold 1 to 6 wide.

Capps Mine, 2 veins, workings 165 deep richer at water level.

Mena Mine, J. J. Capps Mine. Copper and gold, near copper is slate ore—open 1/2 up for 1/2 m, 3 distinct veins on property.

Henderson Mine, 3 1/2 m from Charlotte, 5 yds worked, 40 deep, some good ores, and a little copper, yield \$15 to \$40 per ton.

Kerr Mine, 10 m from Charlotte, 80 d ep, copper and gold, about best copper mine in county.

J. Alexander Mine, 8 m from Char. 40 deep 100 yds long, mostly brown ore and Iron Pyrites and a little silicious matter, vein 1 to 3 wide.

Bennett Mine, 1 m west of Capps mine, 3) deep, good ore yield \$30 to \$40 per ton, 6 wide. Ores quartz.

Todd Mine, 5 m north west of Charlotte, 70 deep, vein 1 to 4 wide, ore much like copper, yields \$15 to \$45 per ton.

Frasier Mine, 4 m north west from Charlotte, Controlled by Pennsylvania Company.

Chey Mine, 5 m south of west from Charlotte, 75 deep, vein 2 wide, copper and gold, good for copper. Struck granite under vein at above depth.

C. C. Cathey Mine, 8 m west of Charlotte, 50 deep, copper and gold, vein 6 to 2 wide.

Sloan Mine, adjoins the above, prospect 300 yds, 30 to 40 deep. Copper and gold.

Steen Wilson Mine, has 10 well defined veins, 340 acres, width of vein 10 to 30 feet underground workings, 1500 feet, 3 levels at 120, 200 and 300. Ores Quartz, Talcose, Slate, Spathic, Iron, Copper and Iron Pyrites, Gold with quartz, veins 2 to 3 wide, yield \$10 to \$150.

Gibson, adjoins above, 2 or 3 veins 40 deep 2 to 4 wide. Ores brown, yield \$4 to \$6 per ton.

Neal, adjoins above, 150 yds prospecting 60 deep. Ores good, yield \$7.50 to \$45 per ton.

McLeary's, 90 deep, copper and gold, copper rich, yield \$15 to \$45 per ton.

Juggernaut, Copper, brown ores 80 to 90 deep, yield \$7.50 to \$60 per ton.

McCorkle, 8 m south west of Charlotte, 50 deep, 1 to 3 wide. Brown ores, Iron Pyrites and Quartz, yield \$7.50 to \$30 per ton.

Davidson and Blake, worked 1/2 m long and 60 deep. Ores Brown, Oxides, Honeycombed ore and Iron Pyrites, vein 1 to 4

wide, no copper, yield \$7.50 to \$90 per ton.

Clark, 1 1/2 m south west of D & B mine 70 deep, no copper, quartz and brown ore, not much sulphurets, yield \$15 to \$75 per ton.

Trotter, south west of above mine, 200 to 300 yds long, 70 deep, 1 to 6 wide, very little copper, yield \$15 to \$150 very coarse gold.

Caser, 9 1/2 m south west of Charlotte, 300 yds long, 70 deep, vein 1 to 6 wide, yield \$15 to \$90 per ton.

Rudhall, 1 1/2 east of south from Charlotte, 100 yds long, 160 deep, 2 to 3 veins 4 wide. Ore slaty Iron and some copper pyrites.

Charlotte, 175 deep opened up for 1/2 m vein 1 to 6 wide, some brown oxides, some honeycombed, some Iron Pyrites, yield \$15 to \$75 per ton, 1 small vein 1 w which has some copper.

Sam Taylor, 3 m south of west from Charlotte, 150 yds long, prospected, depth 30, principally honeycombed, ores yield \$15 to \$45 per ton.

Martin Icehours, just beyond, prospecting 150 yds long. Ores saccharine quartz ores, \$7.50 to \$45 per ton, 40 deep.

Dunn Mine, 9 m N of west of Charlotte 2 or 3 veins, 200 yds long, 70 deep 1 to 6 wide, yield abundantly, copper and Gold. JOHN G. YOUNG.

The Unity Township Sunday School Association will hold its annual convention at Unity church on Saturday, July 22, exercises beginning at 10 o'clock, a. m. Rev. Dr. Wetmore will deliver an address.

The following subjects are to be discussed—the discussion of the first to be opened by G. R. McNeill, the second by R. W. Boyd, and the third by W. G. Watson.

1. The importance of S. S. teachers receiving spiritual training for their work.

2. The International lesson system and catechetical instruction.

3. How S. S. attendance can be made more general.

J. Powhass and W. A. Thomson constitute the committee of arrangements. The public are invited to attend.

Enochville Items.

Enochville has had no attraction for pleasure seekers since the closing exercises of our excellent school. All long for the 10th of July to come and bring with it a large number of young men and ladies to enter the school and take up their abode with us for the next ten months.

Mr. James Freeze, a member of Lutheran Chapel, was buried at St. Enoch last Sunday, at the age of 64 years. There was a very large concourse of friends present to hear the funeral.

The sound of the bugle tells of the golden grain being separated from the chaff. Wheat is good, oats the best for years, and corn and cotton looks fine, though it is late. Four new buildings going up at this place, also a new post office, W. A. L.

Bingham's School.—By surprising activity the new buildings for this institution will admit of a resumption of exercises on the 26th instant.

Mr. Alexander Klutz of this place has set up an oil distillery at Old Fort.

The Fayetteville Examiner well says: The Democratic party is betrayed by those who have eaten at its table and enjoyed its fat things. It is a very good time to put none but true men on guard. Take men of unquestioned character, tried integrity, and who are not intellectual cranks or admitted fools. Men of sound sense and sound principles and who cannot be bought, are the men to confide in and vote for.

BUSINESS LOCALS

Fresh supply of Howard's Worm Combs at S. J. Swiggard's.

Georgia Watermelons and Tomatoes just in at J. D. McNEELY'S.

Fresh Mackerel, Brook Trout, and L. and H. Herrings (canned) at J. D. McNEELY'S.

For everything you want such as Vegetables, Butter, Chickens, Eggs, Honey, and Groceries of all kinds, call on J. D. McNEELY.

Also a lot of late Seed Irish Potatoes, for sale cheap.

HAMMOCKS. HAMMOCKS. HAMMOCKS. Summer Reading, Novels, Seaside, Fruits, Caudies. Smoke the Pilot Cigar. THEO. BURBAUGH.

POT GROWS STRAWBERRY Plants (if set now) that will make a full crop next year, for sale by Dr. E. ROSE DORSETT, Salisbury, N. C.

341st July History of Rowan County BY REV. E. RYAN. Copies of this interesting book may be had of T. F. KLUTZ, THEO. BURBAUGH or at the WATCHMAN Office.

WHAT WE WANT!

WE WANT 5,000 bushels nice clean Wheat.

WE WANT 5,000 bushels nice clean Oats.

WE WANT 50,000 lbs. Dried Blackberries.

WE WANT 50,000 pounds dried Peaches and Apples.

WE WANT two good Clerks who will study and work for the interest of our business.

WE WANT to sell all good merchants, their Salt, Bacon, and Coates' Spool Cotton, all of which we will make to their interest to buy from us.

WE WANT \$10,000 in good money for our goods, which we are now offering at exceedingly low prices in order to reduce stock.

WE WANT everybody to come to see us, and inspect our goods and prices before they buy elsewhere.

WE thank our many friends and customers for their liberal patronage and shall strive to merit their continued confidence and favors. Respectfully,

June 27, 1882. J. F. ROSS.

McSmith Music House, CHARLOTTE, N. C. Branch of LUDDEN & BATES.

Grand Midsummer Sale. Preparing for Fall Trade. Buy now & pay when Cotton comes in. 200 Pianos and 500 Organs. MIDSUMMER SPECIAL OFFER.

Under our Midsummer Sale, we offer to sell during the months of JUNE, JULY, AUGUST and SEPTEMBER, 1882, PIANOS and ORGANS, of every make, style & price, at our very lowest cash rates.

On Pianos \$25 Cash, Balance Nov. 1, '82. On Organs \$25 Cash, Balance Nov. 1, '82. Without interest or any advance on price.

If balance can't be paid in the fall, longer time will be given, with a reasonable increase of price. All instruments of every grade and price included in this sale. Tell your musical friends of it. Write us for Catalogues, Price Lists Circulars. This sale closes October 1st, 1882. Early purchase secures cash prices and easy terms.

Six (6) years guarantee. Stool and instructor with every Organ. Freight paid both ways if no sale. Test them in your own homes. Address

McSMITH MUSIC HOUSE. Prof. Wm. Baker is my only authorized Tuner and Repairer. All work guaranteed. Send orders to this House. [353m] H. McSMITH.

FOR SALE. One 18 Horse Power Portable or Stationary Centre Crank Engine and Locomotive Boiler, and a 35 Horse Power Side Crank Stationary Engine and Tubular Boiler. One Pair 5 feet Buirs. Speak quick or lose a BARGAIN. Address or call on G. M. SETZER, China Grove, N. C.

Tax Listing! All persons are hereby notified to list their Taxable Property and Poles. Books will be opened at the Tax Shop of C. F. Baker & Co., on the 1st day of August and remain open during that month for that purpose. All persons failing to comply with the above notice will lay themselves liable to the penalties of the law. E. B. NEAVE, Tax Listor. June 1, 1882. (44)

SEA-BREEZE HOUSE, MOREHEAD CITY, N. C. This finely located House (near the Atlantic Hotel), will be opened on the 1st of June for the reception of guests visiting the sea shore for health or pleasure. The House is from the South and the Ocean. The rooms are good, and health-giving winds sweep delightfully through it. Fare and general accommodations equal to any. Terms moderate. T. L. HALL, Proprietor. 341m
