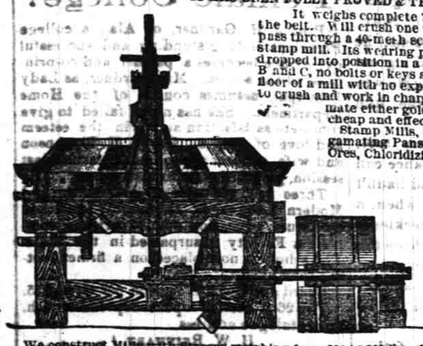
HOWLAND'S PULVERIZER takes the place of the cumbersome Stamp Mill

And can be put up in one day ready for

—IT HAS BEEN FULLY PROVED & TESTED—



It weighs complete 7,000 pounds. It costs $1,200 ready to the belt. Will crush one ton per hour of hard quartz that will pass through a 40-mesh screen. The wear is less than in the stamp mill. Its wearing parts are plain castings and can be dropped into position in a few moments, as shown by letters A, B and C, no bolts or keys are required; it can be set upon the floor of a mill with no expense for foundations, and can be used to crush and work in charges or continuous. It will amalgamate either gold or silver ores, making it a simple, cheap and effective mill; it requires 12-horse power

Stamp Mills, Rock Breakers, Crushing Rolls, Amalgamating Pans and Separators for Gold and Silver Ores, Chloridizing Furnaces, Retorts, Rock Drills, Air Compressors, Steel Shoes and Dies for Stamps, and every description of Frames for Stamps; also

He, after proposing and being rejected "I suppose in the end you will be marrying some idiot of a fellow—" She, breaking in: "Excuse me; if I meant to do that I should have accepted your offer.—Silence.

"The tail of a fashionable youth's coat is very short. But is not as "short" in the majority of cases as the fashionable youth himself—not by a handsome majority.

The "North State" frankly told the people of North Carolina, in a recent issue, if the Republican party is ever successful it will "favor the payment of the special tax debt." This is to all thinking people a startling "an alarming announcement. The amount of the debt is in round numbers, $22,000,000. The Democratic party have said the people ought not to have to pay that debt, because it is fraudulent, the people never received one dollar benefit from the bonds. Yet the Republican Liberal party is pledged to pay them. The payment of this frightful amount will bankrupt the State. It is equivolent to giving a mortgage on one sixth of all the land in North Carolina.—*Concord Register.*

BEDROOM VENTILATION.—It is necessary to state that the sickening odors so perceptible at the first of the morning in any ill-ventilated sleeping apartment arise from the fact that a considerable volume of carbonic acid, with the vapor of perspiration and other animal exhalations, are mingled with the atmosphere of the chamber? Science proves that all these products are deadly poisons. Nature expels them from the system because they poison the system. Yet we insist on enclosing them within four walls. We shut up doors, windows, and even chimney places, that not a particle may escape. Nay, we surround our beds with close drawn curtains, for the express purpose, it would seem, of preventing ventilation, for the express purpose of hugging close to the poisonous atmosphere of our own bodies, and so re-absorbing into our systems the very atoms which, by the laws of God, have been cast out because they are detrimental. That we do re-absorb these poisons needs no proof The same act of breathing which renders them perceptible to sense of smell, causes them to visit every air cell, to permeate every blood vessel of the lungs, and come into positive contact with all the countless myriads of streams which are traversing the one hundred and sixty-six square yards of respitory surface.—*The Outlook.*
